M. E. CHURCH

The new pastor and wife are nearly ready to consider themselves at home. With the help of some Epworth Leaguers they have progressed rapidly toward the arrangement of household goods, library, etc. We hope very soon to be able to begin getting acquainted with members and friends in their homes.

Enthusiastic reports come from Rev. Dick and family that they are getting established in their fine parsonage in Crystal Lake. This good pastor has gone to a delightful town, good church and are meeting with a most cordial reception.

The congregations that greet the new pastor here, are very encouraging. The Sunday School and Epworth League are well attended, and the outlook for the future is bright, and it is hoped that a loud and prosperous pastorate is beginning.

Be sure to attend the morning service next Sunday. Sermon subject, "A World Wide Power." Special music is promised.

PRESBYTERIAN CHURCH

The Church School will begin at 9:30 o'clock next Sunday morning.

The Rev. Frank Pitt will preach at the eleven o'clock service.

The Adult Bible Class will give a dinner Friday, October 28, at six thirty o'clock in the Parish House.

Girls twelve years old and over are eligible for membership.

A. F. McGarrah, who is connected with the New Era Movement and an expert in church administration and finance, will speak on Wednesday evening, November 2, at eight o'clock in the lecture room of the Parish House.

The Third Grade children are making a nature study chart of grains that are used for food.

Irene Lisa was absent last week on account of illness.

Peter Ori and Armondi Dinelli were the winners in the arithmetic contest in their room.

The first grade children completed their cupboards and dishes illustrating "Mrs. Sugar Bowl's Party."

Misses Carolan and Edwards are teaching second and third grade children songs for Halloween.

So many children have been enrolled that it was necessary to make two divisions; they are known as redbird and bluebird divisions.

The officers of the class of 1922 are as follows: Margaret Gardini, pres.; Eleanor Flannigan, vice-pres.; Kenneth Hepburn, sec.; and Conrad Swan, treasurer.

The Bowman Dairy Company will deliver milk at the school for three cents a half-pint and furnish straws. Parents who want their children to have it should co-operate with the teachers.

several groups of songs. The former friends and parishoners of Rev. Umbach will be glad to have an opportunity of hearing his contribution for this meeting.

The City Beautiful is the attractive subject chosen by Mr. Arthur Brown for his share in the evening program. Those who know Mr. Brown and his interest in civic affairs realize what a treat is in store for the evening.

Classes

The Y. W. C. A. classes are proving very successful, each one doing their share in promoting a need in the community.

A NEW BUSINESS CYCLE PREDICTED

"We are about to enter a new business cycle," says Edward S. Jordan, president of the Jordan Motor Car company.

"The most farsighted business men know, however," he continues, "that it will require possibly six months of further favorable readjustment before the mass of people will realize what has happened."

"Business in all lines will gradually improve as the public comes to realize the extent to which production has been curtailed, and the extent to which price cutting has been carried in many lines."

"Some prices will be further readjusted and all prices will level out in such a way that merchandise can be exchanged on a fair basis."

"Already certain prices are showing a tendency to rise. Keen business men know that nothing will start a buying movement so quickly as rising prices."

"Yet, it will take some months for the mass of people to realize what is going on."

"Therefore, the experience in the great cotton industry will in a measure be repeated in every industry producing a great necessity."

"The silk men felt the change first. Production was curtailed. The depression was critical. Now their mills are running at capacity. Next, the woolen men felt it. And now, cotton has come back. The South is already feeling the effect of rising prices of its great staple."

"Memphis for the first time in many months, is one of the best markets for Jordan cars in America."

"These things happen because one hundred and ten million people in the United States and more millions in foreign countries need certain things. When curtailment of production reaches a certain point the demand turns the other way. Then the buying movement starts."

"Pessimism will still prevail, especially with smoking room oracles, until after the first of January. Only the most far-sighted will realize that it is desirable to accumulate low priced materials. Only the minority during the next few months will have the foresight to prepare."

"In short, if everybody had foresight there would never be any depression, never be any bottom — just a normal progress all the time. The very fact that this pessimism will continue in a measure through the winter will justify the prediction which is being made in every letter which goes out from the Jordan company."

"And that prediction is — 'That a shortage of good motor cars will exist before March 15, 1922.'"

"If I thought that everyone would act upon this prediction, it would not be justified. The very fact that many will consider it ill-timed and not justified will create the very condition which we anticipate."

You would think that people were unable to open their mouths by the way they keep silence at the clubs when public questions are up for discussion, but wait until you see their jaws working on the refreshments.
