THE MISSING LINK

According to reports last week a move has been made to connect the sections of Green Bay road between Lake Forest and Highwood. If the plan is successful the property along the west side of the Chicago and North Western railroad right-of-way will be condemned.

This would provide a through route between Lake Forest and Chicago. At present everyone traveling along Green Bay road Chicago. At present everyone traveling along Green Bay road Chicago. At present everyone traveling along Green Bay road Chicago.

Then, too, there is need for another road for through traffic. At present everything must pass through the Fort Sheridan reservation. During the summer the roadways are always congested. The property which would have to be condemned fortunately is waste land, and would not cost a great deal. Now is the time to open up the "missing link" in Green Bay road.

WHAT IS HONEY?

Honey is the nectar of flowers modified and evaporated by the bees. It is placed on the market in three forms: First, COMB HONEY, as found in the small sections known as combs; second, EXTRACTED HONEY, so called because large combs are whirled in a machine called a honey-extractor, until the liquid honey flows out, leaving the combs practically empty so they can be put back in the hives to be filled again by the bees; third, GRANULATED HONEY. Extracted honey that has been kept until it solidifies. Granulation is no wise affects the quality, for nearly every kind of honey, if kept long enough, will solidify or candy. It may be reduced again to the liquid form by being placed in a can that is surrounded by hot water. The extracted or liquid honey is often sold at a lower price for the reason that the wax of which the comb is built is produced by the bees at the expense of many times its own weight in honey, and since in this form the combs are not sold, but are filled over and over by the bees, this amount of wax is saved. LOCAL AND PERSONAL NEWS

Charles R. Johnston, Deerfield-Shields, 1919-21, now a freshman at the University of Illinois, who is spending a few days here between semesters, last Sunday extracted a piece of navy brass shell from the third finger of his left hand. Four years ago at Lake Bluff he exploded the shell by hitting it on the cap and immediately became an emergency hospital case. The wound was at the back of the finger and was dressed without the piece of copper being discovered. The copper piece gradually worked its way around to the front of the finger, and he was able to pull it out.

COMMUNITY MINSTREL OPENING REHEARSAL

The joint committee of the Young Men's club and the Community Service for the community minstrel, to be staged in the spring, announces that it is ready to begin work on the show, and the opening rehearsal will be held next Tuesday evening, Feb. 7, at the Elm Place auditorium at 7:30. At that time the entire cast will be assembled, and plans for the show outlined to them. A short rehearsal of the music will be held.

The committee announces that fifty singers, dancers, and comedians will be needed for the big first part, and about 25 young ladies for the cabaret scene. In addition, there will be comedy and novelty acts of many kinds, and other features will be arranged for in the coming production. As a special feature the committee and director in charge will assemble a local talent orchestra. Already a number of good musicians have been lined up, and with good music from the pit a snappy show will result.

Cards of notification have been sent out this week to most of the talent, but the committee makes it plain that all are welcome, regardless of whether they receive a card or not, as this is to be a community enterprise, and is open to the entire public.

Harry Eichler, president of Community Service, heads the committee in charge of the production which is composed of Geo. Steiner, Wm. Harrison, Calvin Aynsley, Art McCaffrey, R. H. Cutsler, Wm. Bowden, Egbert Spencer and A. L. Herring.

COMMUNITY SERVICE

The monthly social party of the classes in English of Community Service was held at the Community Center on last Thursday evening. The affair was sponsored by the Highland Park Woman's club and all had a very enjoyable time.

In regard to these classes, Community Services wishes to announce that more teachers are needed for the work. Anyone who will volunteer to devote one hour and a half a week to this kind of work will confer a great favor by getting in touch with Director Herring at the Community Center.

The classes meet each Tuesday and Thursday evening at 7:30. Reading, writing, spelling, history and the customs and habits of the country are taught to over 50 of our foreign born people who come from nearly a dozen different countries.

The work of the Boys' club is progressing very favorably and the membership is increasing steadily. On next Wednesday evening nearly a dozen candidates will be initiated into the club. The regular meeting last night was postponed in favor of the basketball games which the two teams representing the club played Deerfield.

Attention of the public is called to the program of entertainment which is being prepared for the visiting delegates to the Illinois Executives' conference on Community Service which is to be held in Highland Park Wednesday and Thursday, February 22 and 23. On the evening of the 22nd a community dance will be held at Witten's hall which will be free to the entire public of Highland Park. It is hoped that on this occasion that our citizens will come out with their families and get acquainted with the visiting delegates.

On the evening of the 23rd, the sixth number of the community lyceum course will be held at the Elm Place school. The program will consist of a short demonstration of the Boys' club work, a musical program presenting some of the best artists of Highland Park and a short playlet. Further announcements will be made later.

Community Service is co-operating closely with the local park board in drawing up a program and plan of operation for our community golf course which will be opened to the public in the spring. Suggestions from Highland Park people will be gladly received at the Community Center.

Gym classes at the high school on Saturday mornings are getting splendid results with the younger boys. The work of these classes is carefully designed to develop the physical powers of the boys and to give exercise to those portions of the body which receive the least amount of exercise in the ordinary play of the children. Boys who are underweight are finding their weight is increasing week by week and those who are overweight are reducing gradually.

Parents of Highland Park are urged to think of the physical side of their boys and send them to us at the high school where they will receive careful instruction in the care of their physical being. Classes begin at 9 o'clock each Saturday morning.

The employment bureau has placed a number of people in jobs during the past week and the public is reminded to call the Community Center when in need of help.

The unemployment situation has gradually eased up here and by spring unemployment should practically be non-existent.

Two basket ball games have been scheduled for the Community Boys' club with teams representing the Winnetka Community House. The games will be played Saturday afternoon, February 4, at Winnetka and will start at one o'clock. The teams will leave the Highland Park Community Center at 1 o'clock and will be accompanied by a number of rooters.
