CARRY MORE FIRE INSURANCE
Many people fail to realize that the replacement value of their business property and homes is far in excess of the insurance they are carrying.
One may be carrying only four or five thousand on a home which at the present cost of building could not be replaced for less than ten thousand dollars. More expensive properties may only be protected in the same proportion.
Call at the office of Paul Schroeder & Co., 384 Central Ave., Highland Park. Their agents will be pleased to take your application for such amount of insurance as should be carried for your full protection. -Adv.

SPECIAL ASSESSMENT NOTICE
No. 253
Notice is hereby given to all persons interested that the City Council of Highland Park, County of Lake and State of Illinois having ordered that a connected system of Water Mains be laid in Ravinia Road, Burton Avenue, Bellevue Place, Pleasant Avenue, Broadview Avenue and along the 15 foot easement provided therefor from Broadwayview to Ravinia Road, the ordinance for the same being filed in the office of the City Clerk of said city and having applied to the County Court of Lake County for an assessment of the costs of said improvement according to benefits, and an assessment thereof having been made and returned to said court, the final hearing thereon will be had on the 25th day of February, A. D. 1922, or as soon thereafter as the business of the court will permit.
Said assessment is payable in five (5) installments, with interest at the rate of five (5) per centum per annum on all installments from and after date of issue of first voucher. All persons desiring may file objections in said court before said day and may appear on the hearing and make their defense.
THOMAS MORTON,
Officer appointed to make said assessment.
Dated at Highland Park, Ill., February 9th, A. D. 1922. 50-51

Cheerfulness may sometimes be difficult, but it always pays dividends.
A clever sales idea starts a proposition auspiciously, but it is merit and service that keeps it going.

The larger the committee the slower it functions.
With everybody demanding the best cuts of meat, who, we wonder, gets the poor ones?
Leaves of trees, shrubs, etc., or perhaps the most vital factor in the world of living things, as every element of food, save salt and water, comes to mankind through leaves.
