URGE COMPLETION OF ELM PLACE SCHOOL

BONDS ARE INSUFFICIENT

Need About \$35,000 More for School Building; Plan For Public Aid For Auditorium

Patrons of the Elm Place school are much exercised over the report presented at the meeting of the Parent-Teacher association on Thursday evening of last week, showing that the \$110,000 bond issue will not be sufficient to complete the building, which will cost approximately \$145,000 when finished, while no provision is made for a much-needed auditorium in connection, and there is a growing sentiment in favor of making an effort to raise funds for the auditorium by popular subscription.

It is believed that the \$35,000 needed to complete the school building can be obtained by short-term loans, but the pressing need of an auditorium must be met otherwise. Plans for a handsome structure architecturally with the remainder of the school group of buildings, and to be adequately equipped for use both for school activities and as a social center, are in the hands of the school officials and those who have been them are anxious that the plan be carried out without delay.

The splendid natural setting of this group of school buildings, the unique manner in which the ravine and creek bed have been utilized to enhance the natural beauty of location and the unlimited possibilities for making this a community center of far-reaching influence are features which impel interest in early completion of the entire plan.

Many Advantages

The congested conditions existing in the Elm Place school, with its more than 700 pupils, impress all who have visited it with the necessity of immediate relief, and the restricted character of the present assembly room argues strongly for the auditorium plan, those who favor the project declare, as the present auditorium, now occupied by classes, could be used as a play room, which the school much need.

The new building, with its ravine-entrance, its splendid system of top-lighting, its wide corridors, with their many decorative possibilities; its home-like recitation rooms and delightful mural paintings, promises to be one of the finest and best adapted structures for education purposes in this part of the state, and to round out the entire plan into a homogenous group by the addition of a commodious and modernly equipped auditorium is the ambition of the supporters of the project who are looking to the future as well as to the comfort and convenience of both children and adults of the community at present. The plans of the proposed auditorium are so arranged that the connecting corridors will be on a uniform level with the floors of both school and auditorium and every possible facility is provided for easy access and most satisfactory use of both.

Supt. Smith Active

In all the planning to make this school plant in the highest sense both useful and beautiful for the benefit of the pupils and the community in general the inspiration and forward looking vision of Supt. Jesse L. Smith have been leading factors. Supt. Smith is enthusiastic about the school and everything pertaining to it. He is ambitious for its growth and development as a great beneficial influence in community life. His attitude is unwaveringly for the best things obtainable for the children under his care to help make them good citizens. He sees far into the future and the children of this coming generation will have much to be thankful for because of Supt. Smith's devotion to his work.

The Elm Place school should be pushed to completion and, if possible, the auditorium plan should be carried out simultaneously.

D. A. R. RUMMAGE SALE

OCTOBER 18-19-20

The local chapter of the Daughters of the American Revolution will hold a rummage sale, October eighteenth, nineteenth and twentieth in the Murray and Terry building, corner of Central and Serridan, formerly occupied by the F. B. Green Co.

MAKES HOLE IN ONE AT COMMUNITY CLUB

There are a good many good golfers in Highland Park but C. G. Ellwell joined the honor list Saturday by getting a "hole in one" on the seventh at the Community Golf course. He turned the trick with his mashie.

HERBERT BOCK IS STILL UNCONSCIOUS

Boy Injured Last Week In Critical Condition, But Believed Better

Herbert Bock, little son of Mr. and Mrs. George Bock, whose skull was fractured last week, in a collision, when his bicycle was struck by a Ford coupe, is still unconscious at the Highland Park hospital, where he was taken immediately after the accident. At the hospital it was said, however, that his condition was regarded as favorable and that his general condition was good, as he was taking nourishment regularly by means of artificial feeding. Such cases continue unconscious sometimes as long as two or three weeks and then recover, it was said at the hospital. However, it was intimated that no definite prediction could be made as to the outcome in a specific case.

Hearing in the case of James Lancaster of Chicago, the driver of the Ford car, which struck the boy was continued in police court pending the outcome of the lad's injuries.

