LIBRARY NOTES

In the recent death of Mr. George W. Cable, the south has lost one of her gifted sons, the confederate army one of its veterans, and the literary world one of its distinguished writers.

Those of us in this part of the country, whose knowledge of Louisiana has been gained only through geographies and Illinois Central railroad folders, will find particular interest in the works of this writer.

Mr. Cable found in the influence of slavery and in Creole life of New Orleans a field that has yielded to American fiction a number of highly artistic and captivating books. One cannot praise too highly the atmosphere and charm and distinction that he has thrown about one of the outstanding human situations in American history, and no writer has approached him in portraying and interpreting the charm of picturesque Louisiana.

His first volume to be published was "Old Creole Days." In this book, against the background of the Rue Royale with its balconies, cafes and gardens, or the Mississippi, are portrayed various types of Creole men and women, with now and then picturesque backwoodsman or more practical Americans. It is here that we find the well-known figures "Madame Delicieuse" and "Tite Poulette."

After scoring a brilliant success in this volume, Mr. Cable published his first novel, "The Grandisimes," one of the most striking and artistic pieces of fiction in American literature. This novel has as a background all the changing conditions that accompanied the cession of Louisiana in 1803, and the picturesqueness of Creole life, with the pall of slavery hanging over it all.

Other books written by Mr. Cable, which will fascinate any reader, are as follows: "Bonaventure," "Kincaid's Battery," "Posson Jones," "John March, Southerner," "Gideon's Band," "Cavalier," "Strange True Stories of Louisiana," all of which may be found in your public library.

MILDRED H. CREW, Librarian.
