CONCERT SERIES IS PLANNED AT SCHOOL

BY SYMPHONY ORCHESTRAS
Civic Organizations Arrange for Musical Program for Children and Adults; Meet Monday

Plans are under way to bring to Deerfield-Shields high school three symphony orchestras for a series of three concerts for the school children of the townships.

Representatives of several organizations interested in civic and school affairs met Tuesday morning at the invitation of Mr. Hubert Conover, director of music in the Deerfield-Shields high school, and it was decided definitely to undertake the series.

Plans also were begun for a large organization to bring the concerts more widely before the public. It is planned to make this not only a Highland Park affair, but to embrace all communities from which the high school draws students, and tickets for the children's concerts will be available to all grade school children of the township.

The musical organizations to appear in this series are the Little Symphony Orchestra of Chicago, George Dasch, conductor, Nov. 9, giving a children's program in the afternoon and an evening program for adults; Chicago Business Men's orchestra, Clarence Evans, conductor, sometime after the holidays, and the Evanston Symphony orchestra, Mr. Knapp, conductor, later. Well known soloists also will participate in one or two of these concerts. It is planned to sell tickets for the series at a rate that will barely cover cost, and those for the children's concerts will be at a price so that all may take advantage of the opportunity.

Character Programs
The program of the children's concerts will be taken from the composition of the music memory contest held soon to be undertaken in the schools. The adult programs will be somewhat more advanced, but still popular in character. The inspiration for the series comes from a similar move at the New Trier school, mention of which is made in another column of this paper.

THREE BRIDGES ARE CLOSED BY COUNCIL

Two on N. Sheridan and One on South Road; To Call Election on Annexation of Sheahan Tract

Three Sheridan road bridges, the two north and one south were ordered closed by the city council, at a meeting held Saturday morning. The action is based on a report by the city engineer in declaring the bridges unsafe for heavy traffic.

Signs directing traffic to short detours were ordered erected, and the closing of the bridges will not cause much inconvenience, city officials say. At this meeting also the city clerk was instructed, on motion, to prepare resolutions calling a special election in the city to vote on the proposition to annex the Sheahan property.

SPARKLING SPRINGS WATER IS ALL RIGHT

Trouble Caused by Dirty Bottles It is Believed; Sterilizing Plant Installed

Sparkling Springs water, sale of which was prohibited in Highland Park last week by order of the city council, will be back on sale as good as ever in a few days. The water itself, it is explained by the health authorities, has always been found by analysis to be excellent for drinking but the trouble apparently has been caused by contaminated bottles. This is being remedied by the owner, Arthur B. Tillman, who is installing a steam sterilizing plant similar to those in use in Evanston by the Crystal Springs water plant, and fully approved by Evanston and Chicago health authorities. The public is invited to visit the Sparkling Springs plant at any time and see the new sterilizing plant in operation.

City Health Physician, Dr. D. W. Rogers, in speaking of the council's action, said that the water had been analysed many times and always with a clean bill of health, and it was apparent that this time the trouble was from bottles probably used by the public for other things and thus contaminated. He stated that the health authorities had taken new samples of the water from the pump, from the tanks and from bottles sterilized by the new steam cooking system, and a report on analysis of these was expected in a few days. It is believed that the report will be satisfactory, as there never has been any doubt of the excellent quality of the water itself. If this report gives the water a clean bill, the ban on its sale will be withdrawn.

MILLION DOLLARS IN BUILDING HERE

Highland Park Improvements in 1922 Total Large Sum; Residences Most

Building improvements to the value of approximately one million dollars have been made or are in progress in Highland Park this year, according to E. M. Laing, city building inspector who estimates that fully one hundred residences have been begun here this year at an average contract price of \$8,000 making a total of \$800,000. In addition to these other building improvements will easily bring the grand total up to the million dollar mark, Mr. Laing believes. This is a good record for Highland Park for 1922 in the building line.

The condition of Herbert Bock, young son of George Bock, who has lain unconscious in the hospital since he was injured in a collision between a Ford coupe and his bicycle more than two weeks ago shows little change, it was reported at the hospital last night. He was still unconscious, and while showing a little more activity than at first, there is no appreciable alteration in his condition. AUTOMOBILE CRASH INJURES FOUR MEN

COLLIDES WITH WAGON
One Man in Hospital and Three in Jail as Result of Accident on Green Bay Rd. Sunday Morning

James Clarke, chauffeur, went to Highland Park hospital with a fractured collar bone and other injuries, and B. G. Ecklund, employe of the Carlson garage, W. Iverson, salesman, and Arthur Wesley, carpenter, were jailed as a result of a bad accident early Sunday morning, on Green Bay road south of Lincoln avenue, when a Paige car, in which the four were riding, crashed into a Bowman dairy wagon.

According to the police the automobile was on the wrong side of the road, and Driver H. Mattison of the dairy wagon, standing on its step, after pulling his horse as far over to the curb as possible, leaped to safety just before the crash. He was unhurt.

Car and Wagon Wrecked
The Paige car was piled on the parkway badly wrecked. Clarke was hurled several feet from the car, but the three others remained in it and were not seriously hurt, receiving minor cuts and bruises. The dairy wagon was smashed into kindling wood, and the horse was badly cut, so that several stitches were used by a veterinarian to close the wounds.

The police were called and Clarke, apparently most seriously injured, was hurried to the hospital. The others were taken to the city jail where they were held. The police report that all four had been drinking and admitted they had visited a road house. Ecklund was released under bond of \$500 on a charge of driving a car while intoxicated, and Iverson and Wesley were charged with disorderly conduct, with bonds fixed at \$200 each. Wesley paid a fine and was released.
