DEERFIELD WINS SUB-URBAN CHAMPIONSHIP

(Continued from Page 1) mud. The local coach had prepared his men for the deceptive plays and shifts of Oak Park. Coach Rothacher's speedy backs found the field hardly suitable for open field work, wide end runs, etc.; but altered their play to conditions in admirable fashion. Both teams handled the oval well, although a couple of Oak Park's punts were blocked. The huge crowd was one of the most orderly that ever assembled on the field which speaks well for the sportsmanship of the supporters of both teams as well as the policemen who controlled the great numbers.

The Lineup Deerfield (14) Oak Park (0) Sandwick LE Crawford Watt LT Abbott (C) Feary LG Ackerman Proctor (C) C Madsen Wolf CG Ullman Seymour RT Hardy Spellman RE Lewis McBride Q Spear Steele LH Robinson Baldwin FB Loomis

Substitutions: For Deerfield: Emerson for Seymour, Allen for Steele. For Oak Park: Stafford, Kraft, Nickerson, Eliason, Hamilton, Wilkins, Pettigrew, Geisler, Steinbeck, Kirchin, Ellsworth, Wheeler. Touchdowns: McBride (2). Goals: Baldwin (2). Referee: Eldridge, Michigan. Umpire: Winters, Indiana. Head Linesman: Berry, Illinois.

College students are allowed a certain number of cuts from recitations but it is unparadonable to neglect football practice. The list of hunters' licenses issued in some localities might be complete and accurate enough to use as the men's check list for elections. It has always taken a moving appeal to touch a man's pocket but it takes more than eloquence in these days to reach his hip pocket. Predicted that long skirts will remain in style just long enough to enable the manufacturers to work off their surplus stock. Call The Press, 557 or 558, between 11:00 and 12:00 o'clock today (Thursday) for Deerfield-Brockton returns, or watch our bulletin board in front of The Press Office. Returns will be received by quarters at 10:00 a. m. Eastern Time or 9:00 a. m. Highland Park Time.

GOVERNMENT TO GRADE EGGS SOLD IN CANADA

Ottawa, Ont.—It has been decided to apply government standards to eggs sold to consumers. There will be four grades for home cooking. These grades were established after experiments by household science departments of colleges. The purchaser will specify the grade desired which will come in a package bearing an official stamp. Government grading standards have been applied in the exportation of eggs. The home consumer, it was decided, is entitled to the same protection. Home consumption of eggs as well as exportation has greatly increased as a result of a successful national poultry campaign. This campaign was for the purpose of cutting all flocks of physically unfit hens, fowls that dropped less than 2200 eggs a year. Farmers in the rich prairies of the west are gradually bringing their flocks up to standard and Canada's poultry return this year will exceed \$40,000,000 which is double the return of three years ago. Poultry fanciers and plain farmers are striving for new production records since government experts have placed the poultry industry upon a new and highly profitable basis.

FIND IRON DEPOSITS ON CANADIAN LAKE SHORE

Edmonton, Alta. — Discovery of a valley of iron on the shores of Lake Athabasca has thrilled the north almost as keenly as the discovery of oil on the Mackenzie. The iron by analysis is 64.96 percent pure. Steel taps run over the out-cropping ore showed 150,000,000 tons available for mining while 5,000,000 tons in loose blocks scattered over the ground will require no mining operations. The entire ore body lies close to water navigable by large vessels. The discovery was made by Norman C. Butterfield and E. C. Butterfield, his son. They had gone on a canoe trip to Fond-du-Lac, a fur post at the east end of Lake Athabasca and on their return voyage were forced ashore on a beach of black sand which formed the entrance to the valley of iron. The iron is within convenient reach of railway transportation. It can be shipped aboard steamboats from Lake Athabasca up the Athabasca river to Port McMurray, northern terminus of the Alberta & Great Waterways Railroad which connects with Edmonton. Port McMurray for years was a fur post of the Hudson's Bay Company now closing out its remaining prairie lands to farm settlers but has been transformed into a bustling town by the oil booms in the Mackenzie basin.

