THURSDAY, APRIL 10, 1924

## WHERE HELP IS NEEDED

Now that the spring elections are out of the way there is time to look about for other avenues of activity for those who feel the urge to do something worth while for the general good. There are always plenty of opportunities in any community for effort along these lines, and good work is always appreciated by the public, although this appreciation is not always vocal. Local organizations which are working for the benefit of the community are always glad of support. They need the backing of the people in their endeavors to do worth-while things for the community, and they should have it. There are plenty of kickers and critics in every community, but as a rule they do not greatly influence public opinion. It is the earnest worker, the zealous booster of community interests who really counts, when the assets of a community are considered. The country is over-run with people who can tell what is wrong with every movement, but what is wanted is the man or woman who can take hold wherever assistance is needed and help forward to success, a worth-while project. Every town has its drones and its workers, and it is to the eternal credit of the workers that most communities are forging ahead to better things, despite the handicap of drones and kickers. Everywhere good work is gaining in results; progress may be slow, but it is sure, because there is growing in this land a feeling of responsibility of citizenship more widespread than ever before. It is the duty of every citizen to accept this responsibility and to exert his or her best efforts to help every movement which makes for the best interests of himself and his neighbors in the community.

## THE WOMAN'S CLUB

More and more in every community, which is fortunate enough to have a woman's club within its borders, there is growing a realization of the good work being done by this organization for the welfare of the community, and, through the federation of these clubs, for the country as a whole. The scope of effort of women's clubs has greatly widened in recent years, and the good work done has increased in proportion. There is no influence in community which has a woman's club that can claim greater achievement in the line of community welfare than can this organization of earnest women whose ideals are high and whose efforts are put forth wholeheartedly toward their attainment. The participation of women's organizations in community activities of every description has lifted community life to a higher plane and widened the horizon of possibilities by lifting the eyes of the people to higher goals and greater achievements. The women of this country are playing an important part in its development in these days, and their influence will be more strongly felt as their organizations increase in number and influence. And the tremendous thing about it all is that, no matter in what line of endeavor this influence may be exerted, it can be depended on always to be for betterment. Women's clubs have done great things for their communities, and they will do still greater things. They have only begun and will go far. In everything they attempt they can be trusted to the limit, for their aim is always high.

## OUR COUNTRY FIRST

Always Our Country should be first. When most of us who are now in the middle life were school children, it was not necessary to teach patriotism in the schools; patriotism was absorbed by the youth of that day insensibly from learning of the noble deeds of our country's heroes in past times, as recorded in our history books. Nobody thought of being anything else but patriotic. This pacifism nonsense had not reached us from overseas. There were no radicals nor pink parlor bolsheviks in those days trying to break down our nationalism to make us easy prey for the bandits of the world. Our country meant something to us. It meant our homes and schools and churches, our dear ones, our friends and neighbors, our liberty and our life. It was one with all of these; it stood for them all in our understanding of patriotism. There was no question about it. No man nor organization would have dared in those days to stand up and flout the Grand Old Flag of this Republic nor hiss the stirring strains of its battle songs. What is the matter today? Have we lost our spirit as a nation? Never! The World war proved that. The trouble is the invasion of foreign propaganda is made too easy in these days. In fancied security we fail to realize that the forces that stand for chaos and destruction are boring from within in this land, trying to upset traditions by teaching false doctrines to our youth, using the discontent of some classes and sections with economic conditions to build thereon distrust of our government, to inculcate treachery to our established institutions. It is time to smite this evil, which is the more dangerous because so skillfully disguised. It should be crushed wherever found. The American heart is still sound at the core. The people are still for Our Country despite the howling of the pacifists.

## COOK COUNTY PAYS THIRD AUTO FEES

### Thirty-three and One-half Per Cent Comes From Chicago, Report Says

Cook County last year contributed 33 1/3 per cent of the total automobile fees, according to figures just announced by Secretary of State Louis L. Emmerson showing the amount paid in by the various counties of the state.

The total automobile fees from Cook county were \$3,230,130. This is an increase of nearly one million dollars over the amount paid in by Cook county in 1922, the figures for that year being \$2,335,224.

