Great Electric and Gas Belt Increasing in Its Prosperity

ARKED industrial revival and greatly enlarged building activity is noted in the industrial and residential districts on Chicago's fringe.

Chicago is bounded on the East by Lake Michigan, on the North, South, and West by the electric transmission lines and gas mains of the PUBLIC SERVICE COM-PANY OF NORTHERN ILLINOIS.

The electric power business of this company shows an increase of 24 per cent compared with Jan. 1. Electric lighting business has increased 15 per cent. Sales of gas for industrial purposes are 12 per cent higher than in the corresponding period of 1921.

Every move of an industrial plant to Chicago's outskirts and suburbs or of a citizen to territory adjacent to the city, means added electric and gas business for the PUBLIC SERVICE COMPANY.

A territory of 5,800 square miles, whose population is in excess of 1,157,000 is served by the company's 7 gas manufacturing plants and 16 electric generaon lines and 900 miles of gas mains serve. not only the great industrial and residential districts surrounding Chicago, extending from the Wisconsin tate line, on the North to the Indiana state line on direction as far as the Northeastern corner of Peoria County, crossing the rich agricultural and

As evidence of the great progress Northern Illinois has already made is the fact that the electricity es of the PUBLIC SERVICE COMPANY O NORTHERN ILLINOIS have increased nearly 450 per cent in the past ten years.
