

## VISIT HOLLAND AND BELGIUM ON TRIP

### COMPARES WITH AMERICA

R. L. Sandwick Writes from Brussels, Telling of the Interesting Features Abroad

Brussels, Belgium July 13, 1922

Mr. Udell, Highland Park, Ill. My Dear Mr. Udell: We shot out of London the evening of July 9th by the great Eastern Express bound for Harwich with a speed that seemed terrific. There was no blowing down for towns or crossings; and by the way the landscape flew past, I should judge we were going not less than a mile a minute. The twilight lingers in England. We took the boat by the Hook of Holland line while it was still light at seven o'clock, and I stood on deck for a half an hour longer and saw innumerable ships of war mainly submarine chasers, anchored down the long channel. They have an hour of daylight saving time in England as we have.

Next morning we landed at Nordwyk. We had to show our passports, but our suitcases and bags were not opened as they were when we went into Canada. Even less attention was given them when we passed from Holland into Belgium. Evidently American tourists are trusted and wanted. I had been surprised when in England to find so much farming coun-

Preceding the game Sunday several selections were played in the uptown district.

Program for Coming Week Contains Many Attractive Numbers; "Lohengrin" Tuesday

Number two in Ravinia's plan of adding four operas to its repertoire this season is "Le Chemineau," definitely dated for Saturday night. This is likely to prove a masterpiece as interesting as any yet undertaken by Mr. Eckstein, who, so far, has done well at Ravinia with works which have been simply hailed in passing by other American opera houses.

## CONTRACT LET FOR SEWER IMPROVEMENT

The North Shore Sanitary board has let the contract for the construction of a modern sewage disposal plant for the north drainage district of Highland Park and for the city of Highland, and is making similar side thetactoin Lake Forest, Lake Bluff and Waukegan.

The contracts let will run from \$100,000 to \$150,000, it is estimated, and work will begin in the near future. The engineers have been taking grades and levels for that district.

While many leading engineers consider the aeration process for the treatment of sewage better than the septic tank process, the latter is cheaper because patents on it have expired, and it is more generally used.

The Highland Park septic tanks are being enlarged to take care of the steady increase in the amount of sewage during the past few years.

## F. B. GREEN ANNOUNCES CHANGE OF BUSINESS

Mr. Frank Green announces that Mr. Ed. Hoskin will succeed him in the ice cream business. Mr. Green thanks the people of Highland Park for their liberal patronage in the past and hopes that it will be witnessed under Mr. Hoskin's able management.

## BARNYARD GOLF FANS TO MEET NEXT SUNDAY

Anyone Interested Should Confer with Members at the Fire Station

Some one has asked, Are the Horse-shoe pitchers of Highland Park asleep? It is understood that Lake Forest thinks they are dead.

Last year through the generosity of the Press and the Lake Forester, a handsome silver cup was donated to be contested for by North Shore towns. Lake Forest, North Chicago and Highland Park entered the tournament. North Chicago withdrew after the first match. Highland Park and Lake Forest continued the contest which was finally won by Lake Forest after some close and exciting play. The local boys did their best, but Lake Forest was the better balanced team, and deserved to win.

That was last year, but what about this year? It is hoped that if any of the barnyard golf fans have any local pride they will attend the next meeting which will be held at ten o'clock next Sunday morning at the Fire station. Anyone wishing information should communicate with the Manager of the Horse Shoe club, care of Fire department, Highland Park. Games will be scheduled for any evening or Sunday morning. The Committee.

## CITY'S POPULATION GROWING RAPIDLY

City Officials Estimate Increase at 800 During the Past Eighteen Months

That the population of Highland Park has increased 800 during the past 18 months is the opinion of city officials, who base their belief on the fact that nearly 160 permits for the construction of homes have been issued in this city during that period. Last year 100 homes were built. Up to this week 94 building permits have been issued, at least 60 per cent of which were for dwellings.

Among the homes now being constructed are the following:

- Zimmer and Ruber are building a \$10,000 brick veneer house in South Sheridan road, between Forest avenue and Beach street.
- Julius Laegeler is building a \$7,000 house in North avenue.
- A. L. Bell has started the construction of a \$6,000 house in Oakwood avenue.
- A man named Armstrong will have a \$5,000 bungalow in Rice street, near Roger Williams avenue.
- L. R. Hanwalt is constructing a \$7,000 bungalow in Wade street, Black's subdivision.

## DEERFIELD ENTERS NEW AREA OF PROGRESS

COMMUNITY IS ACTIVE

New 24-Foot Concrete Highway Soon to Start Will Link Village With Highland Park

The beginning of actual construction work on the new 24-foot concrete highway between Highland Park and Deerfield will mark the beginning of a new era in the history of the latter village.

Already Deerfield has changed its character from a quiet unassuming village to an "up and coming" north shore community. With the opening of a real estate boom this summer the village is being advertised as a suburban residence locality. People of Highland Park and other north shore cities have been so busy with their own affairs that they have only recently come to realize the fact that a sister city with many of the advantages of the larger places and without many of their disadvantages is rapidly growing up at Deerfield.

Here are a few of the things that have been brought about or about to occur in the enterprising village: Waukegan, road, a fine concrete highway, gives Deerfield a direct route to Chicago and cities to the north. A new pavement to be put in this summer will afford residents there easy access to Highland Park and the north shore.

The Briergate golf club, which was opened May 30, has one of the best courses in this part of the country. Vice President Calkins of the C. M. & St. P. railroad company, in a speech at the recent annual meeting of the Briergate club, lauded the latter as one of the best and most enterprising golf clubs in the Chicago district. Mr. Calkins is building a large new home just west of the Briergate club.

The new International three-ton fire truck with Peter Pirsch and Son's equipment will afford the village adequate fire protection. In a test at Kenosha the pumper threw a large stream of water over a four-story building. The machine passed the underwriters' test in a very satisfactory manner last week. Deerfield is installing a new 300-gallon per minute pump at the east limits in order to increase the water pressure in the village. The water is furnished from Highland Park.

An ordinance providing the installation of a complete system of sewers has been passed by the board of trustees.
