Features of Game
The features of the game were the pitching of Hessler who struck out 10, allowed 6 hits and walked three; Shannon showed the fans that he was still there with the swat and at the same time prepared himself for the future by putting the pill over the fence and right over the sign offering a thousand dollar insurance policy. This was the longest fly ever knocked on the Elks field. He also made a three-bagger. O'Farrell, brother of

Bob O'Farrell of the big leagues, made a star catch of G. Gladers long fly to right field.

The game next Sunday promises to be a fast one. The North Chicago Nationals will play the Elks team here and as the Nationals held the famous Lake Villa team last week to one to nothing until the fifth inning, though losing in the end, 5 to 1, the game promises to be a hard battle next Sunday.

A feature at this game will be the presentation to Shannon of the life insurance policy which he won last Sunday by knocking a home run over the insurance company's sign.

DAIRY COMPANY

Serving 177 Cities and Towns in 15 Illinois Counties

THE Public Service Company serves a territory of 5,825 square miles, including 177 cities, towns and rural communities in 15 of the most productive counties of Illinois.

Rendering uninterrupted service to residents of such a great and prosperous area, larger than the states of Connecticut and Rhode Island combined, requires a tremendous investment in equipment and an army of employes ready at their posts through storm or sunshine, winter or summer, fire or flood, day or night.

Our customers, naturally, give little thought to the vast forces constantly at work so that by the press of a button, electric light or power is instantly forthcoming for their use, or gas made ready at the burner by the mere turn of a lever.

In the march of human progress and the constant bettering of living conditions, there is no more essential service than that which provides the home with modern comforts and makes possible the more efficient operation of industries, large or small, upon which vast numbers of men and women depend for their wage. And it is interesting to know that regardless of income this same service is available to all of our customers. The humble home owner of today is enabled to enjoy the luxury of electrical and gas conveniences which the very well-to-do could not buy fifty years ago.

Efficient public service for all of our customers is the aim of this Company. We invite constructive suggestions from our customers at all times.
