"Chicago's most intellectual set sat spell bound yesterday afternoon while Louis K. Anspacher wove enchanting webs of golden words. He spoke with lightning rapidity and brilliancy."—Chicago Examiner.

"The course concluded to the regret of a large audience. Mr. Anspacher so interested his hearers, that at the close the applause begun, lessened, and then was three times vigorously repeated."—Brooklyn Eagle.

"Mr. Anspacher's voice is one of the most flexible vehicles imaginable; and his dramatic training brought vividly to his hearers the scenes which he rehearsed in bringing out the various points of his discourse."—Post Express, Rochester, N. Y.

VACATE SCHOOL IN SEVENTY SECONDS

Excellent Discipline at Deerfield Shields Shown in the Fire Drill

Monday, about 1 o'clock, a representative of the Highland Park Press saw a remarkable demonstration of the excellent training and discipline in the Deerfield-Shields high school, when more than 600 pupils in the building vacated the class rooms and were safely outside in one minute and 10 seconds after a fire drill alarm had been sounded by the automatic gongs in the corridors.

The building was emptied in an orderly manner, and with the kind of system that means safety in emergency. First the pupil councilors came out and hurried to the doors and fire extinguishers, opening the doors and getting the extinguishers ready. Then came the pupils marching silently so as to hear any orders that might be given. All were quickly out of the building and marched across the street to be out of the way of the fire truck, in case the firemen had to make a run to the school. It was a sight to inspire confidence in the safe methods employed by the school officials.

ELKS TEAM LOSES TO LAKE VILLA NINE

Davidson, Lake Villa Pitcher Too Fast for Locals; No Hits For Six Innings

The local Elks baseball team was defeated last Sunday at Lake Villa by the fast team of that city, seven to one, the locals being unable to get a single hit off Davidson, the Lake Villa pitcher, until the seventh inning. It was the final game of the season, and the Elks team was able to score but one run, which tallied in the eighth. Luckey opened the seventh with a three-bagger to center; Wohlbruck hit a single over short in the eighth. Nelles, local pitcher, was safe on shortstop's error. The next two were out, but McGinnis, Highland Park second baseman, hit a two-bagger, scoring Nelles for the local's only run.

Telegraphic dispatches bring news that the Cunard steamship, Aquitania, in mid-Atlantic, westbound, was encountered this week by one of the most terrific storms in the long maritime career of her commander, and Highland Park friends of G. H. Edwards, who is returning on the Aquitania from a visit of six weeks or more in Europe, are pleased to learn from the wireless messages received from the liner that the great vessel was riding placidly through the hurricane and that despite the tremendous battle with the elements the passengers were in no way endangered.

DEERFIELD-SHIELDS HIGH SCHOOL NOTES

TEACHERS IN LAKE FOREST

Several Living There; Parents-Teachers Association; A Big Game on Saturday

Four teachers in the Deerfield-Shields Township High school live at Lake Forest this year: Mr. Einbecker and the Misses Buzard, Proudfoot and Burwash. These teachers are very much pleased with the reception which has been accorded them by the parents and friends of the school in Lake Forest. Lake Forest parents are appreciative because this brings school closer to the homes and the young people in the Shields end of the district. It is hoped that eventually there will be one or more teachers living in Deerfield for the same reason.

An investigation has just been completed to learn what students in the freshman class expect to enter higher institutions of learning upon completing four years at the local high school. There are thirty girls and thirty-nine boys who expect to go on. The state university claims the larger number of these—twenty-two. Other colleges which they expect to enter are: Lake Forest, Northwestern, Chicago, Dartmouth, Boston Tech, Princeton, Vassar, Wellesley, Smith, Bryn Mawr and West Point. Sixteen have not yet decided among the colleges; but five or six of these expect to enter Yale, Harvard, Princeton or some other college requiring entrance examinations.

Parent-Teachers Meet

The first meeting of the Parent-Teacher Association will be held on Thursday of next week. This Association will be placed on an entirely different footing the current year. Already preliminary meetings have been held by parents in Lake Forest and Lake Bluff. It is planned to have a message of importance at each meeting, delivered by some speaker of note, and to have entertainment at every meeting by professional entertainers. The well known Chicago attorney, Mr. James J. Sheridan will speak at the first meeting. No mother can afford to be absent.

