# logain layer Cake To bake cake without ever a failure

AKE-Chocolate Cake, Spice Cake, Angel Food, Jelly Roll, Molasses Cake, Sponge Cake - surely this favorite dessert is welcome at any table, any time.

And when it comes to making Cake, truly "There is no place like home". Fresh eggs, pure creamery butter, thick spreading of filling and frostingeverything you want and just as you want it. And yet-why do so many housewives prefer to serve store-cake rather than make their own of

purest ingredients? With the aid of a cook book every housewife can mix the ingredients of a cake perfectly. Why then should she hesitate to bake all of her own cakes? Because even the best home-cooks feel they are "taking a chance" when entrusting the carefully mixed ingredients to an uncertain oven.

To banish this and other baking-worries forever, thousands upon thousands of housewives have discarded their old cooking stoves and have bought new Lorain-equipped Gas Ranges that bake any kind of cake perfectly -every time.

Furthermore, the Lorain Oven Heat Regulator makes it possible to can fruits and vegetables in the oven, or to bake, boil or roast any food in the oven without ever a failure because Lorain not only measures the heat of the gas oven, just as scales weigh ingredients, but controls the heat as well. Think what this means in gas saving, labor saving, time-saving, food-saving, worry-

The Lorain Oven Heat Regulator is endorsed by leading cookery experts. Lorain-equipped Gas Ranges are used by America's finest schools in the teaching of domestic science. In fact, Lorain is revolutionizing cookery, changing it from an inaccurate art to a very accurate science.

At our store you'll find a complete line of these wonderful Lorein-equipped Gas Ranges. Come in and ask us to explain the advantages of the famous Lorain Oven Heat Regulator.