LOUIS K. ANSPACHER TO GIVE 4 LECTURES

At Union Church, Glenoe, Oct. 13-20-27 and Nov. 3. Much Interest

Much interest is being manifested in the lectures which are to be given by Mr. Louis K. Anspacher on "Epoch Making Views of Life" which will be given October 13th, 20th, 27th and November 3rd, at the Union Church, Glenoe.

The lectures will be given as follows: "The Great Affirmation"—Plato and the Greek View of Life, Friday, October 13; "What is Actuality"—The Mediaeval View of Life, Friday, October 20; "The Rediscovery of Truth in Beauty"—The Renaissance View of Life, Friday, October 27; "The World As a Temple or Process"—The Modern View of Life, Friday, November 3.

MOOSE TO AWARD PRIZES AT DANCE

Another Dance Planned for Oct. 7; to be Held in Sunset Wood

It was found necessary at the close of the Moose day events last Saturday evening to postpone presentation of prizes, owing to the fact that all prize drawing tickets had not been turned in. However it is planned to hold another dance Saturday evening at Sunset Wood at which time the prizes will be awarded. In case of rain or severe cold weather the dance will be held in Witten hall.

The committee in charge of the Moose day wishes to thank the public for the generous support which was given them both in the march and celebration and in the dances.

NEXT WEEK'S PROGRAM AT PEARL THEATRE

Monday-Tuesday, "The Storm". Wednesday-Thursday "Kindred of the Dust"

Next week's program at Pearl theatre includes the following pictures: Sunday, Irene Castle in "Slim Shoulders" from the story by Charles K. Harris; Monday and Tuesday, "The Storm," starring Virginia Call, House Peters and Matt Moore; from the play by Landon McCormick. Wednesday & Thursday, "Kindred of the Dust," featuring Miriam Cooper and Ralph Graves; Friday, Tom Douglas and Mary Seaman in "Free Air" from the Saturday Evening Post story by Sinclair Lewis, author of "Main Street"; Saturday, George Arliss in "Diabeli." Matinee Saturday at 2:30. See program on back page of this paper.

TO ORGANIZE PUBLIC WELFARE COMMITTEE

Meeting of County Woman's Club Presidents to be Held Friday

Mrs. Frank R. Cain is holding a meeting today (Thursday) at her home for the purpose of organizing a county committee on public welfare. This committee will co-operate with the county officers for the betterment of the detention home, etc.

The presidents of every women's club in the county, together with one member of her respective club who is interested in this work is invited to attend. Miss Polmoteer and Miss Himelreich, humane society officers, will speak.

A Meeting of General Interest

Dr. Ida Scudder of India, who speaks Friday afternoon at the Pearl Theatre, will interest every one who hears her.

Mrs. Henry W. Peabody of Boston, National Chairman, and Mrs. Andrew McLeish, State Chairman, who are leading the American work for Education of Women in China, India and Japan, also will speak, and a group of Chinese students is expected to be present.

The meeting will be illuminating, and women of every belief and of every viewpoint are invited to attend.

Friday afternoon, October 6th, at 2:30, at the Pearl Theatre.

COMMITTEE OF FIFTY,
Mrs. JOHN F. MacKENZIE, Chairman

FAMOUS DENTIFRICE TO BE MADE HERE

STOMATOL TOOTH PASTE Preparation Long Popular Overseas Will Be Manufactured By New Company in Highland Park

Manufacture of Stomatol dental tooth paste, the famous Swedish dentifrice, will be begun shortly in Highland Park, by the Stomatol Company of America of which W. A. Jones is secretary; Orville St. Peter, treasurer, and Axel Hulten, member of the board of directors, and it is planned to produce this noted dental cream in quantities and push its popularity throughout the United States.

Modern machinery has been ordered for the plant, which is situated at 618 North First street, Highland Park, and an expert chemist is on the way here from the parent plant in Stockholm, where Stomatol has been manufactured for many years, to direct the preparation of the American product.

