

MANY ARE JOINING MINUTE MEN HERE

MEETING FRIDAY NIGHT

General Chas. G. Dawes Speaks At City Hall; Tells Aim of Society; Growth Is Rapid

At a largely attended meeting of Highland Park citizens last Friday evening, in the city hall, a company of Minute Men of the Constitution was organized in this city with more than a hundred members, and cards were taken out for their signatures by those present, so that it is believed that in a short time the local company will number upwards of 1,000 to 1,500 members.

Of 85 present at Friday night's meeting, 83 signed membership cards. The city was divided into four districts with a captain for each section, as follows: S. A. St. Peter, northwest; Alex Rafferty, southwest; Henry Doty, southeast; Robert Buckman, northeast. All cards should be signed and turned in to F. J. Fox, 321 Park avenue, not later than next Sunday.

The principal talk of the evening was made by General Charles G. Dawes of Chicago, who during the war was the business head of the A. E. F. and later organized the budget system for the federal government and was made its first chief. General Dawes is the founder of the Minute Men organization.

General Dawes' plea of the general was for higher ideals of government effectively translated into action by office holders, a consideration by office holders of the needs of the people as a whole rather than the needs of the organized minority interests and a rigid respect for law and order, all of which should be secured through an intensive organization of citizens, and organization sufficiently large and strong to go into the elections and conventions and enforce its demands.

The Minute Men organization is the transition into action of a feeling of unrest at the tendency of the times, declared the general. It plans for an intensive organization in every community in the state, with companies headed by a captain and with lieutenants in every ward, these units to work through both parties to secure the things for which the organization stands in politics.

CHILDREN'S DRIVE HERE NEXT SATURDAY

Prominent Local People Sponsor Drive for Volunteers of America; Children to Tag

Permission has been granted to a representative of the Volunteers of America to hold a "children's drive to help children," in Highland Park, on Saturday, July 14th.

Sponsors for the Highland Park enterprise are Mrs. W. A. Alexander, Mrs. Wm. Dooley, Rev. Frank Pitt, Mrs. Walter S. Grubbs, Dr. P. C. Wolcott, Mrs. Leander L. Winters and Miss Gemma Lichtenstein in charge of headquarters on Saturday at the Elm Place school.

The Volunteers of America is an organization dedicated by Maud Ballington Booth, to spiritual work among prisoners and to relieve destitute families of prisoners in state penal institutions. More than 170,000 children in America have been saved to future good citizenship through this work.

Invitations to help sell the heart tags have been sent to a number of the grade girls and boys and as an incentive as well as a reward for their efforts a number of pretty and useful prizes have been generously offered by local merchants. For the one who secures the largest amount for her tags Earl W. Gsell & Co., pharmacists, will give a Brownie kodak; the second prize, a pair of roller skates, has been given by Meierhoff Hardware company; third prize, a variety case, has been given by I. T. Nemeroff, watchmaker and jeweler; Robert W. Pease, druggist, has given a manicure set; Sweetland's Pharmacy a fountain pen; the Gorber Gift Shop of 291 North avenue, has donated toilet water. For those who do not win prizes, but who will sell at least \$3.00 worth of tags, Mr. Pearl of Pearl Theatre will give a pass for two movie admissions.

The tags are to be sold as is customary, for whatever the purchaser is willing to give, so "have a heart" and help an unfortunate in Illinois, for this is to be the slogan. The money collected will be used in this state for destitute mothers with children in care of the organization.

On Wednesday a special train carrying one of these observation cars and one of the new dining cars recently added to the road's equipment, was run from Chicago to Milwaukee and return, and newspaper men from the cities along the route were guests of the road on the trip. Luncheon was served on the diner while the train lay over in the Milwaukee terminal, and everything provided for the comfort and enjoyment of the members of the party.

The new observation cars, as well as the diners, are of steel construction throughout, luxuriously furnished and equipped with all the facilities known to modern railroad building. The cost of the observation cars was about \$25,000 each. The new diners are more commodious than most cars of this type, giving more room about the tables and the equipment and service leaves nothing to be desired.

