REMOVE NEEDLE IN LEG FOR 29 YEARS

Gurnee Woman Subject of An Operation Caused by an Injury in Youth

Last week surgeons removed a full sized sewing needle, black and corroded, from the right leg of Mrs. Bruce Graham, 33 of Gurnee, that she had swallowed when she was 4 years old.

The needle had never caused her any pain until an automobile accident shook her up badly and led her to believe that a piece of flying glass had cut its way into the leg. Surgeons at the Lake County General hospital discovered the needle when they placed her under the X-ray. In the 29 years the needle was in her body she never felt any ill effects from it.

SHIP MUCH CEMENT FOR ROAD BUILDING

Eight Hundred Thousand Barrels in First Three Months of This Year

More than 800,000 barrels of cement, over 25 per cent of the total contracted for the ensuing season, were shipped the first three months of this year to start the 1923 road building program in Illinois.

Governor Small has received reports from the highways division showing that the bureau of materials has covered inspections of sand, gravel, stone and other materials at 43 plants in the state. Shipments of aggregate totalling 80,000 cubic yards were made from these plants during January, February and March.

ART COOKING NOT APPRECIATED HERE

FAMOUS CHEF'S OPINION

Meal Secondary Matter With Us
French Cook Declares:
Want Beefsteak and Chops

By this time we are used to having artists tell us that Americans don't appreciate art. We are convinced we know nothing of music and that the fine points of the drama are beyond us. But now comes a complaint from another quarter—

We don't appreciate good cooking! Monsieur Charles Scotto, chef of international fame, now at the Ambassador hotel in New York and catering to Gotham's most aristocratic palates, makes the accusation.

Prohibition, quick lunches and cigarette smoking while eating have made us what we are.

No Appreciation!

"A chef may spend hours making the most elaborate dishes," he complains, "putting into them the knowledge and art he has learned in many countries, and the American diner comes in and wants beefsteak or lamb chops—and wants it in a hurry, so he can go somewhere else!"

It was not always thus.

"Before prohibition, Americans were the most fastidious diners," he assures me. "They reserved their tables and ordered their dinners in advance. They appreciated epicurean food."

Meal is Secondary

"Now they come in half or three quarters of an hour before time to go to the theatre, smoke and dance between courses and what they eat is the least of their worries."

"They can't drink and it doesn't seem to occur to them that food isn't under the ban."

"If the American housewife gets as little appreciation of her efforts as the chef does, it is no wonder she has turned over the culinary worries to the delicatessen merchant."

Monsieur Scotto learned the art in France. Later he went all over Europe, studying cookery with the most famous chefs. For 23 years he has been identified with the most famous dining places of Europe and America.

FREE NATURE BOOKS FOR COUNTY SCHOOLS

Sunt. Simpson Receives Gift of Two Sets From Mrs. F. C. Farwell, Chicago

T. Arthur Simpson, county superintendent of schools has received two sets of books on nature study, which will be available to the schools of the county.

The books were given to the county by Mrs. Francis C. Farwell of Chicago.

There are 30 books, 15 in each set, and pertain to the study of birds, animals, trees, etc., being handsomely illustrated in colors, making them particularly interesting to students of any age.

The books will be circulated among the various schools, and will prove very valuable to those in the nature study classes.

MANY COUNTIES IN FAVOR ROAD BONDS

Sixty-Six Reported to Have so Signified Through Their Supervisors

Boards of supervisors in the following Illinois counties, sixty-six in all, have forwarded to Governor Small copies of resolutions passed by them endorsing the additional \$100,000,000 bond issue to extend the state's hard road system. Counties from which endorsements have been received to date are thus reported in an announcement from Springfield:

Adams, Alexander, Bureau, Carroll, Cass, Champaign, Christian, Clark, Clay, Clinton, Crawford, Cumberland, DeWitt, Douglas, DuPage, Edwards, Effingham, Franklin, Fulton, Gallatin, Greene, Grundy, Hamilton, Henderson, Henry, Jackson, Jasper, Jefferson, Jersey, Johnson, Kankakee, Lake, Lawrence, Logan, Madison, Marion, Marshall, Mason, McDonough, Menard, Monroe, Mercer, Morgan, Moultrie, Ogle, Peoria, Piatt, Pike, Pulaski, Randolph, Richland, Rock Island, Scott, Stark, Tazewell, Union, Wabash, Washington, White, Whiteside, Williamson, Will and Vermilion.

In a majority of the remaining thirty-six counties no recent meetings of the boards have been held.

SLEEPLESS MAN IS SEEKING WIFE SAME

Somewhere there is a mate for John A. Price, 29 of Washington, D. C., and he set out last week to seek her.

But his bride must meet his qualifications, which are without precedent.

Price has not slept a wink for ten months, he declared, since he had a nervous breakdown. He rests at night, but never sleeps, and shows no ill effects, and he wants a "sleepless bride," who can stay awake with him 24 hours each day without imperilling her health.

"I believe that if such a match could be made, it would make us both happy," Price said.

BIDS ARE OPENED FOR THREE ROADS

Bids were opened last week at the office of Charles E. Russell, county superintendent of highways for three sections of county roads.

The following bids were received:

Highwood—Half Day road.
John Darrow, Waukegan, \$66,033.25.

Hainesville—Round Lake road.
George R. Wade, \$56,645.80.

Libertyville Engineering & Construction company, \$61,101.30.

Green Bay road, Grand avenue, north.
Wade, \$99,963.15.

Libertyville company, \$102,993.40.

These figures do not include cement.

ROOM FOR CHILDREN AT ART INSTITUTE

Plans for Installation and Its Equipment Are Proceeding Rapidly

Plans for the installation and equipment of a room for children in the museum of the Art Institute are proceeding as rapidly as circumstances will permit. Miss Helen Parker, Museum Instructor at the Art Institute, told about these plans in a talk given last Tuesday evening which was broadcasted from the radio station W M Q A.

"Do you know," was one of Miss Parker's statements, "that if all the children in Chicago were mustered into regiments and passed in review down Michigan avenue that it would take four days for them to pass the Art Institute? Think then, what it would mean to themselves and to the city they live in, if only a part of them were given a glimpse of beauty and made to realize how essential it is to their everyday living. If only a part of them saw its value what a force they would be in the next generation to insist upon good architecture instead of bad in their city, to insist upon civic support of art movements, to insist upon the abolishment of disfiguring signs and sign-boards. And I have mentioned only a few of the things that make a city beautiful. There is a hint of how the Children's Room will act as a beneficial influence for our citizens of tomorrow."

"To help the Art Institute equip the Children's Room the Municipal Art League this year pledged five thousand dollars, and they have been quickly seconded in their generosity by other organizations. The Arche club has donated one thousand dollars, and the club women from all over the city and from adjacent suburbs have rallied to its support."

In spite of the fact that some public speakers never keep to the point, the folks who pay good money to hear them often get stuck.

The Germans may be preparing for another war, but if so they will probably reflect some time before sinking any American ships.

The speculators who bought sugar to sell at an advanced price, will not probably object if the housewives all rush in and buy 100 pounds apiece.

Anyway the college students are getting practise in composition by writing many letters to their best girls.
