Get More Eggs this Fall and Winter!

The one great mistake most poultry raisers make is in the idea that scratch feeds make eggs, and this accounts for their failure to get eggs in the winter and fall.

Scratch feeds do not make hens lay. Just so long as you make scratch feed the bulk of your hen's ration, you will fail to get eggs. Scratch feed is for the hen's bodily maintenance—to make her exercise, scratch—to satisfy her while on the roost, and not to make eggs.

The feed that will make hens lay abundantly must be a soft feed, finely ground and correctly balanced—a feed composed of materials like hens pick up in the Spring, when their egg production is highest.

FUL-O-PEP DRY MASH

The Great Oatmeal Poultry Feed

is that kind of a feed—compounded along nature's lines—made solely to make hens lay. It is a combination of proven egg making materials with several other valuable ingredients which come as near nature's egg-making food as it is possible for expert knowledge, science and experience to produce.

To get more eggs, Feed FUL-O-PEP DRY MASH—all your hens will eat. Keep it where they can get it all the time, and feed Ful-O-Pep Scratch Feed about an hour before they go to roost—then you'll get eggs and lots of them. We guarantee it.

NEW CONSTITUTION IS BEING ATTACKED

PROTEST FALSE REPORTS

Alleged Omission of "In Year of Our Lord" Shown to be Erroneous; Text Is Quoted

Charging that a deliberate attempt is being made to prejudice the people against the proposed new constitution before they have had an opportunity to study it, Henry I. Green of Urbana, chairman of the committee on submission, today made a stinging reply to a statement given to the press by Henry Hooker Van Meter, a Bible League organizer, located at present in Springfield.

The Van Meter statement charged that the words "In the year of our Lord" had been omitted from the draft of the constitution and that this violated it. A number of Springfield ministers and others, according to press reports, signed the protest.

Evidently Misled

"Evidently the gentlemen who signed this statement," Mr. Green said, "were misled. If they will go to the office of the secretary of state, where the official copy of the constitution as adopted by the convention is on file, they will find that the closing words of the text are as follows: "Done in convention at the capital in the city of Springfield on the twelfth day of September in the year of our Lord one thousand nine hundred twenty-two, of the Independence of the United States of America the one hundred forty-seventh and of the statehood of Illinois the one hundred fourth. In witness whereof we have hereunto subscribed our names."

"The names of the officers and members of the convention are signed under this closing clause.

"It is apparent, therefore, that whoever is responsible for the circulation of the statement that 'the year of our Lord' had been omitted from the constitution either was ignorant or maliciously intended to create a prejudice. The words are in the constitution and in their proper place, the attestation clause.

Quotes Preamble

"Moreover, the preamble to the constitution begins, 'We, the people of the State of Illinois, grateful to Almighty God, for the civil, political and religious liberties which He hath so long permitted us to enjoy and looking to Him for a blessing upon our endeavors to secure and transmit them unimpaired to succeeding generations' etc.

"This is but one example of many attacks of the same kind that are being made on this constitution. The men who framed it were elected by the people for that purpose. They spent nearly three years of their time studiously working out the sections and I do not believe any set of men ever worked more conscientiously for what they believed to be the public good.

"The people who commanded them to do this work at least should be permitted to view the finished product without prejudice. They should not be compelled to sweep away a great rubbish heap of lies and misinformation before getting to the truth."

WOMEN WANT SMOKE NUISANCE REMOVED

Civic Committee Asks for Suggestions to Remedy Conditions in This Regard

Determined to discover and exterminate the cause of the condition which is ruining beautifully decorated walls and delicate draperies in Highland Park homes, the civic committee of the Woman's club has taken up the question and evidently is starting a campaign against the injudicious use of soft coal, or whatever is to blame, according to the following contributed by this committee.

Perhaps it would be impossible to have a better smoke ordinance than is in effect right here in Highland Park.

"Emission of Dense Smoke" Ordinance 1209:—

"That the emission of dense smoke within the city from the smoke stack of any locomotive, steam roller, steam derrick, steam pile driver, tar kettle or other similar machine or contrivance, or from the smoke stack or chimney of any building or premises except for a period of six minutes in any one hour during which the fire-box is cleaned out, or a new fire being built is hereby declared to be a nuisance and may be summarily abated by the city marshal or by anyone whom he may authorize for such purpose. Such abatement may be in addition to the fine hereafter provided."

Yet we are all bitterly complaining of the black dirt that soils our curtains, besmudges our dishes that have been unused for a month and that decorates our window sills. This winter threatens to give us more dirt than we have ever had before.

What can be done to lessen this destructive nuisance? With an excellent ordinance and good citizens who wish to obey it, we ought to be able to minimize this trouble. Send your suggestions to the Civic committee of the Highland Park Woman's club, Witten Hall.

Women said they wouldn't wear the long ones, but style is a hard task master. The short ones are going out.

Profiteers were not born of the war. They were just emphasized. We will have them with us always. Pretty soon now they will drag out those unsightly goloshes.
