Country Home Acreage
We are all very much interested in the rapid development of Highland Park and its environs. The activities within the present city limits are extending beyond the proposed new electric line and Ridge road. These fortunate enough to have purchased acres within the last year have doubled their money and this development simply proves the possibilities where acreage can be purchased from the original owner.
We are in position to offer an attractive proposition to ten or fifteen people who would be interested in buying two or more acres, partly wooded with the finest timber in Lake county. The tract is accessible but secluded and is located in what will become one of the finest North Shore localities. The price will be about \$2,000. per acre this being less than one half that which adjacent property is being held.
We invite Highland Park residents who are interested in North Shore developments and are looking forward to a 100 per cent increase at an early date to step in and talk over this unusual opportunity.
See us also for single acres, acres for subdivision, lots, houses and business property.

The old philosophers told us to "Hitch your wagon to a star," but many people have been obeying that injunction this fall by hitching them to the football stars.
Some of these hats that are being thrown into the room look as if some awkward person had recently sat on them by mistake.
