

## Have You Ever Wondered Why Your Car Rattles?

**WHAT CAUSES THAT elusive squeak?** From whence cometh the hidden rattle that yieldeth not to lubrication? These are questions that the average car owner is not prepared to solve.

Still the squeaks and rattles endure. Nothing is so disquieting. Nothing takes so much out of the pleasure of motoring, or is more embarrassing to the car owner.

Rattles and squeaks are not always due to incorrect or insufficient lubrication. Often the trouble is mechanical, and requires the attention of an expert mechanic.

If you have squeaks or rattles that you can't find, bring the car to us. We have made a study of such things and can help you.

Motor repairing, too. And vulcanizing. And a full line of really good accessories.

### HIGH SCHOOL NOTES

Never in the history of Deerfield-Shields has there been so large an enrollment as this year. There are at present 610 students with a certain prospect of that number being augmented to 700 as the year progresses and a new semester begins. The new students are adjusting themselves rapidly to High School work and the Spirit of Deerfield-Shields and are doing good work. Registration was conducted with the usual facility year and regular recitations were held the first day.

All of the new teachers are filling their positions acceptably. It seems hardly creditable that the school has lost eleven veteran teachers. Miss Noyes, Dennison, Munson, Slattery, Spence, Dr. Newhall and Mrs. Fraser, and four who had been here one or two semesters. The new teachers have been chosen after painstaking investigation from a wide list of applicants and are all experienced teachers who have been highly successful elsewhere.

Mr. Hubert Conover takes the position as director and teacher of music left vacant by the death of Arthur Rudolph Fraser. Mr. Conover has had charge of orchestras, choruses, and classes in harmony and musical appreciation at the Senior High School and Junior College, Grand Rapids, Mich., and in the High Schools of Pittsburg, Mass.

Mr. William Einbecker is a graduate of the University of Illinois where he was a high school scholarship man. During the war he taught military tactics at the University of Wisconsin and Illinois. Afterward he taught science and athletics at the Drummer Township High School. He is teaching Elementary Science and assisting with athletics at Deerfield-Shields.

Mr. Charles Mason is a graduate of Bradley Institute and the University of Chicago where he specialized in English. He has been head of the English Department of the Manual Training High School at Peoria, Ill. He comes here to a similar position.

Mr. E. L. Williams who has charge of swimming classes and assists with athletics is a graduate of the Springfield College which has turned out so many splendid athletic instructors including Alonzo Stagg and our John Rothacher. He appears to have the necessary "punch," and has already won a good place in the regard of the students.

Mr. Edward Burwell comes highly recommended from Northwestern University from which he graduated and the Beleviere High School where he taught last year. He fills a new position as teacher of civics and of educational and vocational guidance. In this latter capacity he teaches how to study and enlightens students as to the requirements in various vocations. Mr. Burwell has a man-sized job since all the freshmen and sophomores come to him.

Miss Gail Hathaway has had experience as a teacher in the Academy at Benzonia, Mich., and in the Morris Township High School as teacher of English and Public Speaking. Last year she served as instructor of English in the University of Chicago. She will have English, dramatics and public speaking here.

Miss Proudfoot is a Master of Arts of the University of Chicago and a teacher of experience and skill.

Miss Minnie Buzard has been principal of the high school at Lake Andes, South Dakota. She specialized in English at Northwestern University.

Miss Edna Amborn who takes the advanced Latin classes has taught successfully at Plattville and Geneva and has been principal of the high school at Mt. Carroll, Illinois.

Another new language teacher is Miss Linda D. Rodenbeck. Miss Rodenbeck has spent some time in Porto Rico since her University courses, acquiring the Spanish Language. She has taught successfully at La Grange, Illinois, and comes from the Township High School in that city.

Miss Lois Hedges who takes Miss Munson's place as teacher of stenography is a graduate of the University of Missouri. She has taught Commercial Branches at Oswego College and at the Monmouth High School.

Miss Lila Louderdale is a graduate of Beloit College, who has met with marked success as teacher of History in Wisconsin high school and the high school at Harvard, Illinois.

Two other highly successful teachers are Miss Christine MacMartin from the Libertyville high school, who teaches mathematics and Miss Ruth Burwash who teaches Household Arts in the position left vacant by the marriage of Mrs. John Oliver, nee Miss Spence.

There are 34 teachers in the school this year including the principal. Of these, 20 teach academic subjects; there are two special teachers of Household Arts, three of Manual Training, three in Commercial Branches, three of Physical Training, one of Art and one of Music.

Last Friday, the school as a whole met in Assembly for the first time. Mr. Sandwick introduced Mr. Conover, the new instructor of music. Mr. Conover played some very delightful selections on the cello and was enthusiastically encored by the students. Mrs. Conover accompanied him on the piano. Mr. Rothacher announced the program for the coming foot-ball season. Lindbloom at Deerfield is the next game. It is scheduled for Saturday the 24th. Don't forget to be there!