POPULATION OF CANADA SHOWS BIG INCREASE Winnipeg, Man. — Population of the province of Manitoba, according to the census report of the Dominion statistician, has increased 32.92 per cent since 1911. The province now has a population of 613,098 as compared with 461,190 ten years ago. Winnipeg, "the Chicago of the north", has increased in population from 138,035 to 178,264, or 31.12 per cent. Steady expansion of industry has been in progress to meet the increasing demand of the agricultural stretches of the west. Harnessing the tremendous water power resources for manufacturing purposes has been an outstanding factor in Winnipeg's growth. Even more impressive is the preliminary census report on new agricultural districts. The electoral district of Dauphin, a rich mixed farming section on the Canadian National Railways, has increased 50.78 per cent from 23,858 to 35,219. St. Boniface, a suburb of Winnipeg, in the heart of a region of unusual prosperity, has increased 71.20 per cent. Other towns that show sharp increases include, Morris, Swan River, Virdean, Brandon and Portage la Prairie.

Population increases may be easily understood when it is considered that the value of Canada's agriculture output grew from \$1,118,694,000 in 1915 to \$1,846,648,000 in 1920, and will show a substantially larger return when final figures for the present year are available. In spite of all this talk about trading with Russia, no one seems to believe that any razors can be sold there. Many folks went delirious with joy on the first Armistice Day, but evidences of something more powerful than joy were observed on the third anniversary of this event. The American people can't keep their working equipment in good condition, since it takes all their money to repair their pleasure cars. The slow pay crowd feel that the business men could economize if they would stop sending bills to people who have no intention of ever settling up. The Congressmen are talking of taking a recess, but even if they do they will accomplish just as much work as if they remained in session. The people who want to settle disputes by war from now on might be permitted to put up their own money and lives to do it.

MISS VALENTINE TO SPEAK AT ELM PLACE

"Reconstruction Work in Devastated Regions of France". Subject for December 5

Mrs. Robert B. Gregory and Miss J. L. Floyd have sent out cards asking their friends to hear Miss Muriel Valentine of Soissons tell of the work she and her fellow laborers have accomplished in the reconstruction work in the Department of the Aisne. This includes some of the most devastated regions in the war zone—Rheims, and the Chemin des Dames right up to the famous Hindenburg line. Miss Valentine has worked in France for over three years and has been decorated with the Croix de guerre. The American Committee has given all sorts of relief to the returned peasant—House furnishings, medical care, looking after children, forming co-operative building societies, purchasing tractors for farm use, and establishing the little libraries the French asked for, where, as they said, "the young could gain courage and hope, and the old, comfort and forgetfulness."

Only five per cent of the homes have been definitely rebuilt, forty-nine per cent are temporarily repaired, and the rest of the inhabitants are living in corners of their old homes, in abandoned quarries and dugouts and cinder heaps. Mrs. Gregory and Mr. Turnley Lightner visited part of these quarters last summer and saw these quarters which did not seem habitable for human beings. Yet Miss Valentine told them of a peasant who, in being asked why he did not take other arable land which the government would give him, replied, "Madam, we have lived here seven hundred years."

The lecture is to be illustrated by moving pictures. The public is cordially invited to come to the Elm Place Auditorium, Highland Park, on Monday evening, December 5th, at eight o'clock. SECOND COMMUNITY GYM CLASSES SOON Open to All Children in Deerfield Township; No Charge Will be Made Final plans are now complete for the community gym classes to be held on Saturday mornings at the high school. The classes are open to all boys and girls of grammar school age. Attention is called to the fact that these classes are open to all the children of Deerfield township, and that there is no charge. The classes are held under the auspices and direction of Community Service of Highland Park through the courtesy and co-operation of the board of education. The gym work will consist of exercises on the floor, and basketball, indoor baseball, and volley ball. The tank will be used during the latter half of the period for instruction in swimming. Boys from 10 to 13 years, inclusive, will be admitted to the gym at 9:00 a. m. and boys from 14 to 18 inclusive will be admitted at 10:15. Each boy must have the written consent of his parents and must have a doctor's certificate of health. Those pupils attending Elm Place school who have already been examined will be admitted upon presentation of a note from the nurse. The girls' work will be in charge of Miss Parnum, physical directress at Elm Place school. The same rules will apply to the girls as in the case of the boys, with the exception that for the present there will be no division of ages, and the girls will come at 10:00 a. m. Both the boys and girls will bring their own towels and a pair of gym shoes or sneakers. For additional information call the Community Center.

