They came with such force that one of the sailor's legs was cut off and was afterwards found in a ditch. The man that ran into him got out and tore off his shirt and bandaged it as best he could and hurried him to the Evanston hospital. The sailors were seen traveling up and down the road several times and were seen in front of the Blue Heron at 9 o'clock.

An Auto Full of Intoxication

Last Tuesday afternoon three men and two women from a neighboring town, so intoxicated they could hardly keep on the Waukegan road, were taken up by the police and lodged in jail.

OPEN AUDITORIUM ON SUNDAY, MAY 4

(Continued from page 1)

audiences ever seen at a musical entertainment in this city.

Ideal Setting

The Elm Place auditorium, which will be completed and ready for this fine concert on Sunday afternoon, May 4, is an ideal setting for a concert of this character. It will have a large and roomy stage, graduated seats and all other equipment which goes to make a hall of this type suitable for the rendition of the finest musical features. The acoustic properties are especially fine, this feature having been given careful attention in the planning and erection of the building, making it in every possible way adequate to the requirements of a great orchestra. In the matter of facilities in the building nothing will be lacking to make the opening concert a splendid success.

The Civic Music committee and the Auditorium committee have been working jointly for many weeks to provide this great musical treat for Highland Park on this auspicious occasion, and the thanks of the community are due to the leaders and members of these committees for their successes in securing Conductor Stock and his famous orchestra for this event.

Regarding the Civic Music series so far held this winter, the chairman, Mrs. Lytton, reports results, both in attendance and financial proceeds, exceeding expectations, and Mrs. Lytton attributes much of this success to the publicity given the series by the Press. It should be added that without Mrs. Lytton's enthusiasm and foresight and the indefatigable efforts of herself and her efficient committee the series would not have been possible.

Tickets at Bank

Single seat tickets for the Elm Place auditorium opening concert may be obtained in advance from Harry Paul, treasurer of the committee, at the Highland Park State bank. Tickets also will be on sale at the door on May 4. Holders of the Civic Music Series season tickets, of course, are provided for. It is urged however, that those who expect to enjoy this exceptionally fine concert and witness the formal opening of the new auditorium, should secure their seats as soon as possible, as a large audience is expected. Get them early.

Congress having assembled with the purpose of reducing the taxes, the public may have reason for congratulation if it adjourns without increasing them any.

NEW INDUSTRIES ON NORTHWESTERN LINES

During 1923 699 Locations On Various Divisions Were Arranged For

During the year 1923 there were 669 new industry locations arranged for with the Chicago and North Western Ry. System in providing direct track service as a part in the operation of these business establishments. The construction of private tracks was required by 268 of these new industries to facilitate the handling of their traffic. In addition to this many new commercial concerns have located on the railway system who have adapted their transportation needs to the current facilities, and not requiring special action for track or lease of railroad property.

These industries are located at points over the several railway operating divisions in the nine states in which The North Western Line is located.

The variety of commodity production and the operation of these new concerns is favored at their new location by the use of many natural resources of the territory, which include the iron ore ranges, the forests of various kinds of timber, great water power facilities, coal fields and the surrounding agricultural districts furnishing a vast quantity of the foodstuffs of the nation. There is also a growing marketing and distributing area in this country that has encouraged the location of wholesaling and jobbing houses.

It is anticipated that the year 1924 will show continued growth of industry with a good percentage of increase in this North Western territory, where the transportation service of the North Western Line is provided in adequate measure with the most modern equipment.

SHEEP RAISING IN COUNTY INCREASES

Official Figures Show Industry Rapidly Growing; In Other Counties

Although the matter is not generally known sheep raising has become quite an industry in Lake county. The livestock statistics of the United States show that there are 3,280 sheep in this county. Pike county, the statistics show, has more sheep than any other county in Illinois. This county counts 20,400 head in its sheep population.

It was only a few years ago that there were scarcely any sheep raised in Lake county. The industry has been increased considerably however, and it is believed that the time is not far distant when Lake county will be one of the most important sheep-raising counties in the state.

The number of sheep in some of the other counties of the state are: Winnebago, 12,150; Kane, 10,120; LaSalle, 10,900; McHenry, 4,000; Christian, 6,440; Madison, 3,220; Montgomery, 9,900; Peoria, 5,530; Champaign, 9,720; Coles, 5,930; Edgar, 6,760; Marion, 7,830; Jackson, 2,060; St. Clair, 1,600; Williamson, 1,490; Saline, 1,930.

The state has a total of 503,000 sheep which are estimated to be worth \$1,863,000. The average value per head is \$3.20, ranging from \$3.75 in the northeastern counties to \$7.50 in the southeast.

America is said to be the home of the brave, but it seems to have been more the home of the raven for the last few months.