According to statistics appearing in the latest edition of the Educational Press Bulletin issued by the Illinois State Superintendent of Public Instruction, Lake county spends 1.99 per cent of the assessed valuation for public education, not including new grounds and buildings. There are 22 counties which spend more than this, and 80 which spend less. The percentage of the counties range downward from 2.71 per cent, the highest, to 1.04 per cent, the lowest.

Game Saturday

The hardest game of the season will be played on the local grounds Saturday of this week. The powerful Lindblom eleven which defeated Terre Haute, 25 to 0, last Saturday, are the opponents of Deerfield, Lindblom was regarded as the strongest team in the Chicago league last season. It was the only Illinois team able to score on Deerfield. This year Lindblom has been practicing since August 1. They are said to have a backfield which averages 190 lbs. to the man. The giant tackles are said to weigh 250 each. It will be very interesting to see what strategy Deerfield will resort to to meet this handicap of weight and experience. But the boys are losing no sleep over it. The game should call out a big event.

BOY NEAR DEATH IN AUTO ACCIDENT

BICYCLE AND CAR CRASH

Son of George Bock Suffers Skull Fracture in Collision at Corner E. Park and St. Johns Aves.

Hastening towards his home in South Second avenue, from the Elm Place school, about 3:55 o'clock Monday afternoon, Herbert Bock, 11, son of George Bock, Central avenue, collided broadside with a Ford coupe, driven by James Lancaster, employe of the American Three-Way Luxfer Frisk Co., Chicago, and sustained a serious fracture of the skull on the left side over the ear. The boy's condition is critical.

Lancaster, who has driven this route for eight or nine years, he told the police, was arrested and held under bond of \$2,000 to appear for a hearing Saturday, on a charge of assault with a deadly weapon. Chief of Police E. J. Maroney stated that this was the only charge under which the man could be held, and while he appeared to be blameless in the premises, this was the regular procedure. E. F. Pratt signed the bond, according to the police.

Stories Correspond

Lancaster and John Knoll the only actual other witness of the accident found by the police told corresponding stories of the affair. Lancaster said he was driving north in St. John's avenue going to the Harold F. McCormick estate, near Lake Forest. The boy was on his way home from the Elm Place school, going west on East Park avenue. Lancaster saw the boy coming with head down, pedaling strenuously. Evidently he did not see the coupe and rode straight at it.

Lancaster at first applied the brake, hoping to avoid a collision. Then, seeing that the boy was likely to be struck, he urged his car to one side and onto the tracks of the North Shore line. It was impossible to avoid an accident, however, and the boy on the wheel crashed broadside against the Ford, near the rear fender. A moment more and the car would have cleared him according to John Knoll, employed as truck driver by Paul Borchardt, who saw the accident and described it in a manner corroborating Lancaster's story.

Did Not See Coupe

It was thought at first that a milk wagon, standing in front of the Johnson & Dahl blacksmith shop, had obscured the view of both principals in the accident, but this is scouted by the witnesses, who are of the opinion that the boy failed to notice the coupe's approach, as he was riding with his head down and hurrying homeward. Other boys driving a pony were reported following him.

The injured lad was rushed to the Highland Park hospital, where it was found that the skull was badly fractured on the left side, with fragments of bone pressing on the brain tissue. That evening a decompression operation was performed by Dr. G. Q. Grady, assisted by Dr. D. W. Rogers, which relieved the pressure but the boy was still unconscious Tuesday afternoon, and the report from the hospital was that his chances were about fifty-fifty.

A peculiar feature of the whole affair is noted in the statement by Lancaster, who has driven through this city for years and was well known here, a man of perhaps 48 years, with a family, whose driving has always been careful and not marked by speeding. He told the police that he had always followed Sheridan road to Lake Forest, but this time, because he had picked up a friend who wanted to go to a point on St. John's avenue, he had followed that thoroughfare, instead of turning where he was accustomed to leave it. Fate did the rest. It was his first motor accident.

The Bock boy has been unfortunate the police report, having had bones broken in a former accident, though this is his first encounter with an automobile it is said. However, a brother, riding a wheel about a year ago, collided with a car, the police state, but escaped unhurt. The family have the sympathy of their many friends in their present affliction.

At a late hour Thursday forenoon the boy's condition was reported at the hospital to be about the same as on Wednesday. Grave fears are entertained regarding the outcome. The lad has not regained consciousness.