## ADJUDICATION NOTICE

PUBLIC NOTICE is hereby given that the Subscriber-Administratrix of the Estate of Catherine Hart deceased will attend the Probate Court of Lake County, at a term thereof to be held at the Court House in Waukegan, in said County, on the first Monday of June next, 1924, when and where all persons having claims against said estate are notified and requested to present the same to said Court for adjudication.

ANNA HART, Administratrix.  
Waukegan, Ill., April 3rd, 1924.  
E. F. Gail, Attorney

Much is being said about the "master migs" that are swaying political developments, but perhaps some of them are controlled by mistress migs.

## VILLAGE ELECTION IN DEERFIELD

The interest of Deerfield citizens is now centered in the Village election to be held next Tuesday. In view of the marked development that has been carried out in that village during the last year many of the citizens apparently are desirous of seeing the same kind of program carried thru the coming year.

The Citizens Ticket recently mailed the following letter to the voters: TO THE CITIZENS OF DEERFIELD.

During the last year there have been many important steps taken by the Village Board toward the progress of Deerfield.

1. SEWER: A comprehensive and thorough investigation was made by an experienced firm of sewer engineers and complete plans were drawn for an adequate sewer. These have been approved by the people at three public hearings and by the Village Board.

2. ANNEXATION: At an election recently held outside territory was annexed which quadrupled the former area of the Village.

3. ZONING: A prominent zoning engineer was employed who has cooperated with the Planning Commission in drawing up a scientific zoning ordinance. This will assure the proper location of business, industrial and residence property for the best development of our town in such the same way as the high grade towns on the shore.

4. PLANNING: A Commission was authorized by the Board whose duty it is to make recommendations as to new subdivisions, parks, streets and other developments relating to the orderly growth of Deerfield.

5. ROADHOUSES: The present Board has discouraged the establishment of roadhouses.

These things obviously are beneficial to our Village and it is practically necessary to have them actively carried forward. For that reason we are asking you to give your support to the Citizens Ticket which is pledged to follow the above program.

Respectfully submitted,  
C. W. Boyle  
J. J. Hood

## PLAN INTERNATIONAL SERVICE FOR WOMEN

### Girls of Many Nations to Take Part in Unique Feature at Y. W. Convention

Indian girls in beads and moccasins, immigrant girls from Russia, Italy, Czechoslovakia and other parts of Europe, in their festive native dress and students in cap and gown will help represent the young womanhood of America in the professional of banners which will open the Y. W. C. A.'s special vesper service at the Cathedral of St. John the Divine, in New York, on May 4th. The service has been planned as part of the 1924 national convention of the Young Women's Christian Associations through the courtesy of Dean Robbins. An attendance of 3,000 girls and women is expected.

"The central idea of the service," said Mrs. Harry Emerson Fosdick of the National Board, who is in charge of arrangements, "is to emphasize through the music and through the personnel of the banner bearers, the belief of the Young Women's Christian Association in the reality of international friendship, as well as to show the extent of its world-wide program. Each state in the Union and every country in which the Y. W. C. A. work is being carried on will be represented by its flag. A special musical litany is in preparation and there will be sacred music of foreign countries."

The procession will be headed by Mrs. Robert E. Speer, National President, followed by other National Board members. Among the banner bearers it is expected will be American Girl Reserves and representatives from the Associations of England, Japan, Italy, France, Belgium and other countries.

# Eggs Eggs

Fresh Country Eggs From Farms to Consumer

We are offering during April and May selected guaranteed new laid eggs in 30-dozen case lots at wholesale prices, 27 cents a dozen up to and including Saturday, April 20th, at this price.

Now is the time to buy and enjoy eggs when they are at their best and as low in price as they will be this season.

This offer at wholesale only holds during the flush of the season in April and May when our contracts with producers bring us more eggs than we can sell at retail and rather than throw them on the market at a possible loss we are offering in case lots at this wholesale price to move them as fast as received and make additional customers at this price.

Our location is on the Skokie or Dundee Road just seven miles west of Glencoe. All cement roads to our door. Don't fail to take advantage of this offer. Arrange to divide with some one else and get benefit of this low price.
