INSURANCE STOCK HOLDERS MEETING

ENJOY BIG BANQUET HERE

Local People Interested in The Chicago National Life Ins. Co. Entertained in Witten Hall

Ninety or a hundred of the stock holders and policy holders of The Chicago Life Insurance company, in which many prominent local men are interested among them Harry Paul, vice-president of The Highland Park State bank, who is a director of the Chicago National Underwriters company gathered Monday evening, March 19, at Witten hall, in Highland Park and enjoyed an excellent banquet and a fine program of addresses. A. E. Johnson led off the program, following the banquet making a brief address. Lee D. Mathias, vice-president, acted as chairman of the meeting. Other speakers on the program included T. Frank O'Connell, secretary and Treasurer of The Chicago National Life Insurance company; A. E. Johnson, superintendent of Agents; Harry Paul, director; A. L. Whitmer, president of The Chicago National Underwriters company.

World Records Broken

It was stated by the officials of the company that the organization had broken two world records during the past year, writing \$7,225,387 worth of insurance. The first world record broken was made evident by the fact that the company had secured more business in its first year of writing insurance than any of the large companies secured in the first ten years.

The second world record was made by the placing of more business on its books in one month's time than any other company did during the first years of their business endeavors.

It was demonstrated that the officers and directors of The Chicago National Life are men of recognized financial standing and of thorough equipment as insurance experts. They are Illinois men who recognize the insurance opportunities of their state and the great mid-west and who have won unprecedented success through their energy and ability.

Excellent Address

Mr. Whitmer's talk was devoted entirely to the telling of the possibilities of life insurance and enumerating some of the things that make it a stable and safe investment. He also gave an insight into the figures and technical knowledge of life insurance companies that was much appreciated by his audience.

The meeting was adjourned at a late hour and all who attended declared that it was one of the most enjoyable events of this nature they ever had the good fortune to attend.

Three hundred and forty seven cases sleeping sickness reported from New York. There are some among the business men most everywhere.
