

You Never Think

of a bank as the most human of institutions, do you?

What other institution deals so closely with the dreams, ambitions and confidence of human beings?

Every dream, every ambition must have a solid financial foundation for its realization.

We are here to help make the dreams of this community come true.

FOR ANOTHER CHAMPIONSHIP

The prospect is that Deerfield-Shields gridiron team this year will match its splendid record of last season with another series of victories and a championship pennant at the end. With an abundance of promising material added to the stalwarts remaining from last year's champions training under a coach who knows how to build a winning team, the high school squad is rapidly developing into a smoothly-working machine that will go far toward success on the field.

Last year's team set a high mark, and this season opens with every prospect that its fine record will be equalled, or surpassed, and with the loyal support of the fans there is no good reason why that goal should not be attained. There is nothing like hearty, cheerful, willing, steady, everyday encouragement from their public to establish the confidence and maintain the morale of a team. Deerfield-Shields fans are urged to get behind the team and pull steadily for another string of brilliant victories this year.

The team can win another suburban championship this season if it has the wholehearted backing that helped it to victory last year. Make it unanimous.

The Fruit Stealers

Formerly fruit stealing was largely confined to boys. Many youngsters have always made themselves nuisances by their lawless depreciations. But however mean such mischief might seem, you could at least recognize that it was the work of immature young folks who know better when they got older.

But a new type of garden raiders has come up in Illinois in recent years, consisting of grown up men, who have no excuse of youth or im-

maturity. They make a business of it, and go out on dark nights with bags, usually automobiles, so that they can make their forays over a wide area. The honest farmer or gardener, who has toiled all summer, comes out some fine morning and finds that these dirty thieves have been through his garden and all his work is wasted.

A good watch dog with well sharpened teeth is an excellent protection against such scoundrels, and most farmers and gardeners need one in these times.
