

"Think It Over"

What could reflect more truly the Joyous Spirit of Christmas than Flowers?

What could be more fundamentally a part of the deeper meaning of the Yuletide, with its spirit of brotherly love and good will than Holly, Evergreen and Mistletoe?

What could be more suitable on the Twenty-fifth of December than a live Flowering Plant, or one full of dark green leaves and bright red berries?

What could express more fittingly on that Holiday—Thought, Regard, Appreciation, Reverence, or Love than beautiful blossoms?

What could bring more cheer to your loved ones at home, with ice and snow outdoors, than the warm, contrasting tones of a Red Cyclamen, a Poinsetta, or a Christmas Cherry Plant?

What other gift more suitable to so many of your friends than a Basket Arrangement of Flowers and soft green foliage, or delicate Ferns? It is always quite the proper thing to do.

What could better brighten up the faces of those ill or in sorrow than

girl more than a bunch of Columbia Roses, a Box of Daybreak Carnations, or a Corsage of Sweet Violets and Lilies of the Valley?

What could better brighten up the faces of those ill or in sorrow than a token of your kind thoughts with a few Posies?

What could be a more pleasant surprise to your dear ones far away than to receive a Plant or Basket in full bloom with your card and good wishes?. It can easily be done by wire.

What after all is there to life if you can't make somebody glad on Christmas? Make them happy, and so spread a little sunshine about you. WAKE UP—live a Real Christmas this year — don't only think well of those near and dear to you, but "SAY IT WITH FLOWERS."

Decorate your home with some of Bahr's Holly Wreaths, hang up the Mistletoe and "a wee bit o' Heather" — let the kids have one of our live Christmas Trees to be planted out afterwards. Don't buy your wife an Electric Washer; let St. Peter do the dirty work. Buy her Flowers. Don't buy Candy, for if you pass the box once around the table, it is gone, while the whole family can feast their eyes on a bunch of Flowers and Ma still have her Flowers.

Yours will be truly a Merry, Worthwhile Christmas if you use Flowers and Blooming Plants as Gifts — think it over. We shall be glad to offer you suggestions if you call up 85 — THE FLOWER TELEPHONE.

Any and everything in Decorative Greens for the coming Holidays, but don't put the buying off until the last minute.

Bahr FOR FLOWERS

By calling up our Phone 85, we can telegraph your order for Flowers to be delivered anywhere in the U. S. A. or Canada inside of 2 hours.

OUR LANDSCAPE DEPARTMENT is still busy outdoors. Trees can be taken out or pruned as well now as any other time; Lawns and Gardens fertilized, Beds and Borders laid out and prepared for spring planting, and other work can be done to advantage. May be that there is something you would like to talk over or you would like to know more about. If such is the case, we like to offer you suggestions. It is absolutely free and you will find that we know what we are talking about when it comes to Gardening.
