

## GUERNSEY MILK

If your child is under weight use Guernsey Milk. It will do for him what it is doing for others;—bring him up to standard weight, put color in his cheeks, make him vigorous and strong. It is strictly fresh, very rich in butter fat and free from tubercular germs, all of which is very important in good milk. We can now supply several more customers.

### FOOD MANUFACTURE LARGEST INDUSTRY

A survey of the nation's manufacturing and producing interests discloses the fact that the manufacture of food products is the largest industry in the United States. It is a general belief that the iron and steel industry is the largest, but the meat packing industry alone represents greater value than the steel industry. The flour milling industry stands second largest. The latest census figures (those for 1920) show that there were over 67,000 establishments engaged in the manufacture of food products with an annual output value of \$13,400,000.

J. Neilsen	211	1517 1685
H. Neilsen	203	1510 1677

Elks League bowlers will have a two weeks suspension in their schedule owing to the holidays, and will resume play on Jan. 8.

With the cold snap hitting these parts it puts more pep in the bowling scores and many high marks have been registered the past few days.

The tournament season is on in earnest. Several Highland Park bowlers are listed in the Lake Forest meet. Wednesday and Friday night is reserved for Highland Park entrants when an even dozen are expected to go on the boards.

The North Shore Line team will entertain the strong McCann team of Waukegan on Friday night, while the Young Men's club will perform on the other pair of alleys at the Majestic.

A special Turkey tournament will be held the coming week for the Christmas feast of the lucky bowlers, announcement of the rules will appear on the bulletin board this week.

Game scores are as follows:

Brothers		
T. Frauenhoffer	168	194 163
F. Koon	113	134 115
J. Post	155	149 158

Collins	158	143 158
Skidmore	165	140 240

J. White	156	166	142
Totals	1007	956	1061

### CHRISTMAS TOYS FROM GERMANY

There will be no shortage of Christmas toys here this year, and the greater share of them will come from Germany, as they did in years previous to the war, according to big store managers who carry complete lines of toys.

Most of the toy stocks are completed already, and have been since late in July, he states, and the greater share will be on display before another week is past.

There are few new inventions in the toy line this year. There are some in the mechanical end, but the old popular designs of toys are still heavy on the market.

Germany, who dropped from the market during the war, is back stronger than ever. Toys from that country have been coming into the United States ever since Christmas of last year.

The price in toys this year run about the same as they did during last season, it is said.

Esquires		
Lawrence	124	130 154

## Savings Made Easy and Profitable

Little is left to be said about the importance and duty of saving. We owe it to ourselves as well as to our dependents to save against that time when need arrives for money to tide us over times of unemployment and incapacity. Our principal thought then should be what to save and how to save it.

A Sound Investment With a Satisfactory Return

To the former proposition your answer should be to save just as much of your present income as your existing needs will permit, even to the point of denying yourself some things which you now enjoy. To the latter the preferred shares of the North Shore Gas Company present you a safe, easy, consistent means of accumulating money.

Our local office will gladly give you information as to our plan for saving.
