

MAP OF NEW ATHLETIC FIELD FOR DEERFIELD-SHIELDS HIGH SCHOOL

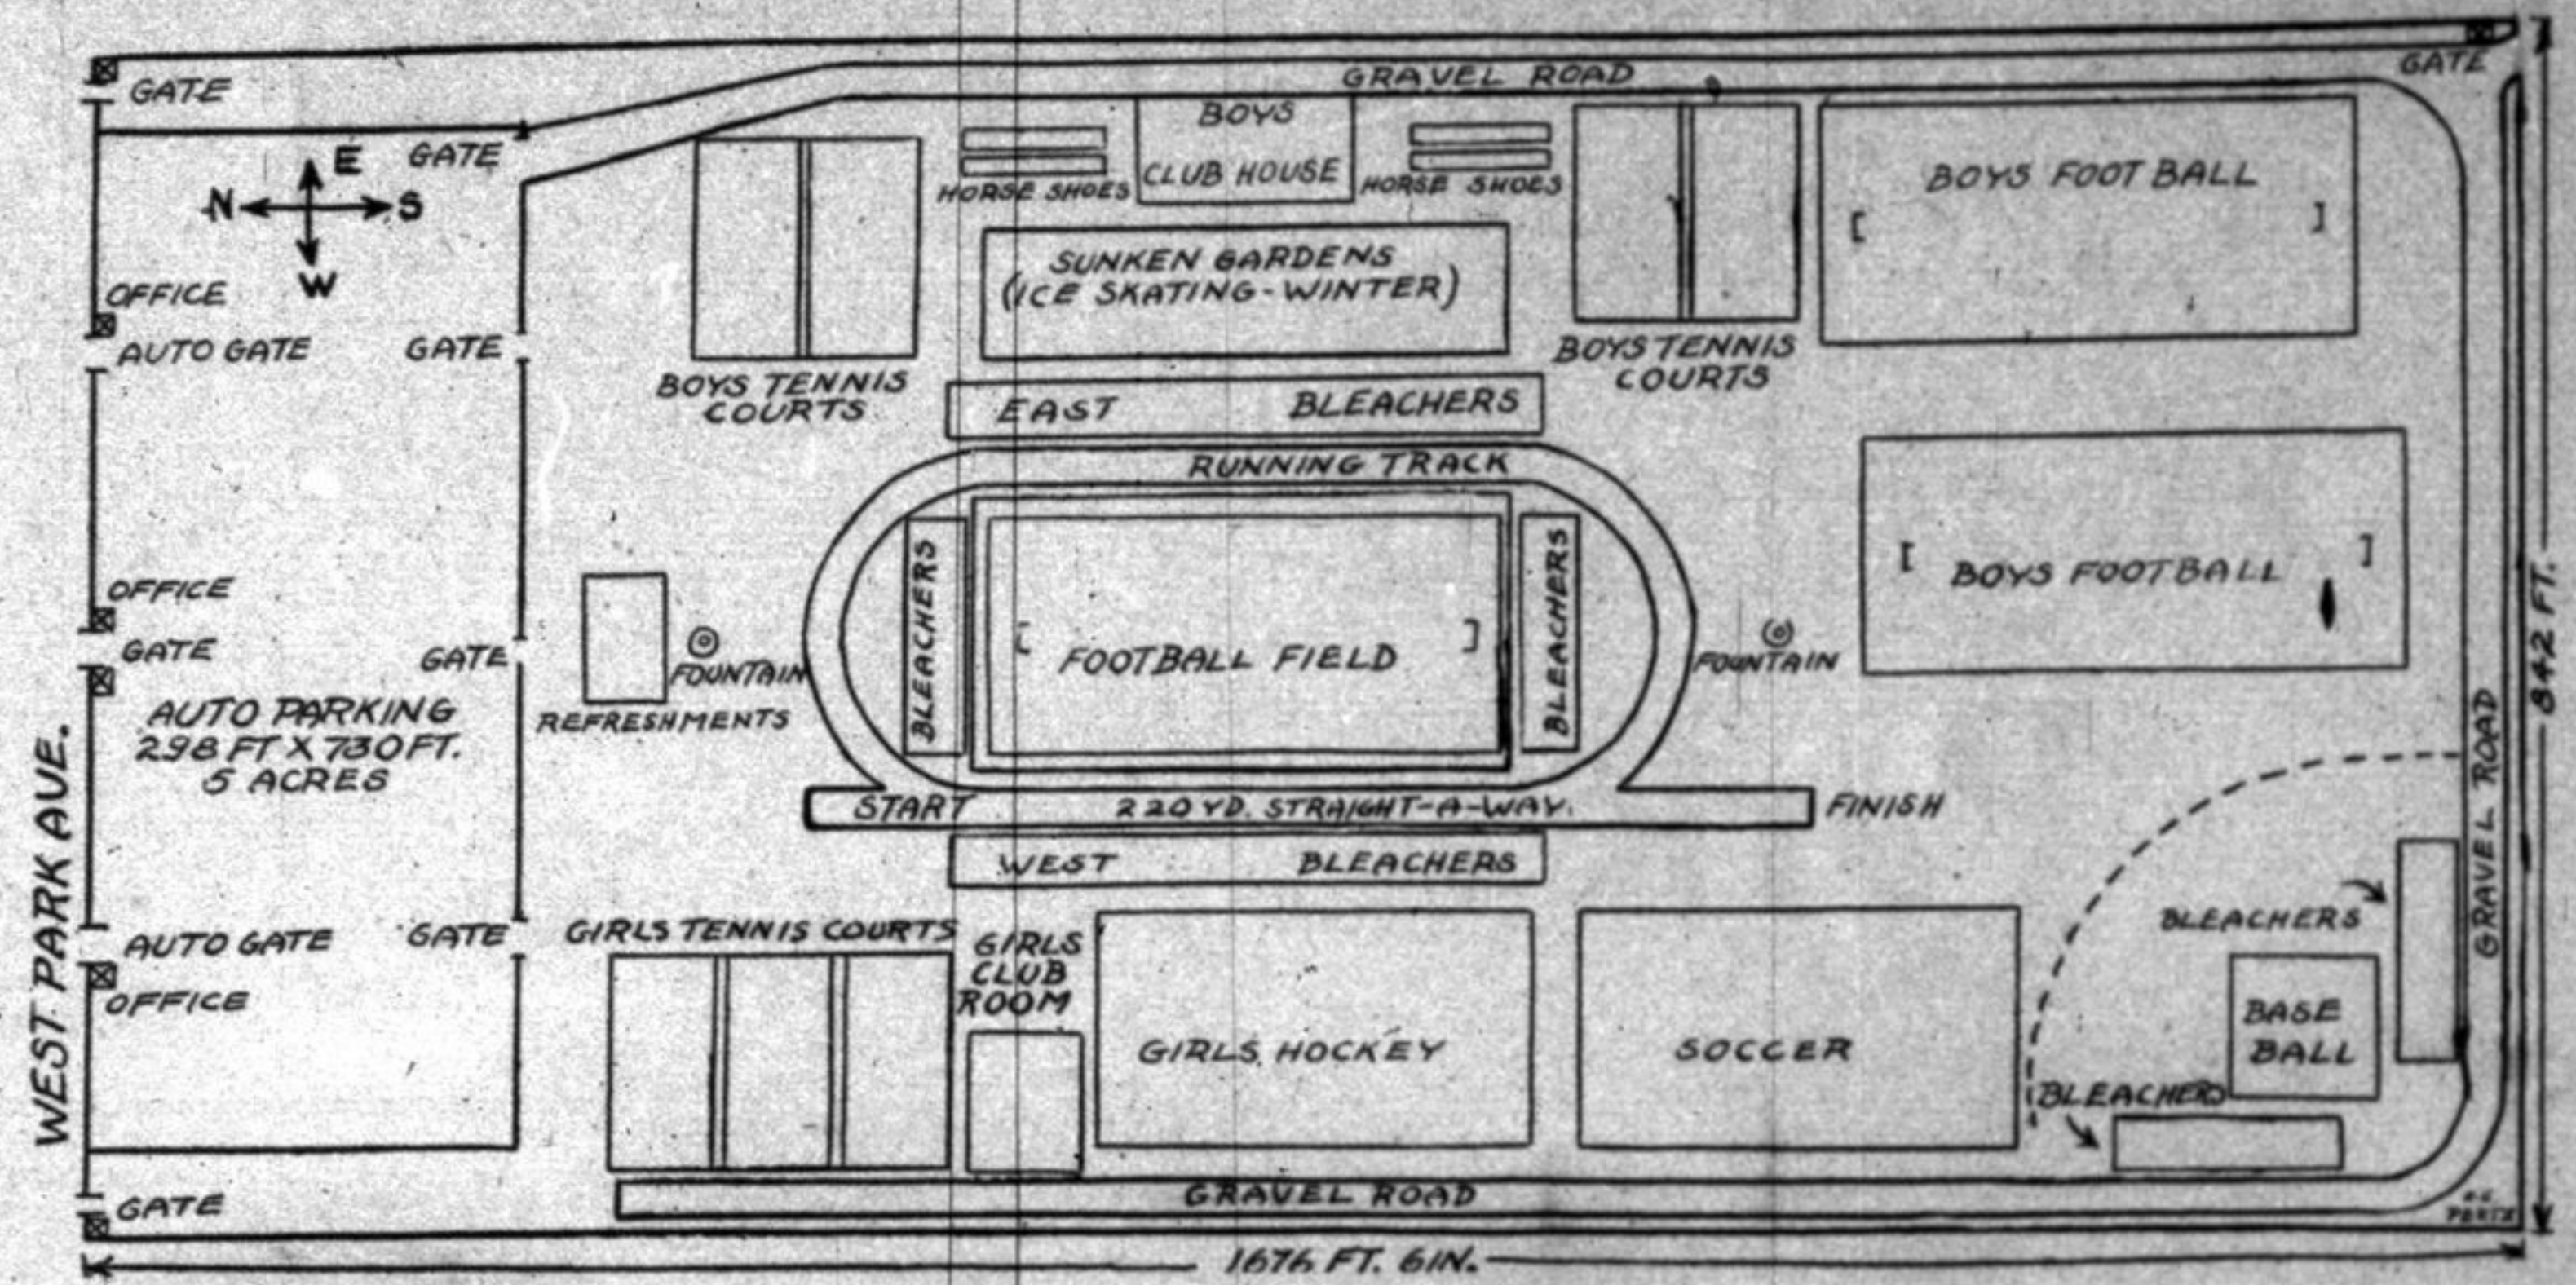

Diagram Courtesy Chicago Tribune. Diagram of 30-acre tract purchased by school board for local high school playground, with proposed improvements indicated

DEERFIELD-SHIELDS GETS ATHLETIC FIELD

(Continued from page 1) Neither of these buildings, as planned, will entail great expense, the idea being to build them for service at the least possible cost commensurate with permanence and usefulness. The main football field will be surrounded by a one-fourth mile track, properly graded and surfaced, with a 220-yard straight-away course.

Begin in Spring Acquisition of this tract and materialization of the plans outlined for it in the future mean that Deerfield-Shields will have one of the finest high school athletic fields in the country. The plan is to begin improvements as outlined early in the spring so that the field may be in use during the coming season. Because of the short distance from the school building—less than a quarter of a mile by actual measurement—the athletes will be able to jog across to the ground as part of their daily exercise.

Abundant Parking Space The new field will be greatly appreciated by both students and the public. Heretofore the present football field has proved altogether inadequate in size for the great football crowds that throng it during the season and at some of the championship games, such as the Oak Park game a year ago, there was not sufficient space in the entire vicinity for the hundreds of cars that brought spectators from near and far. This will be all remedied on the new field. The old field has during football season also been used as a practice ground for at least 50 boys daily during the football season, so that the grass is always worn off and the turf destroyed, rendering the field more like plowed ground, especially in wet weather.

WANTED. FOR RENT. FOR SALE