Popular in Europe

This famous tooth paste has had a wide vogue in Europe for years and is regarded as the finest product of its kind on the market in European countries, having a wide sale, not only in Sweden, but, in other continental countries. It was introduced into the United States a number of years ago and has been procurable in Scandinavian drug stores in the larger cities, their supplies being imported and therefore selling at a price much in excess of what it will be necessary to navian drug stores in the larger cities, tol. The product now being placed on the market by the local concern is manufactured in the parent factory in Stockholm, Sweden, but in a few weeks the new American plant will be in operation producing identically the same quality of Stomatol.

Many Medals

Stomatol has been awarded gold medals and grand prizes at every hygienic exposition in London, Paris, Athens, Madrid, and other European centers where it has been displayed and has been analyzed and highly recommended by such famous physicians as Dr. E. Selander, Stockholm; Dr. Axel Holst, Christians, Norway; Dr. Hueppe of Prague; Dr. A. Girard, director municipal laboratories, Paris; Dr. Aufrecht, Berlin; Dr. Ernst Levin bacteriologist of the plague hospital at Capetown, South Africa; Dr. Fernbach of the Pasteur Institute, Paris; Dr. E. S. Perman, surgical department of the Crown Prince hospital, Stockholm. The American Bureau of Standards also recommends the preparation highly.

SWIMMING POOL AT HIGH SCHOOL OPENED

The High School swimming pool is in use again. The filtration system having been thoroughly repaired during the summer, several of the newest devices have been added, making the plant the latest word in efficiency along that line. The water—80,000 gallons, is kept in constant circulation through the filters where one part to a million parts of chlorine is added—a solution which will render harmless any known germ in half an hour.

DEERFIELD ROAD WORK PROCEEDING

Bridge Completed and Grading Under Way; Will Finish to Railroad Tracks

Indications now are that the Deerfield road will be pushed to completion this fall as far as the railway west, or at least that as much as possible of the improvement will be finished, depending on the amount of cement obtainable.

The county has purchased cement in the open market and already seven carloads have been received by the contractors for the Deerfield road. To complete the mile from the end of West Central avenue, Highland Park, all other machinery and other material has been assembled on the ground by Kapschull & Davis, the contractors, and grading has been in progress for several days westward from the Central avenue pavement. The bridge at the Deerfield end of the road is completed and will be thrown open as soon as the time limit prescribed by the state engineers expires.

Plan to Push Work

W. C. Davis of the contracting firm said yesterday that their plan was to go ahead with the road as far as cement received would permit. Already seven cars have been delivered, and it will require 17 cars to complete the mile west, he stated.

Several new devices not used hitherto on hard road work hereabouts are being utilized on this road by the contractors, and this, it is believed, will facilitate construction.

Property Owner Objects

Objection to the "saucer" grading at the curve near the property of William Witten has been entered by the owner because the high side of the curve is about two feet above the sidewalk and lot level and likely to cause property owners there damage. Mr. Witten said Wednesday that of course the contractors could not change the plans, and he expected to allow the matter to proceed and probably would bring suit for damages against the state and county later, if it appeared that the injury to the property was as serious as expected.

WANT COMPLETED LIST OF SOLDIERS

Supervisor Desires to Obtain Names of All Not Before Included in Lists

In connection with the action of the board of supervisors to obtain names of all ex-soldiers of Lake county to be placed on the bronze tablet to be erected in the Victory Memorial hospital at Waukegan, built by the county, Supervisor W. J. Obee urges that friends of former soldiers in Deerfield township know that their names have not been included in the original lists printed in the Press and elsewhere sent in the names to him at once, so that the county board may have a complete roster of Lake county war heroes to be placed on the tablet.

MANUFACTURE OF AUTOS TO BE SHOWN ON SCREEN

Interesting Film to be Displayed at Witten Hall, October 11th

"The Story of an Automobile," a film produced under the direction of the United States department of commerce in co-operation with the Studebaker corporation, will be shown Wednesday evening, October 11, at Witten hall, by courtesy of the J. & L. garage. This film will show every step in the manufacture of a Studebaker car. Admission is free. The public is invited to see it.

