No Hiding Place Is Safe

Bait for the burglar, the tramp and the sneak-thief — that's what the dollars hidden away in your home are. Only they're poor bait — the owner is the only one who gets caught.

Such dollars are not performing their true function. They are out of circulation. They are not even earning their salt.

We're glad to employ them for you and pay interest. Use our Savings Department.

ROAD QUESTIONS

Every week Lake county papers tell of work being done on new pavements at Volo or Waukegan or Wauconda or Zion. The outlying sections of the county seem to be getting plenty of attention by road officials, but the north shore district has been left to get along as it best may. No new pavement has been constructed in this part of the county for a long time. Telegraph road has been paved, it is true; but it was put in as a federal government road, and is not a part of the Lake county program. Telegraph road, too, is so far inland that it does not greatly relieve the crowded condition of traffic in the north shore cities.

Between Highland Park and Lake Forest there is only one route of travel, Sheridan road. There is no road between the two cities which avoids Fort Sheridan. Green Bay road extends as far north as Highwood. There one must detour to Sheridan road. Green Bay road between Fort Sheridan and Lake Forest is in such poor condition that it is unfit for through traffic. Hence, the entire stream of motor vehicles must use Sheridan road. When traffic is heavy, especially on Sundays, Sheridan road greatly resembles Michigan boulevard in Chicago. The jam of cars makes travel slow and difficult. Sheridan road meanders through the woods and covers a great deal more distance than would a direct route.

The north shore is growing rapidly, and will continue to grow. Very soon, perhaps, it will become absolutely necessary to have along the north shore more highways for through traffic. A very direct route between Highland Park and Lake Forest could be obtained if Green Bay road were continued north from Highwood avenue, Highwood, along the west side of the Chicago and Northwestern railway tracks to the crossing at Sacred Heart academy, Lake Forest. This is only a suggestion; but sooner or later something must be done to provide the north shore with additional and more direct routes of travel.

There are other roads in this part of the country that should be attended to by the county authorities without further delay. The road from Highland Park to Deerfield has long needed repaving. It has remained in poor condition, however, while the county was putting in concrete roads in remote places. Another road that should be attended to is the stretch from Highwood west to Telegraph road.

"THAT'S WHERE OUR MONEY GOES"

All the waste of the taxpayers' money is not caused by the military departments of the government. Many of the government, state and county officials are participants in the spendthrift game. Last week we received at this office some publicity matter from Springfield — an ordinary bulletin that would serve the purpose if printed on cheap paper. The matter was enclosed in an envelope of high grade paper with "Louis L. Emerson, Secretary of State, Springfield, Ill.," engraved upon it. Each daily and weekly paper in Illinois probably received the same sort of letter. There may be some reason why engraved stationery is necessary in circular letters to newspapers of the state; but on the face of things it seems an uncalled for waste of the people's money.

THE WILL TO ENDURE

"The most pressing requirement of the present hour is not how are we to solve our economic problems, but where are we to find the sustaining influences for the realities of life? How are we to justify the existing form of government in our republic? Where shall we resort for teachings in patriotism? On what can we rely for a continuation of that service of sacrifice which has made modern civilization possible?"

"Unless Americans shall continue to live in something more than the present, to be moved by something more than material gains, they will go down as other peoples have gone down before some nation possessed of a greater moral force. The will to endure is not the creation of a moment. It is the result of long training."—Vice-President Calvin Coolidge.

Love is not blind, but it can see only virtues.

With all her faults America can thank God that her honor is unstained.

It would really be more interesting now to see Babe Ruth beat out a bunt to first.
