PUSHING WORK ON STEEL TOWER LINE

Public Service Company's New Improvements Are Reported Near Completion

Construction on the steel line from the Public Service company's new generating station at Waukegan south to Evanston is proceeding rapidly. This improvement is in reality a monumental work. The steel towers will rise to a height of 85 feet—prominent objects on the landscape. They will carry two circuits of three wires each at the potential of 132,000 volts. This will be stepped down at Evanston and distributed.

Upwards of 1,500 tons of material are required by this work. Units of the company's automobile fleet are being utilized to haul this in over the right of way.

The building of a 33,000 volt line from Waukegan to Lake Bluff has begun. It is to be a class A line strung on wooden poles covering the same.

New 33,000-v line in north right of way used by the tower line. The particular work of this 33,000 volt line will be to convey electrical energy from the new Waukegan plant to meet the demands of North Shore towns. At present this is sent up from Evanston. At the completion of the Waukegan plant the existing lines from Evanston and the one referred to herein will be joined and the new plant will constitute the source of energy supply.

William E. Grose, Minister

The new lights are a great improvement, and the large audience last Sunday evening showed appreciation of the good work of the committee having the matter in charge. The work was done by Mr. C. E. B. Swan.

To Mr. Charles Thorson a vote of thanks is due from all the residents of North avenue, and beyond for the prompt manner with which he executed his task as chairman of committee on sidewalks. Not only is the new sidewalk in place but a splendid job was done in the protecting walls around the basement windows of the church. The work was done in workmanlike manner by Mr. H. Fromelt.

Now when the interior decorations are complete, we will have a fine, comfortable equipment that will be a joy to all worshippers.

A large audience saw pictures of old Japan, before the earthquake last Sunday evening. A large contribution was made for the sufferers, which was turned over to the Red Cross fund.