START TRIAL OF HAROLD BRANDT Jury Being Picked to Hear Case of Alleged Murderer of Leahy A special venire of 25 men was called Monday in circuit court for the trial of Harold Brandt, 3916 Montrose avenue, Chicago, charged with the murder of Maurice Leahy, special policeman for the Chicago & North Western railroad, at Blodgett, several months ago. Leahy was shot to death in a gun battle with the alleged bandits, one of whom, Herbert McGammond, was also killed. Brandt was indicted and has been held without bond in the Lake county jail.

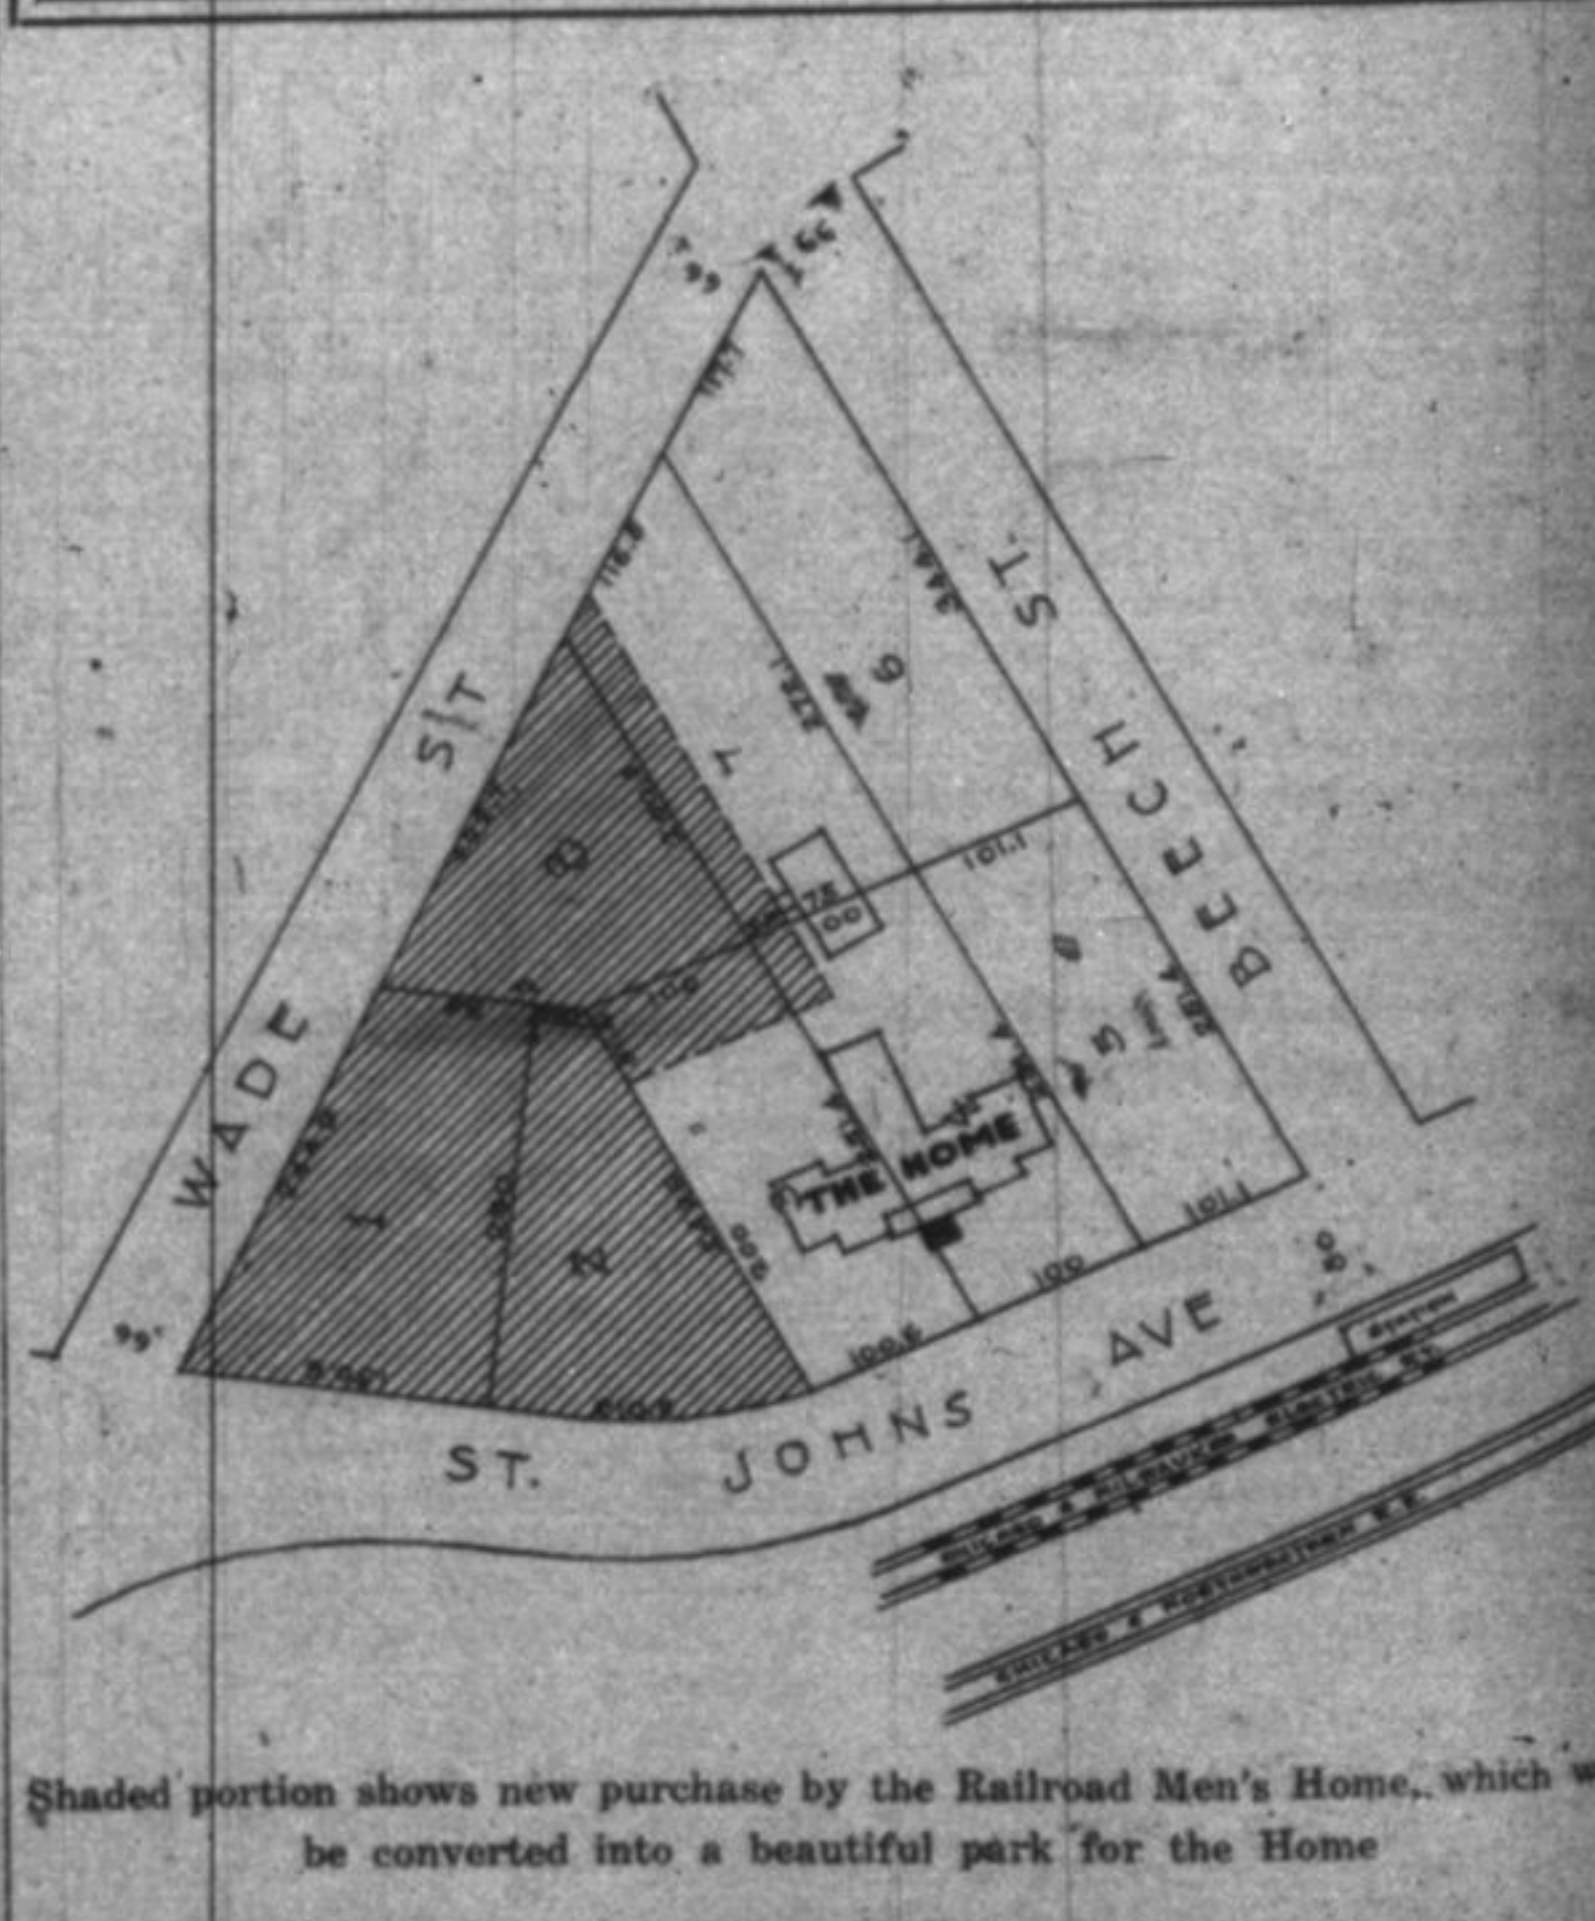

NEXT COMMUNITY CONCERT FRIDAY (Continued from Page 1) er, Dante, is equally at home with the violin. The program will start promptly at 8:15, and all should be in their seats at that hour. There are now 200 family season tickets sold. Families desiring to purchase season tickets for the remaining seven numbers of