The photograph innovation in the observation cars was of special interest to the party on the trip Wednesday, and the pleasing effect of delightful music from the finest phonographs throughout the trip was fully appreciated, and there was general prediction that this feature would be widely popular.

Each of these cars has 21 seats, be-

RAVINIA IS GOAL OF MUSIC LOVERS

(Continued from page 1)

Sunday afternoon the orchestra program promises to be a good one, and the usual Sunday afternoon crowds are assured. Sunday night "Madama Butterfly" will be sung in Italian, with Florence Easton as Cio-Cio-San.

Next week's program Next week's program offers additional attractive features. On Monday evening an orchestra program, with Josephine Lucchese and Morgan Kingston as soloists. Tuesday "Lakme" is repeated. Wednesday night the opera is "Tosca," with Easton in the title role.

Thursday afternoon another delightful children's program is scheduled, with orchestra interpretations by Mr. and Mrs. Marx Oberdorfer. Following the intermission there will be interpretations of folk dances of various lands, including Scotch, English and American, and these promise to be especially entertaining and instructive. This portion of the program is given by the pupils of John F. Dewar, Norman Dewar as bag-piper and the Children's Scotch Band. The entire program has been especially arranged for the smaller children who are just beginning to attend the concerts.

MORGAN KINGSTON

Thursday evening "Madama Butterfly" is the feature, with Elisabeth Rethberg as Cio-Cio-San. Friday night the opera is "L'Amore dei Tre Re," in Italian, with Easton as Fiora. Saturday afternoon the orchestra concert arranged promises to be of special excellence, and Saturday night "The Barber of Seville" will be repeated, with Pareto, Ballester, Schipa, Ananian again in the cast. The work of these was highly praised in this opera last week.

Sunday afternoon Jacques Gordon will be soloist with the usual orchestra program which is a notable one. Sunday night "Aida" will be given, with Rethberg again in the leading role. The complete program will be found in another part of this paper.

Notable Achievement The first two weeks of the Ravinia season have been unusually busy ones. Eleven different operas, besides several repetitions, have been presented in those two weeks. Eleven different operas in two weeks is an achievement seldom even emulated anywhere, and when the entire eleven are given so successfully there is reason for praise. The layman can scarcely appreciate the amount of hard work which the artists must do to accomplish an undertaking like this, especially where they appear in different parts so frequently. They work hard, and the result shows it. The public never heard better grand opera at Ravinia than in the last two weeks, critics have agreed.

Much of the pleasure of these fine operas to many lies in the wonderful music provided by the Chicago Symphony orchestra, under the talented direction of two such splendid conductors as Gennaro Papi and Louis Hasselmann. Armando Agnini stage director also has more than proved his worth in that office.

ides the chairs in the observation end. At the front is a commodious smoking room, and the car is equipped for buffet lunch. The installation of a phonograph in each is an innovation in railroading introduced by the North Shore line, and on these cars its patrons while en route may have the enjoyment of hearing the finest musical productions.

"We have installed the phonographs in the new cars believing they will add to the pleasure of travel," M. J. Fernon, general superintendent of transportation, said yesterday in speaking of the new feature, which is being received with approbation by railroad officials and is certain to prove a very popular railroad accessory.

On Wednesday a special train carrying one of these observation cars and one of the new dining cars recently added to the road's equipment, was run from Chicago to Milwaukee and return, and newspaper men from the cities along the route were guests of the road on the trip. Luncheon was served on the diner while the train lay over in the Milwaukee terminal, and everything provided for the comfort and enjoyment of the members of the party.

The new observation cars, as well as the diners, are of steel construction throughout, luxuriously furnished and equipped with all the facilities known to modern railroad building. The cost of the observation cars was about \$25,000 each. The new diners are more commodious than most cars of this type, giving more room about the tables and the equipment and service leaves nothing to be desired.

The photograph innovation in the observation cars was of special interest to the party on the trip Wednesday, and the pleasing effect of delightful music from the finest phonographs throughout the trip was fully appreciated, and there was general prediction that this feature would be widely popular.