NEW ICE CREAM PARLOR OPENED YESTERDAY

The Black Cat ice cream shoppe, under the management of Mrs. William Ernst opened yesterday in the corner store of the new Hawkins building on S. St. Johns avenue. The building is attractively decorated and is an innovation which has long been needed in Highland Park. In addition to the ice cream service, shop suey, home made bread sandwiches and salads will be served.

HOSPITAL AUXILIARY TO MEET OCT. 6

There will be an all day sewing meeting of the Highland Park hospital Auxiliary on Friday, October sixth, at the home of Mrs. Gerard Van Schaick, 218 Vine ave. The meeting will begin at ten o'clock. Mrs. Van Schaick will serve luncheon and a business meeting will follow.

URGE NECESSITY OF WEST HIGHWAY

TAX PAYER COMMENTS

Declares Project Feasible But Alleges Plan Is Opposed By Railroad Company; Explains Plan

Urging the necessity of the construction of a public road on the west side of the Northwestern railway between Highland Park and Lake Forest, A. W. Fletcher, former mayor and for many years a resident on the North Shore whose public spirited interest in community welfare is unquestioned, sends the following letter:

Highland Park, Oct. 3, 1922.
Editor Highland Park Press.

There seems to be considerable talk in Highland Park, Highwood and Lake Forest as regards a Public Highway on the west side of the Chicago and Northwestern Railroad track.

There is a well traveled road on the west side from Chicago to Highwood. When the patrons of the road strike Highland Park and Highwood they have to cross the railroad track, some going to Fort Sheridan and crossing the track again, others keep on to Lake Forest or go into people's yards asking the way to Waukegan. And not infrequently you will see strangers asking the way to Kenosha, Racine and Milwaukee.

Cause of Accidents

Some sad and painful accidents have happened recently between Highland Park and Lake Forest on account of these strangers not being used to winding roads. As far as I can learn the only obstacle in the way is the Chicago & Northwestern Railway company, which owns a piece of property just north of Highwood, Illinois. The piece is situated, as I recollect, on that part of the West half of the South East quarter of Section 10, Township 43, North, Range 12, East of the Third Principal Meridian, in Lake county, Illinois, which is owned by the Chicago and Northwestern Railway company. It also owns some property in Highwood on the west side.

If I am correctly informed the Chicago & Northwestern Railway company is arranging to put around house and repair shop on the west side near the Sweeney property. By placing the building and the surroundings adjoining it, it would be one of the greatest damages that was ever perpetrated on helpless citizens and would eventually damage one of the best golf grounds in the West.

Now it looks to me as a very serious affair and a damage to some of the best towns on the North Shore all for the sake of having a boneyard for its own convenience, or in other words a repair shop for the broken down cars and locomotives.

A Property Owner in Highwood and Highland Park.
A. W. FLETCHER

PLAY SPECIALIST HERE ON SATURDAY

Miss Edna N. Montgomerie, recreation and playground specialist from the Board of Specialists Community Service Inc., New York City, will give a short talk on "Play for the Home, School, Church, Lodge, City as an education," at the Highland Park Community Center Saturday afternoon, at 3 o'clock. This promises to be an interesting and illuminating talk and a good attendance is expected.

ADVANCE OFFICERS NIGHT, OCT. 18

Associate Matrons and Advance Officers Night will be observed at Campbell Chapter, O. E. S., October eighteenth, instead of October eleventh as the invitations stated. Mrs. Jennie Chantry and Mr. Henry F. Clow will preside. All members of the Eastern Star are invited to attend.

ST. JAMES' PARISH TO GIVE FESTIVAL

The annual fall festival for the benefit of St. James' parish, Highwood, will take place October 25 to 28, inclusive, in Santi's hall. Every effort is being made to make this affair attractive, and the public is cordially invited to attend.

LADY ELKS TO ELECT NEW OFFICERS OCT. 11

The next meeting of the Lady Elks social club will be held in the Elks club rooms Wednesday, Oct. 11, at 2:30. Election of officers will be held at this meeting and all members are urged to be present.