The Senior class organized the first Wednesday after school opened.

James Marshall was elected president, Elizabeth Morrison, vice president; Fletcher Seymour, secretary and Paul Gorby, treasurer. Margaret Day and Graham Keagle are the social committee for the class. Mr. Percy T. Slocum is the Senior advisor. The class is a large one and has splendid material in it so that great things are expected of it. The president appointed a committee to decide upon the class rings or pins. Virginia Wicks is chairman of the committee with Garfield Proctor, Margaret Cliggett and Paul Gorby as the other members. It is expected that the class will get the rings or pins by Thanksgiving.

As yet, only two clubs besides the Boy's and Girl's Glee clubs which met last Monday, have organized. The Booster Club met Friday afternoon and elected Grace Mary Durborow as president, Serena Seymour as secretary and Eleanor Clifton as treasurer.

Miss Hathaway and Miss Chester are in charge of the Garrick Clubs this year. Officers were elected Monday morning as follows: Arnold Mason, president, Lucille Spellman, vice president, Edward Grant, secretary and treasurer, Doris Hunter, chairman of program committee.

### FLIVVER KING TURNS RAILROAD WIZARD

Henry Ford went on record as the top-notch ignoramus of big business. Lately, he also went on record as the best little railroad doctor in these United States.

In the six dull months of this blue-nosed year Ford yanked the Detroit & Toledo Railroad out of a yawning deficit and gave it a flying start with \$1,261,259 surplus and net operating income of \$567,618. Where the road before handled 200 cars in 24 hours, Ford steamed up to 1,200 cars in 12 hours. Besides, he ordered the operating officials out of their private cars and made them take regular service or walk. And on top of all these innovations he managed to reduce the train schedule fully two hours!

Did the Flivver King do these things by reducing wages and laying off men? He did not. Clumsy, old-fashioned subterfuge of this stripe only appeals to "regular" railroad men.

Did he accept the wage scale of the labor unions? He did not. He did better than that. He raised his wages over the union scale, and not only disposed of all labor troubles and dickerings by this bold stroke but secured for his road a gang of men who went to work with a gleam in the eye.

Henry Ford is a rotten scolar, but he is a whale of a business man. And business management is what the roads need now rather than sitting tight on ancient "rail" experience. Henry Ford's achievement should be an inspiration to the pessimists who seem to think that there is nothing doing in dull times. Lots of things are actually easier now than in boom times if you'd only study your problem as Ford studied his. There are no dull days for the man who can't observe Sugarman's Indicator.

### WOMAN, 98, DIED LAST FRIDAY NIGHT

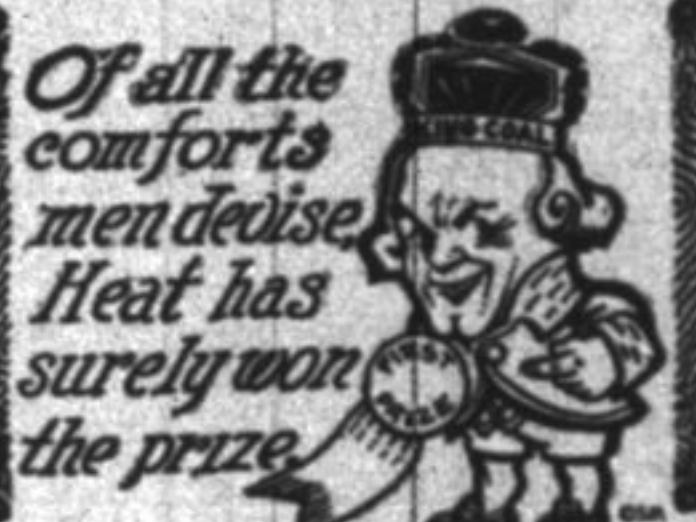

Mrs. Liza Jane Eaton, One of Lake County's Oldest Residents

Mrs. Liza Jane Eaton, who was 98 years old in August died at the home of her son Horace, 206 Second street, Waukegan, Friday night, death being due to the effects of old age.

Mrs. Eaton was born in Barnstead, N. H. Aug. 20, 1823, and so far as the family knows there was no older person in Waukegan or possibly Lake County than she. Five years ago the mother came from Oklahoma to Waukegan with her son with whom she had lived for thirty years.

She had been in the usual health and not until a month ago was she compelled to go to bed. And even then she retained her senses until 24 hours before she passed away. At that time she became unconscious but slept away finally without any apparent pain.

Mrs. Eaton is survived by three children, Horace of Waukegan, Mrs. Myra A. Shaw, of Roswell, N. M. and M. H. Eaton, of Iowa City.
