We Salvage Old Batteries

If there's a chance for further service in it we extend its life. If it has any value, we give you the value towards the purchase of a new battery.

Our trade-in allowance brings down further the new Prest-O-Lite prices, making them the lowest possible prices for this well-known quality battery—the best all-around, all-weather battery.

You can get a Prest-O-Lite with Prest-O-Plates as low as \$19.90 for light cars, less any allowance for the old battery.

If you're thrifty, call on us.

LINDBLOM TAKES HARD-FOUGHT GAME

DEERFIELD IS DEFEATED

Home Team Staged Thrilling Comeback, Too Late; Visitors' Heavies Smashed Through Defense

Heavy onslaughts by Lindblom's charging line which Deerfield failed to withstand successfully resulted in the first defeat for the local high school grid team this season Saturday afternoon, when the Chicago team carried off the honors 26 to 20.

It was a defeat but not a dishonorable one. Every inch of the way the Deerfield team fought desperately and Lindblom earned every gain made. Good football, above-the-average football marked the contest much of the time, although there was some loose play and occasional lack of head-work. It was a hard-fought battle, thrilling every inch of the way, and the excitement of the great assemblage of fans reached its climax when the score stood 14 to 13 at the half. Deerfield started with a rush and soon had 13 points to their opponent's none. Then Lindblom's defense began to operate successfully and their line drove down field in successive plunges that were irresistible. In the second quarter the visitors scored two touchdowns and kicked two goals, more than evening the score.

The Chicago team continued their gains in the third period, tallying up two more touchdowns, but in the last quarter the Deerfield squad rallied in a spectacular series of rushes and scored a touchdown. They were making progress against terrific resistance when the game ended.

Thrilling Comebacks
Deerfield has cause to be proud of the splendid showing made in this game against heavy odds. The locals varied with their attacks with good judgment, but lost largely because of the inability of the defense to withstand Lindblom's terrific charges. Sandwick, Ted Watt, Allen and Steele starred and in fact the work of the entire team was above par for early in the season, fans declare.

The lineup follows.

Lindblom		Deerfield	
R. E. Trimble	R. T. Hickman	Sandwick, Emerson	L. E. T. Watt, Mann
H. G. McConnell	C. Baumbler, Rouse	Stipes, F. Watt	L. G. Reichelt, F. Watt

LAKE FOREST WINS HORSE SHOE FINAL

Winning the third consecutive match, Lake Forest horse hurlers last Sunday again defeated the Highland Park pitchers on their own courts, taking 13 games out of 25 games played. Lake Forest required only four games to win the series. The silver cup donated by the Highland Park Press and the Lake Forester is the only trophy and remains in Lake Forest this year. If this team wins it next year they may retain it permanently, according to the conditions arranged last year. members of the team report.

Trade at Home Philosophy

The purchasing power of an individual or a community is a big asset and a source of power. Just as a man can help his friends to advance by giving them his patronage, so the community has in its hands a tremendous purchasing power which it can use for its own development if it sees fit. If it prefers to use that purchasing power in buying goods in distant cities and other communities, its patronage will be eagerly welcomed in those cities and it will be of assistance in building up those places. But if a community decides that it would rather build itself up than scatter its resources around the country in an aimless fashion, then it has in its own hands a tremendous power to produce its own advancement.

Our people face the choice, shall we build up our own city, shall we be loyal to it, keep our resources at home, stand together as one band of friends and associates and partners, or shall we scatter and throw away our power all over the country?

The question then, as to whether people shall buy their household and personal supplies in their home town, or purchase them in any old place, is no mere matter of individual whim. It is the question whether a community is anxious to go ahead and use its resources for the development of its own advantages, for finer civic institutions, for more business prosperity. Or will it be reckless prodigality, squandering its resources and throw them to the four winds of heaven, by the aimless and purposeless policy of buying goods away from home and in distant cities?

The philosophy of home trade is a subject worthy of the most careful consideration by the people of this city.
