PERMIT FOR HOTEL MAY YET BE GIVEN

Continued from page 1) grant or issue a permit for erection, although the plans in all things comply or will comply with all the building ordinances and regulations.

"The only substantial objection thereto being that said real estate has been zoned as residence property.

"Believing that such a course is contrary to the best interest of the residents of Highland Park, we take this method of expressing our best judgment in this matter, and most respectfully ask that the business district be extended to include the property in question and that the building permit be issued so that construction of above mentioned hotel may proceed at the earliest date possible."

The fact that hand painted china is easily disposed of does not prove that the hand painted girls will be.

School Athletics

It is very much to the advantage of any community that it should have good teams representing its schools in the leading athletic sports. But to accomplish that result requires financial support. There is considerable expense in running a good baseball or football team, particularly in these times when it is considered necessary to have competent coaching.

It is not to be expected that a school team can win continuously, but the town does feel just pride when its boys are able on the whole to hold their own with their neighbors.

It is pretty hard accomplishing that result unless games are well attended and the team is given good enthusiastic backing. It is not merely a question of money, either. The spectators need to make the boys feel by hearty rooting that they take pride in their athletic skill, and are not too critical of the inevitable errors that will be made.

Satisfactory SERVICE

Absolutely satisfactory service is an additional part of every transaction here. First, goods of extreme quality; then service that is satisfactory. That is the combination that makes your purchase a better money investment for you. TRADE HERE.
