

ELECTRIC LIGHT

A lamp realizing the illuminating power of 25 candles costs to operate it 33 1-3 hours 10 cents.

Electric Light is a Luxury in Everything
But Cost

☞ Its the illuminant in the overshadowing majority of houses in this town.

☞ Is your house without this premier light and the advantages that accompany it?

☞ If so, the situation is readily curable.

☞ If your place is adjacent to our lines, the contractor named below will wire it and install the necessary fixtures at the lowest possible price and you may pay the cost, a little down and the balance in twelve monthly payments.

There's a real opportunity involved here---the lowest consistent prices---easy terms of payment---estimates and plans without charge. It interests every owner of an un-wired house. We'll give you full details on request or they may be had from
