**HUNTER SHOT AT FOX LAKE SATURDAY**

**Chicago Man Killed In Argument Over Duck; Assailant Disappears**

John Johnson, of the firm of Johnson & Ackerman of Chicago, was shot to death last Saturday afternoon at Fox Lake by George Niggemeyer, 30 years old, following an argument over a duck, according to information received by State's Attorney A. V. Smith.

The shooting took place at 1:30 o'clock and Johnson died a half hour later. Deputy Sheriff Wesley Gray and Assistant Chief of Police Thos. Tyrrell were sent to the scene of the shooting. Niggemeyer had disappeared.

Johnson had gone to Antioch on a hunting expedition. Niggemeyer and his father conduct a boat livery on Fox Lake.

News of the shooting first reached the office of Sheriff Elmer Green, who was in the southern part of the county Saturday afternoon attending a sale. The Waukegan police were then called.

The shooting took place on the lake, Johnson being in one boat and Niggemeyer in the other. According to Charles Homes, who has a cottage near there, the two men were arguing about a duck one of them had shot. Holmes was in another boat about 100 feet away. He says Johnson quit arguing and started to row away. He says Niggemeyer then pulled up his shotgun and fired. Johnson fell into the bottom of the boat mortally wounded.

Dr. H. F. Beede, of Antioch was called and said Johnson was dead within a few minutes after he was shot.

**ADDITIONAL JUDGE MAY BE NEEDED**

Judge Shurtleff May be Asked to Hear Ordinary Cases During Small Trial

There probably will be two circuit judges sitting in cases at the county seat during the trial of Gov. Small. Judge Claire C. Edwards has stated that while the Small case is in progress he would ask that one of the other judges in the district, probably Judge E. D. Shurtleff, look after the regular run of cases in the circuit court, if it is desired by lawyers in-

terested in those cases. However, this has not been decided because of the fact that State's Attorney A. V. Smith will aid in the prosecution of Small, and several other local lawyers will also be in that case, it may be impossible to have the two courts going at the same time. In case Judge Shurtleff can't come he could attend to a number of matters that did not require a jury trial. It is unusual in this county to have two circuit judges sitting at the same time.

**THE ATTITUDE OF NEWCOMERS**

While the old residents of many places are far too slow to welcome newcomers and make them feel at home, yet sometimes the newcomers do not do their part to make friends. Many people expect that friendship is a gift that will be handed to them on a gold platter, without their making any effort in return, or showing that their friendship is worth while.

Some one was telling the other day of the experience in another city of a family that recently came into the place. They set out to attend one of the churches of the city, but after a little began to growl and complain because they were not shown more attention. The church was noted as being a social one, and visitors were always noticed and cordially welcomed. But it appeared that only one or two of the church people called at their house, and they were bitterly disappointed and felt they were given no welcome.

In these times people are too busy to do the social calling that they used to. Many women who used to make a specialty of going around to see new people in their homes, used to have servants, but now they do their own housework. They can not make the house to house calls that they used to find time for.

If these people who found fault so constantly, had gone into some form of church work, and tried to do something themselves for the community, they would not have felt so lonely. The trouble with them was that they expected everyone to wait on them, while they were doing nothing for others.

Strangers in this city can find no better way to make friends than to take hold and work in the civic life of the community. Let them take a Sunday school class or join some fraternity and enter heartily into its activities, or offer their services in any line of public work that will interest them. They will find that in these ways friends and acquaintances come naturally and without effort.

**HOOVER DISCUSSES SITUATION**

Herbert Hoover, secretary of commerce, in a paper read before the American Electric Railway convention here said the difficulties of the trolley was due to the lack of appreciation both on the part of the public and the companies "of the basic interdependence of your industry and the rest of the industries of the community and the country."

Mr. Hoover presented figures showing the enormous amounts invested in electric railways and the vast sums received and spent by them each year to show the importance of the industry to the nation.

"There is another element to your service, too, which must not be overlooked," the secretary said, "and that is the housing situation, the adequate planning of community life. As you who have developed the industry realize the only factor that makes possible a healthy expansion of housing facilities beyond the confines of congested city districts is that adequate transportation be available."

**THERE'S ALWAYS SOMETHING WRONG WITH THE WORLD**

Lots of people today are grumbling about the trend of the times and are forever harking back to the "good old days of our ancestors." To be sure there is much in this modern age that might profitably be altered and yet the old life was not a bed of roses either. So take your choice between

Present	Past
Trolley cars	Ox teams, shanks mare
Electric lights	Tallow candles
Gas range	Lugging Coal stuttle
Telephone	Mailman
Modern plumbing	Tin basin
Movies	Daguerreotypes
Railroads	Stage coach
Interurbans	Wagon & team
Three squares	Famines

We could go on and fill the paper with comparisons but these will be enough to start one thinking that we are not so bad off after all.

The kid theory of child welfare is a doughnut lunch every afternoon when school lets out.

The jail convicts are convinced that there is not enough freedom in this country.

**Yes, Folks Are Bound**

to keep moving as long as there is a place to move to. And they are bound to employ us as long as we remain in business. We transfer your goods with speed and safety. We are under bond to take good care of the goods placed in our storage keeping.
