HOUSE No. 711

There are many architectural styles and floor plan arrangements in our collection of 100 Face Brick homes. Come see them.

Be Sure You're Right Before You Build

THERE need be no regrets in your new home if you investigate before you build. Face Brick gives you the utmost of beauty, comfort, fire-safety and durability—at the greatest economy.

That's a broad claim, but the facts bear it out. Many home-builders are surprised to find how little more a Face Brick house costs than one of less durable materials. Also how many savings it effects.

Come in and talk the matter over with us, or send for "The Story of Brick" which gives the facts.

We are here to serve you. A visit incurs no obligation.

The Sign of the Genuine

It's a Great Car

"He Owns a Stutz"

It is no more than human that the Stutz owner glories a bit in the possession of a car whose mastery all concede. That rare distinction which is so peculiarly a Stutz heritage alone, has never been so exalted as now in the Stutz Six. Its lines are chic and debonair; its comportment reaffirms anew Stutz verve and vim.

The compliment, "He Owns a Stutz," bespeaks your standing among motor car owners, in a degree out of all proportion to the prudent price you pay for the highly economical Stutz Six.

BRIEF NEWS ITEMS FROM LAKE COUNTY

NEIGHBORHOOD JOTTINGS

Short Stories About Happenings and People Here and There About This Section of North Shore

A boycott on ice looms in Waukegan unless there is a reduction in price, according to the statements of scores of local residents who are much exercised over the thirty per cent increase in price that has been put into effect by local ice dealers.

William Geary, 33, of Wauconda, died last week at the Victory Memorial hospital from an embolism in the head. He had undergone an operation for ulcers of the stomach previously.

George Schierschmidt, 73 years old and a resident of Waukegan for nearly forty years, died Tuesday night at 7:10 o'clock at the Lake County General Hospital.

Beaten over the head with an iron bar by two armed bandits until he was unable to offer resistance, Ben Rusek, 45 years old, North Chicago, was robbed of \$140 in cash and checks amounting to \$93, near the electric railroad station last week.

Waukegan's first death of the swimming season was recorded last week when George Gaulke, 21, of Algoma, Wis., died at a hospital from a broken neck. He dived in three feet of water.

A sojourn of seven hours in the Waukegan city jail was part of the initiatory work conferred by the Waukegan lodge of Elks last week on three candidates out of a class of nineteen. It proved to be one of the biggest hits ever presented by a local lodge.

Thieves last week took advantage of a storm at night and ransacked the office of the Libertyville Lumber Co., First street, Libertyville, and escaped with a typewriter.

Receiving a "grapevine" tip that the dense woods west of Fort Sheridan is the rendezvous of a gang of rum runners, Sheriff Ahlstrom and Deputy Delbert A. Weale one night last week made a dash for the boot-

leggers' den and succeeded in rounding up one who was trapped in his effort to escape, several others having apparently received warning in advance from their rapidly retreating companions.

Members of the Rockford Bar Association have been unable up to the present time to make choice of a candidate for the Republican nomination for circuit judge to succeed Judge Robert K. Welsh of this circuit who has signified that he intends soon to resign from the circuit bench and devote his time to private law practice.

SERVICE COMPANIES AID CHARITY PLANS

Form Chapter of Children's Aid Society; All Utilities Are Interested

The public utility companies of the state of Illinois have formed a utility employees' chapter of the Illinois Children's Home and Aid Society. At the meeting where this was accomplished, the by-laws adopted set out the object to be to enlist the support and interest of the men and women engaged in public service company

work in the Illinois Children's Home and Aid Society, which is devoted to the finding of homes for homeless children.

At this meeting the officers, a board of governors, and seven standing committees of the chapter were elected. The officers are: Chairman, John F. Gilchrist, Commonwealth Edison Company; vice chairman, Britton L. Budd, Chicago Elevated Railroads; secretary, L. C. Torrey, Chicago Elevated Railroads, and treasurer, F. H. Scheel, Utilities Securities company. The membership of this chapter includes employees of all public utilities and affiliated companies in the state of Illinois. This means a potential membership of approximately 25,000 people. It is expected to enroll this great number of people in this humanitarian work and to realize a large sum, all of which will be turned over to the parent body assuring the giver that his membership fee will be devoted to the actual alleviation of suffering. Incidental office and clerical expenses will be borne by the public utility companies whose members make up the chapter. Britton L. Budd, president of the Public Service Company, is chairman of the general committee.

\$9,000,000 for Added Service

Architect's conception of how the new Waukegan generating station will look when completed. First unit now being built.

Joliet electric generating station. One of the most efficient in the world. Capacity being doubled.

Blue Island Power Station. Covering a land area of 30 acres, with capacity of 46,500 k. w. or 63,000 h. p.

TO meet the ever increasing service requirements of customers, the Public Service Company is constantly providing greater plant and distribution facilities.

The Company will spend \$9,000,000 for new plants and additional service equipment in 1923 alone.

The Company is now operating 16 electric generating plants, 30 electric sub-stations, and 7 gas manufacturing plants.

The Company has more than \$75,000,000 invested in its business and operation of electric generating stations, gas plants, sub-stations, thousands of miles of underground and overhead cables, gas, heat and water mains and other property necessary to serve 177 cities, towns and smaller communities.

The new plant at Waukegan will add a vast amount of electrical energy to the present available supply and eventually this plant will house eight turbo-generators with an aggregate rating of 250,000 kilowatts or about 335,000 horse power.

The plant at Joliet is being more than doubled in capacity by the addition of a 30,000 kilowatt turbo-generator. It is planned that this station will ultimately have a capacity of 150,000 kilowatts or about 201,000 horse power.

The plant at Blue Island serves a large and growing industrial territory with the efficiency necessary to meet a diversity of power requirements.

Through the modern methods of utilizing power these plants are all inter-connected with the other plants of the company so that the energy of each may be diverted to meet sudden or unusual requirements.

In addition to these very large activities, the company, throughout the territory served by it, is making improvements and extensions to insure maximum service to customers everywhere.

These increased facilities enable us to keep pace with the development of the communities served and thereby, add to their prosperity.

This company has but one purpose and that is, to serve efficiently and please its customers.
