

THE SPIRIT of 1776

Like the pioneers of 1776
Who fought for freedom
And created a government
Fit for a growing country

So let us by thrift and
Simple living fight for
Individual independence
And community prosperity,
Thus making this a better
Place in which to live.

LOCAL AND PERSONAL NEWS

Published weekly by JOHN L. UDELL and PAUL L. UDELL, at Highland Park, Lake County, Illinois

Entered as second class matter March 1, 1911, as the post office at Highland Park, Illinois, under the Act of March 3, 1879.

NUMBER 19

THURSDAY, JULY 6, 1922

A MILLION DOLLAR IDEA

C. K. Nelson, inventor of the Eskimo pie, is said to be getting \$30,000 a week for his simple idea of coating a block of ice cream with a thin layer of hardened chocolate. He gets his money by selling to ice cream manufacturers the right to make Eskimo pies at a royalty of five cents a dozen. According to that he makes a million every eight months. Not as much as Henry Ford or John D., but Nelson is the son of a confectioner at Onawa, Iowa, and a year ago he had no idea that vast riches were in store for him. And yet they tell us that success is "one tenth inspiration and nine tenths perspiration."

PARASITES OF MOTORDOM

Motorcycle policemen along the north shore, encouraged by the results of the early summer business, are reaping a golden harvest. In most of the cities and villages between Evanston and Waukegan officers, who receive a certain percentage of money collected in fines, are more than ordinarily active. Naturally when the law holds out to them the plum of increased income through numerous arrests they are anxious to extract as much money as possible from passing motorists. It follows as a matter of course that these officers are more interested in fattening their own pocket-books than in actually enforcing the motor laws. They do not draw any line of distinction between a slight infringement of the speed laws and real reckless driving which endangers life and limb. The technicalities of the laws afford them ample opportunity to haul scores of people before magistrates and take from them money, a large proportion of which goes in fees to the officers. Motor laws should be enforced, of course, but they should be enforced with the idea of making motoring safe for all; not merely to provide a source of revenue for motorcycle "coppers."

In a circular notice sent out this week a well known automobile club warns its members and others, as follows: "Speed Trap. Watch out for officers in Studebaker and Cadillac touring cars patrolling in vicinity of Lake Forest and Lake Bluff on Waukegan and Telegraph road."

The Press believes that as good results would be obtained if officers would warn the lesser offenders instead of hauling them into court along with the speed demons. Warnings in most cases would be as effective as arrests, though not so remunerative for the "coppers."

BIG NEW FEATURES ADDED TO COLOSSUS

Ringling Bros. and Barnum & Bailey Bring Shipload of Novelties from Europe

Made even more tremendous than in 1921 by the recent addition of many more trained-wild animal displays and the purchase of Europe's biggest horse show, Ringling Brothers and Barnum & Bailey combined will exhibit at Grant Park, Chicago, 9 days, starting July 22.

All who glance over the cable news or who read the magazines must have noted the many contracts entered into by the Ringling Brothers for foreign talent last winter. A special ship was chartered this spring to bring the hundreds of human performers, trained animal acts and equine displays to America. More than a million persons saw the mammoth new circus of 1922 during the weeks that it exhibited in Madison Square Garden, New York. Now this marvelous exhibition is touring the country aboard five great railroad trains. It is a third bigger than the Ringling Brothers and Barnum & Bailey show of last season. It is ten

Big as is this wonder circus of 1922—with its more than twenty trained wild-animal displays in steel arenas, fully 150 wonderfully schooled trick horses, 700 men and women performers, 100 clowns, and scores of features—the price of admission is no more than before. And though the trained animal numbers and the immense horse show were circuses in themselves while touring Europe, they are not offered as separate attractions by the Ringling Brothers and Barnum & Bailey combined shows. Instead all are on one gigantic program. Everything is in one mammoth main tent. One ticket admits to all and includes admission to the tremendous double menagerie. There are more than a thousand animals in the zoo of this circus and these include a tiny baby hippopotamus only recently born, and accompanied by its three-ton mother. Another remarkable zoological feature is an armored rhinoceros, the only one known to exist and for which the Ringlings recently refused an offer of \$30,000.

The only way that some fellows can make a noise in the world is to get out on the road with an unmuffled motorcycle.

The Library Board will meet this evening at eight o'clock in the library.

Mr. and Mrs. Charles Hoopes of Chicago were the Sunday guests of Mr. and Mrs. H. F. Clow.

Mrs. John H. Harmon will leave next week for California where she will spend several months.
