## says: Meter Service Is Better Service!

The meter is accurate and definite and its figures read the same, day or night. You pay for what you get. But you must read the meter and so make sure that you are not overcharged. Car drivers expect you to do it for your protection as well as theirs. Because meter service is a cash transaction we give you cheaper and better service. No bookkeeper, no postage, no bills, no bother!

Four additional Yellows ready to put in service as soon as needed. Touring Cars when you need them for Trip or by the Hour.

## A New Engineering Principle

THE new principles of engine design incorporated in the V-63 Cadillac are found in no other motor car and result in a degree of smoothness and quiet unequalled in European or American manufacture.

While the obvious advantages gained by the 90-degree angle between the cylinder blocks have been retained, an entirely new design of crankshaft so balances the internal forces that all perceptible vibration has been eliminated.

It is, in the fullest sense, an engineering achievement—probably the most notable of Cadillac's many important contributions to the building of fine motor cars.

### CURIOUS QUESTIONS ASKED BY VISITORS

#### Attendants at Art Institute Report Strange Queries Frequently

Many curious questions are asked of the guards and attendants at the sales desks of the Art Institute. Several of the statues in the galleries are reproductions of the most famous of the Greek marbles, such as Venus of Milo, Hermes, the Dancing Bacchante, etc., and they are minus heads, or arms, or legs, for that is the condition in which they were found. The missing members have never been discovered. This unfinished state of the statues, therefore, gives visitors to the museum much concern and they want to know if they were broken off in shipment or left off on purpose. One of the most frequent queries is, "Please tell me where I may find 'The Song of the Lark.'" The other day a small boy saw a statue of Mercury and asked "Is that made of quicksilver?"

### STATE'S ATTORNEY SMITH'S RECORD

(Editorial, Waukegan Daily New, February 20, 1924)

Col. A. V. Smith is accredited by those observers, not alone in Lake county but throughout Illinois, with having conscientiously and efficiently administered the office of State's Attorney. He is considered the best State's Attorney in Illinois and one of the best in the country. His law enforcement activities have not a parallel in this state. He has kept his pledge made at time of his election, to do everything in his power to enforce the law.

Col. Smith's tenure must strongly appeal to Lake county taxpayers, viewed from the angle of economy. During the three years he has been in office he has paid his own salary, the salary of his assistants, stenographer's salary, detective hire, special officers' hire and expenses, in fact, every expense that could by any possibility be charged against his office, leaving a balance of approximately 20,000 to be turned into the school fund in July, 1924.

Of course the law violators whom he has fought will do everything in their power to distort and conceal the facts and to defeat Col. Smith, but the New is convinced that the law abiding people of this county in their cool sober judgment will properly and judicially weigh the exemplary record of achievements listed below, and that their verdict on April 8 will assure continued policy of law enforcement at the hands of States Attorney Smith.

We cite a few of the outstanding accomplishments of his office during Col. Smith's regime:

The conviction of three murderers:

- a. George Niggemeyer for the murder of John L. Johnson. Sentence—25 years in the penitentiary.
- b. Ignatz Potz for the murder of motorcycle policeman William Peterson. Sentence—hanging. Committed to life imprisonment by the Governor.
- c. William Lee for the murder of Hallie Lee. Sentence—life imprisonment.

The conviction of Scott Garner and James Montgomery for assault and rape. Sentence—life imprisonment in each instance.

Four convictions and penitentiary sentences for the statutory crime of rape on young girls.

Two convictions for the crime of arson. (One of the most difficult crimes to prove.)

Trial of Antioch bank robbers.

The breaking up of the repeated box car burglaries at Roundout and Blodgett.

The jailing of Mike Boyle and Ben Newmark for contempt of court; later pardoned by the Governor.

The trial and conviction of Wilbur Glenn Voliva for criminal libel.

The destruction of 87 slot machines. There is not a slot machine in Lake county at the present time.

The conviction and sentencing of the county jail of 118 violators of the prohibition, gambling and vice laws.

