

## What a Cost System Revealed About the Family Washing

A business woman, who had made a study of costs, applied a cost system to her own home—it revealed some startling facts.

For instance, she found that her family washing was costing her much more than she had ever dreamed.

The laundress's wages were \$3.50; her carfare, 15 cents; her meals, 70 cents; and 25 cents went for fuel and laundry supplies, to say nothing of the valuable hours which this business woman devoted to supervision.

She decided, right then, that it wasn't good business.

Now she bundles up everything and sends it to us. Our driver calls promptly. The laundry, all washed and with the flat pieces beautifully ironed and only a few pieces to be finished, is returned to her on time, and she has leisure hours to herself.

Yes, this modern laundry service pays—we will prove it to your lasting satisfaction if you will have our driver call tomorrow for your family bundle. Telephone 178.
