**What Number Did You Call?**

It is always the best practice to consult the directory before you make a telephone call unless you are positive of the number. When you call for the number of a telephone which has been discontinued, if the called subscriber has moved or the number has been changed, it is necessary for the operator to pass this call to another operator, who checks the number called and advises you in turn of the error. This necessarily slows the service.

The directory has a page on which numbers frequently called may be noted for ready reference. This list should be checked and corrected with each new issue of the directory and all other handy lists should be discarded.

Johns-Manville Company Awards Big Contract; Other Brief Items of Lake County News

Waukegan soon is to become one of the biggest coke-producing centers in this part of the country. The Berlin-American Coke Oven company has received a contract to install one hundred twenty 16 1-2 ton coke ovens in Waukegan at a cost of \$8,500,000. The Johns-Manville company, it is reported, placed the order.

Judge Claire C. Edwards last Saturday ordered the books of the Kankakee First Trust and Savings Bank which were brought into court in the case of Governor Len Small, returned to the bank. At the same time he instructed H. C. Burnett, appointed to inspect the books, to go to Kankakee Monday for the purpose of examining all the bank's records.

Hundreds of passengers on a Chicago, Milwaukee and St. Paul train at Libertyville, had a close escape from death last Friday when the driving rod on the locomotive broke suddenly, tearing up ties and portions of the roadbed for some distance.

It so happened that the train, Chicago bound, was just pulling out of the Libertyville depot when the accident happened and it had not gained sufficient momentum to be derailed as a result of the accident. Trainmen admitted that if the accident had occurred while the train was running at a high rate of speed that the locomotive would have left the rails and plunged into the ditch dragging the entire train of passenger coaches after it.

Eight clubs and civic organizations in Waukegan, voted in favor of daylight saving at a meeting of the Civic Council at the Chamber of Commerce last week. One club voted to stay on standard time.

Various American Legion posts are planning a boxing show at Fort Sheridan April 20. All county posts will probably be interested in the show. The card will be made up by a Highland Park promoter.

Joseph Smole, 1427 Prescott street, North Chicago, was taken by the sponge squad, last Friday afternoon and found to have in his possession a gallon of "white mule" and ten gallons of corn mash.

He was taken before Justice Charles E. Mason and released on \$2,000 bond. His case comes before the grand jury April 27.

Definite steps toward the paving of North Sheridan road in Waukegan between Glen Flora avenue and the city limits, were taken last week when the city advertised for bids.

On the principle that like cures like, the boys and girls who go on petting parties should be fed on mush.

The big city newspapers shouldn't print their pages in such small type as to spoil everybody's eyes, as if people became blind they don't buy newspapers.

*The Lark*

ON a golf course, where there are several women attractively dressed, if there is one woman in natty knickers, she stands out distinctly in the group. That best describes how *the Lark*, in appearance, dominates in the company of other cars.

Its dashing design and sparkling colors, the extra wheels on the running boards, the trunk in the rear, the windshield wings, the nifty cowl lamps, and its complete equipment otherwise, create an ensemble effect totally new.

But the best thing about *the Lark* is the Ansted Engine.

It is aptly called the "miracle motor" because it has fifty per cent more power than conventional engines of the same size—it eclipses larger engines in power and shames smaller engines in economy. Come and see it!
