A charming little three-act play, "The Forest of Every Day" was then presented by a class of juvenile amateur actors under the direction of Miss Florence B. asked to stay away. No doubt it is some of the rejected ones who are endeavoring to mislead their employers as to the method in which the club is being conducted. I wish to say that some of the leading citizens of Highland Park have been of great assistance in financing the club for which we are most grateful.

The members of the club are the very best element of my people, many of whom have been in the Park for years working hard to build up a worthy reputation for themselves.

I wish to say also that I wouldn't like to be responsible for anyone just because they may say they are acquainted with me, or that they are members of the club, unless I am asked about them. Many no doubt have been to the club merely to use that as an aid to themselves and many come and stay for only a week or two and of course I cannot vouch for the floating element even though they belong to the club.

The main object of the club is to help each other in our daily work thereby enabling us to perform our duties better for those employing us.
