

# DO A LITTLE EACH YEAR

No matter how large or small your Home, how elaborate or simple, how well built or what its furnishings fully as important are the grounds surrounding it, they form a part of your Home and even if they consist of a few square yards, as long as you are fortunate to possess them make good use of them.

Nothing with the Home in the Country is worth more consideration than to plan so as to make the most of your Grounds, which, oftentimes is easily accomplished due to natural advantages and again requires a careful study so as to transform an almost hopeless outlook into a beauty spot.

As the Homes of the Town themselves differ in shape and design so should the lay-out of the Grounds differ each requiring whatever necessary so as to obtain a harmonious pleasing setting, one of restfulness, charm and cheerfulness yet if at all possible deviate from other Grounds in the neighborhood.

Every Home grounds, no matter how small, should have its open sweep of Lawn, its trees, ornamental shrubs, a touch of Evergreens for winter effect and its hardy flowering Border and if space permits we might con-

sider the pool or water garden, the rockery, the sunken garden, the rose arbor, the formal garden but laid out so as to create a different setting in each instance.

The more you do to make your Grounds attractive, the more you will think of your Home, the more it will mean to those in it, the more you will get out of it in what the words stand for, the most costly Residence without a suitable setting is cold, while the plain cottage nestled in the trees and surrounded by shrubs and vines and the stepping stone walk winding from the gate through the old fashioned flower borders make you feel certain that happy people dwell there.

To create happy, cheerful Home grounds is our mission in life, has been our business for almost forty years and we offer you our services, free suggestions, perhaps a sketch on what, to our ideas, you need to make your Grounds what they should be. With a sketch to go by you can do a little each year, keep on developing if you can't spare a hundred dollars this Fall, let us tell you what fifty will do, twenty-five or even less, but we don't ask you to do anything but let us help you towards getting started on the road for better Home grounds.

We offer this week 36 Perennials, heavy plants, for \$5 — each assortment composed of 6 Larkspur, 3 Peonies, 6 Phlox, 6 Columbines, 6 Iris, 3 Shasta Daisies, 3 Gaillardias and 3 Coreopsis.

**GET APPEAL FOR STATE BONUS LAW**  
LEGION POSTS SUPPORT

**Illinois Commander Urges Vote In Favor of Act; Fifteen States Already Have Adopted Plan**  
Lake county posts of the American Legion have received copies of an appeal to voters of Illinois to support the adjusted compensation act when it comes up for a referendum vote by the people of the state on November 7, issued by Charles W. Schick, state commander of the Illinois department of the American Legion.

In his appeal Commander Schick points out that fifteen states have already voted on the proposition of giving a bonus to their service men and as a result fifteen states have paid or are paying a bonus to the men who fought in the world war.

**Fifteen States on Record**  
"Fifteen states point the way for Illinois in the matter of paying a bonus to her heroes of the world war. These states have passed legislation giving their soldiers adjusted compensation in actual cash.

**Vermont First**  
"The first state in the Union to give a bonus was Vermont. Compensation of \$10 a month was allowed, with a maximum of \$120.

ing \$10 a month with a maximum of \$250. Washington is paying \$15 a month with a maximum of \$465. This state has paid to its soldiers \$12,300,000 at an expense of less than 1 per cent for administration.

Old Porcelain Pieces From the Early Days When It Was Proper Thus to Use Table Tackle

Styles change. And so do manners. What was the polite thing to do when America was still quite young, is not the polite thing to do today. This fact is brought home to us when we pause to inspect the remarkable collection of earthenware and porcelain comprising the Blanzius Collection in the Art Institute, Chicago.

**Of Varied Design.**  
They were of all colors and of various designs. A favorite was the little saucer with some kind of motto, such as "Make Hay while the sun shines."

There is a large Chelsea rabbit tureen in the collection which is the only one left of three originally made. This one, a large and very beautifully colored tureen, was left to a family in England, every male member of which was killed in the great war.