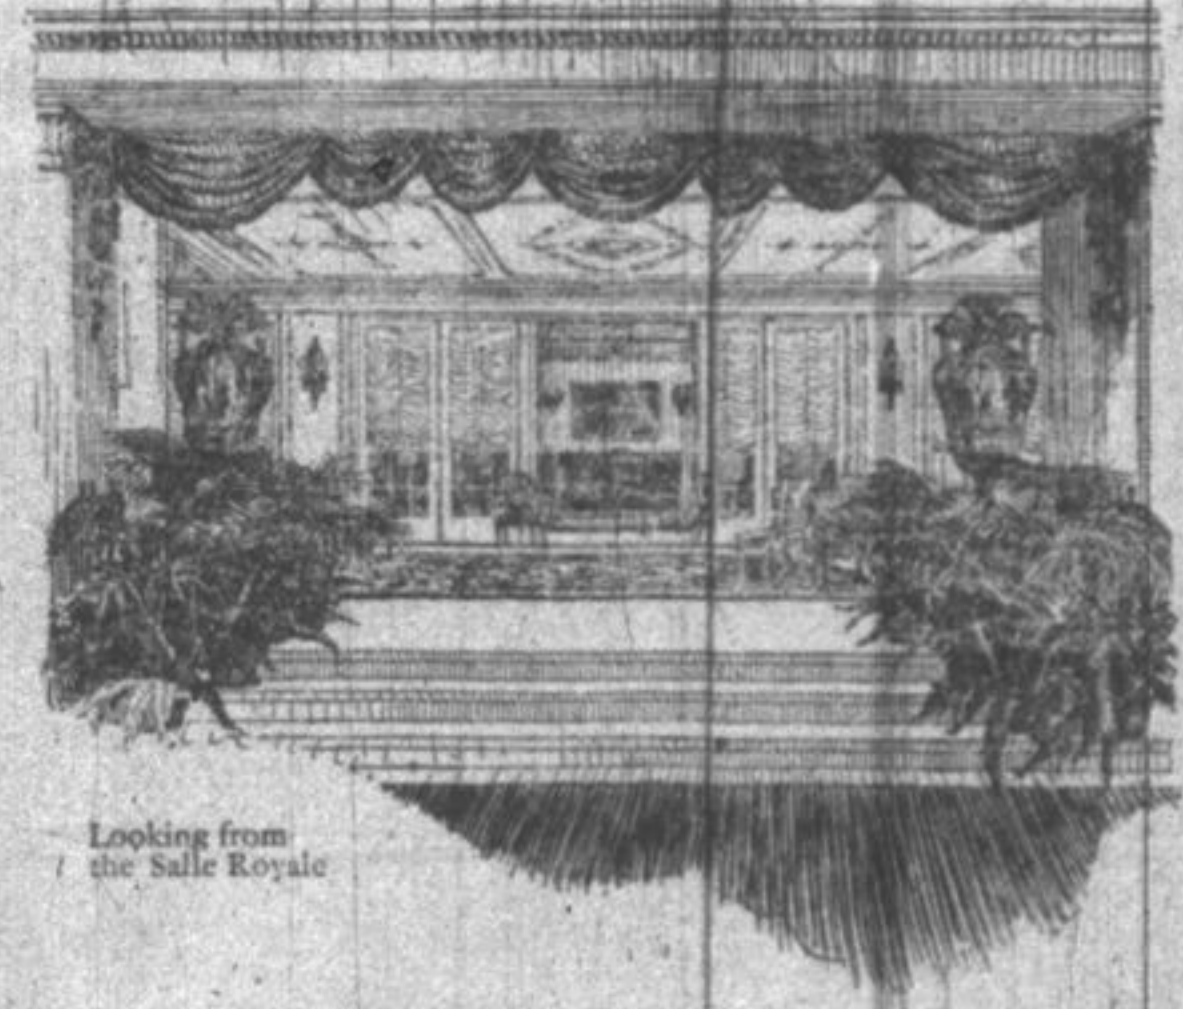

The breaking up of all open gambling houses in Lake county.

The collection of \$130,000 in fines and fees.

It has always been customary to give a second term to an official whose record has been satisfactory. It surely must be your conviction the above record entitles States Attorney Smith to that consideration.—Adv.
