### COUNTY HOSPITAL DUMP FOR CHRONICS

HIGHLAND PARK MAN SAYS

Tells Board of Supervisors In Session That Many Patients Should Be Sent to the County Farm

Charging that the supervisors themselves are to blame for the rapidly increasing cost of operating the county hospital and then quibble over paying the fiddler, and that the hospital is the dumping ground for chronics, which have no place there, Supervisor Vercoe, of Highland Park last week laid bare conditions which are bringing about the breaking point in the endurance of the finances committee, which is staggering under the burdens of the county.

Supervisor Vercoe declared that there are no hospitals anywhere along the north shore that would tolerate conditions that the county hospital committee is compelled to meet in the handling of from half a dozen to a dozen chronics, which have no business there and should be cared for at the county poor farm because they are past help and the only thing that can be done for them is to give them ordinary care. He declared that the county is taking care of these people at an institution where costly machinery and employees are maintained, when they could be cared for just as comfortably in the poor farm with the aid of one nurse and some cheap auxiliary help.

He stated that upon a recent visit of the finance committee to the hospital Dr. Charles Lieber, superintendent, showed them a number of patients, whose condition was enough to move anyone to sympathy, but he said that they should not be permitted to remain there because they are clogging the work of the hospital, which should be operated for persons who can be benefited by medical and surgical care. Under the present plan, he said the efficiency of the county hospital is being killed.

### ANNUAL PICNIC FOR FARMERS OF STATE

Agricultural Association Holds It at Urbana on June 29; Notable Features

Farmers, their families and friends, will have a double incentive to attend the annual picnic of the Illinois Agricultural association at Urbana, June 29. The fact that Urbana is the home of the University of Illinois with its great college of agriculture and agricultural experiment station, and the fact that a special open house is to be held by all departments of the college during that week-end in June, every farmer in the state who can possibly arrange to get away, should make plans to head in this direction.

The open house at the University will be for three days—June 28, 29, and 30. This arrangement is made so that those who wish to come the day before the picnic and visit the university and then stay over the next day for the picnic, can do so, while those who wish to stay over the day after, will have the same opportunities and privileges.

Greatest Farm College The visitors will see one of the greatest, if not the greatest, array of farming experiments and scientific study of farming problems that the world knows. Several hundred different experiments are being conducted by the university—on many, many subjects. In addition to the fact that all of the agricultural buildings will be open for visitors, with guides available at every turn, there will be men stationed at all of the experimental plots. Regular routes to be traveled, from start to finish, will be marked and charted. Those who wish to see it all, can follow the route, while those who are interested in just certain phases of the work—agronomy, dairying, horticulture, etc.—can visit just those places where that particular line of work is going on.

The university farm which adjoins the regular campus, comprises 922 acres.

### COUNTY IS RUNNING AHEAD OF ITS LEVY

NINE MONTHS' SHOWING

Spends Less Money in That Time Than Sum Appropriated, It Is Reported to Board Of Supervisors

Out of appropriations of \$296,100 for the year, \$248,045.92 has been expended in the first nine months, the report of the financial committee before the board of supervisors shows. Overdrafts from various funds amount to \$27,183.92 while the balance is \$75,283. Poor expenses lead with a cost of \$38,292 which shows an overdraft of \$8,292. One big expense is the salaries of employees. To date, the report runs from Sept. 1, 1922, to June 1, 1923, a total of \$26,993.45 has been spent to conduct the county offices and courts. The county highway tax is next with an expenditure of \$25,605.32, and public buildings fourth with a cost to the county of \$18,369 for the nine months.

Blind Pensions Blind pensions are running true to the predictions of the supervisors when they made out the year's budget. So far \$3,225 have been spent this way and there is still a balance of \$1,275 from the appropriation.

The election expenses exceeded the amount of \$10,000 allotted for it. A sum of \$12,550.10 was spent to put the present men in office, or \$2,550.10 more than the supervisors thought would be necessary.

The rental of offices, due to the lack of room in the county building, has amounted to \$1,305 in the nine months time. The appropriations for that item of expense is \$2,000.

County Poor Farm

The county poor farm is exceeding its quota by a few dollars. The appropriation is \$20,000 and \$15,158 has been spent leaving less than \$5,000 for the last quarter.

The detention home is sliding under wire easily. They have spent but \$4,598.53 of their \$10,000 budget in the three quarters.

The county is running slightly ahead of the appropriation, the report shows.

### ALICE HOME GETS BEQUEST OF \$5,000

Local Hospital to Benefit by Will of Clyde M. Carr; Other Gifts

Through the will of Clyde M. Carr, late president of Joseph T. Ryerson & Son, the Chicago Symphony Orchestra is bequeathed the income from an endowment of \$1,000,000.

The Art Institute of Chicago will benefit from an endowment of \$500,000.

The will was filed last week at Waukegan, Mr. Carr's legal residence having been in Lake Forest.

The value of the estate, according to the petition filed with the will, is nominally \$2,000,000.

A bequest of \$5,000 was given to Alice Home Hospital of Lake Forest. After distributing \$100,000 more in equal shares among nine nephews and nieces, Mr. Carr leaves one-half of the residuary estate to the orchestra, the entire income to be used by its trustees without restrictions. One-fourth of the residuary estate is left to the Art institute, to be kept as a separate fund, the income from which, together with such part of the principal as the trustees shall deem wise, is to be used "for the purchase of paintings and for no other purpose."

Neither of these gifts is to be made until after the death of the widow, Mrs. Lillian Van Alstyne Carr, who is to receive the interest from the residuary estate during her lifetime. The remaining fourth of the estate is left to Mrs. Carr outright.

### WORK ON TWO ROADS IN COUNTY DELAYED

Construction work on two important road building jobs in Lake county were stopped Wednesday as a result of a state inspector condemning the gravel and sand being used.

The two jobs which were stopped were those on Rockland Road, from the Creamery road west, and Milwaukee avenue at Libertyville.

The Eclipse Construction company has the Rockland road job and Jas. H. Cape & Sons have the Milwaukee avenue work.

The inspector stopped the work, claiming that the gravel and sand contains more than three per cent dirt. Stopping of the work has caused the Eclipse Construction company much trouble as practically one-third the sand and gravel necessary for the completion of the work was hauled to the premises last fall.

The material was purchased from the Interstate Sand & Gravel company at Libertyville.

Charles E. Russell, county superintendent of highways declared that the county is in a peculiar position in the matter because of the fact that another state inspector last fall O. K.'d the material. He stated that it appears to be up to the contractors to straighten out the matter, and an effort is being made to do this as soon as possible in order not to tie up the construction work any longer than necessary.

# Friendliness

When you become a customer of this bank you surround yourself with a group of men sincerely interested in your success.

Our doors are wide open to you in friendly welcome.
