BOHL'S DISPLAY WINS

The "Sentinel", Holland, Mich., newspaper has the following to say about M. Bohl of that city, a former resident of Highland Park:
M. Bohl, of the North Side, is again holding a little fair of his own this year in the line of exhibiting fruit. Mr. Bohl made an exhibit last year during fair week in the window of Vaupel drug store and this was so successful that he is following the same plan this year.
Among the fruit he is exhibiting are Snows, Golden Russets, Wealthies Talman Sweets, Hubbards, Tompkins King and Flemish Beauty pears.

ELECT NEW OFFICERS AT S. S. CONVENTION

Dr. Earl Fritsch, Chosen President of Township Association

The annual convention of the Deerfield Township Sunday school association held last Sunday in the Presbyterian church was the best in several years. Much credit is due the Deerfield Sunday schools for the large representation, which carried the attendance well above that of last year.

These reports of the various schools were very gratifying, showing that each school is well manned with capable officers and teachers, and is growing in numbers, Christian influence and offerings for local and missionary purposes. During the past year the township schools have contributed \$3032.48 for missionary work. This includes \$500 for the Good Samaritan Dispensary, a free medical dispensary for the sick in Santiago, Chile.

The association feels highly honored in the appointment of Miss Irene Roekenback of Deerfield as Superintendent of the Children's Division of the Michigan State Sunday school association. Although the association regrets her departure, they are very thankful for her influence and inspiration while among them.

The newly elected officers are: President, Dr. Earl D. Fritsch. V. President, Arthur E. Merner Sec'y. Treas. Alonzo Jones Superintendents of Departments: Children's, Henrietta Laing Young Peoples, Arthur Larson Adult, Milton K. Tillman Home, Mrs. Fred Botker Missionary, W. E. Bletsch Temperance, Arno Frantz Teacher Training, Herbert R. Smith Administration, William Guyot

UNITED EVANGELICAL

J. H. Keagle, Pastor
Program for Sunday Sept. 17.
Bible school at 9:30 sharp. New scholars are coming in nearly every Sunday, and the old ones are flocking in from the vacation period. You will find a cordial welcome and a place in a suitable class. Dr. Earl Fritsch is superintendent.

The pastor will preach at 10:45. The Christian Endeavor society will meet at 6:45. The subject is "How can we help Foreign Missionary Work?" Frances Tillman and Mildred Maechtle, leaders.

A song service followed by a short sermon will begin at 7:45. A cordial invitation to all.

The General Conference of the United Evangelical church will convene at Barrington, Ill., Oct. 5.

This is the law making body of the denomination and meets every four years: This is a very important session, and will consider some great problems, among which will be the question of Organic Union with the Evangelical Association. The question has been before all the annual conferences of the two denominations. The Evangelical Association has voted for union without a dissenting vote. The United Evangelical church vote has not been unanimous, but a great many more than the necessary three-fourths vote has been given and it is now up to the vote of the General Conference to settle the matter.

Every annual conference except one has instructed its delegates to vote for union, and that one has refused to vote, declaring the action of the two Commissions in formulating a basis of union illegal. A great deal of interest is being manifested as to the outcome.

HIGH SCHOOL NOTES

The Deerfield-Shields Girls' Athletic association held its first meeting on Tuesday Sept. 19. The following officers were elected for the ensuing year: Helen Robbins, president; Wilhelmina Spellman, vice-president; Martha Moore, secretary and Elizabeth Holland, treasurer.

Wilhelmina Spellman gave an interesting account of her trip to Petersburg where she attended the conference of the Illinois League of High School Girls' Athletic association.

Grass hockey has been added to the list of sports offered for girls. Matches between classes will be played late in October, practices for which are being held twice weekly.

This is said to be women's year in politics, but they have graciously decided to let the men have most of the offices a little while longer.

One cause of automobile accidents is the number of sentimental young men who think they have acquired skill in driving their cars without hands.

Whatever the government predictions may say, a good many folks seem to think that the weather in this country is going to be dry.

The men of course despise subversivity to fashion, but it is a terrible crime to be seen with a straw hat on after the bell has rung.

Many husbands will breathe more freely when they get their wives safely past the millinery openings.

On the Road to Two Millions

Below, we submit in condensed form the report made to the Auditor of Public Accounts in response to call.

"The biggest ever," it puts us safely past the One and one-half Million Mark, and finds us in fine form on the road to Two Millions.

TAX ON NORTH SHORE CITY PROPERTY
(Continued from Page 1.)

state of Illinois," which is quoted as follows:

"Quotes Constitution"
"The general assembly shall provide such revenue as may be needed by levying a tax, by valuation, so that every person and corporation shall pay a tax in proportion to the value of his, her or its property, such valuation to be ascertained by some person or persons, to be elected or appointed in such manner as the general assembly shall direct, and not otherwise," and further, "Section 9, Article 9 of the constitution, which provides that "for all corporate purposes all municipal corporations may be vested with authority to assess and collect taxes; but such taxes shall be uniform in respect to persons and property, within the jurisdiction of the body imposing the same."

Calls It Fraud
Summing up the petition declares that the action of the board of review in making these increases "amounted to a fraud upon the taxpayers of said cities; that the board of review, under the facts in the case, were without power to increase the assessment." In support of this position the petition quotes at length from decisions of the supreme court and from the decision of the county court of Lake county in its decision upholding the argument of the objectors to the 30 per cent increase of 1922 in

the cities referred to in the premises.

That the board of review was willing to give the objectors to the alleged unequal taxation fair consideration is indicated by further text of the petition, which says that while "the county treasurer was furnished special counsel for the trial of said cause to assist the state's attorney and has prayed an appeal from the decision of the county court, and are contemplating spending further public funds to hire special counsel to prosecute such appeal; yet when the 1922 board of review applied to the county board for financial backing to make a county-wide equalization of valuations to obviate said lack of uniformity in the assessments, and to the end that a just assessment of real estate and improvements might be made thereon," such aid was denied the board of review by the board of supervisors.

Asks Relief
Because of this alleged attitude on the part of the county board, according to the petition the objectors are asking the board of review to adopt the resolution previously referred to in order that the alleged illegal and void 30 per cent raise made in 1919, 1920 and 1921 may be eliminated, and property in shore cities subjected to equitable taxation in a fair proportion to that imposed on lands in parts of the county outside these cities.

Lands and Lots.
In connection with the filing of this petition with the county board, attorneys for the objectors declare that in several of the lake sections of the county owners of farms have been

sub-dividing their properties into lots and selling them as sites for summer homes at prices far in excess of the average prices obtained at present for lots in shore cities, but that there has been no proportionate increase in the taxation of such lots, which, it is claimed, are still assessed on the same plan prevailing everywhere throughout the county outside the cities mentioned in the petition.

"Coming and Going"
The condition, say the objectors, is becoming unbearable. The property in these cities is paying a huge percentage of the taxes of the county and are not getting anything like a fair proportion of tax funds for use on municipal improvements. The cities are "hipped twice," is the way one objector puts it; "they are taxed out of all proportion to the assessments on outside property and the outside property gets the benefit of the most of the improvement for which the funds obtained are utilized."

The petition was filed Sept. 5 with the county board and a board of review by Attorney Ernest S. Gail, Schumacher & Murphy and Henry F. Dickman.

To Put Board on Record
The attorneys believe that the filing of this petition will put the county board on record. "The board must either turn it down or act on it," was the way one of the counsel for the 300 objectors expressed it. He also stated that supervisors from the cities concerned were willing to give the matter fair consideration, but they were outnumbered by the members of the board from the townships outside the shore cities.
