AROUND THE WORLD IN "THE SPEEJACKS"

Jules Verne won fame by his story "Around the World in Eighty Days." It took the "Speejacks" party sixteen months to accomplish the same feat, but then the facts of the case were different.

The "Speejacks" is a 98-foot motor launch, owned and captained by Albert Y. Gowen, Commodore of the Cleveland Yacht Club. Its trip to the farthest corners of the earth is one of the most amazing human experiences on record. The Paramount picturization of the voyage, "Around the World in the Speejacks" is a highly instructive film and most enjoyable entertainment. The cruise in its entirety is faithfully reproduced on the screen, beautifully photographed by a master cameraman, and it is in every respect delightful.

First section will be shown at the Highland Park Theatre, Saturday afternoon and evening, Jan. 26th and the second section the afternoon and evening of Feb. 2nd.