the course may secure them at the Community Center or at the Elm Place school on Friday evening. The ticket will admit an entire family to seven concerts.

Thanksgiving

By SAMUEL H. MOORE A true state of happiness can be attained only in the same degree in which we express appreciation for favors received or blessings bestowed. Good health, pleasant home surroundings, ambitions realized, unselfishness, tolerance, material successes — all these are great blessings — yet many of us fail to pause even for one day in the year, to thank the Almighty for the careful direction of our destinies. We live in the greatest country in the world — greatest in wealth, happiness, freedom of its people, and in the cause of justice to all humanity. Our women have at last been accorded the right of franchise — think of the wonderful influence for good they will reflect in the ballot and the ideals they will inculcate as Mothers, for the guidance of this and of generations to follow — this is distinctly a step forward in our political life and one for which all should be justly proud and profoundly thankful. Life and happiness are the rarest of material treasures. Springtime brings the soft air and breaking of the buds — Summer the full foliage and songbirds — Autumn the golden harvest before it tints the leaves with frost — Winter the white blanket, crisp clear air and the stars which shine at night. Each so beautiful, that we have a picture of the happiest seasons of life constantly before us, reminding us of God's goodness to his creatures. For all these and many untold blessings, let us be grateful in this season of Thanksgiving. Gratitude is the Mother of Virtue, the most capital of all duties and should be habitual and fervent for mercies received. Copyright 1921 by Samuel H. Moore
