TRAIN SHOCK IS COMMUTERS' BANE

Section 24-A of the motor vehicle law of Illinois relation to trucks is unknown to many truck owners, according to a bulletin issued by the Chicago Motor club. This section of the motor vehicle law provides that all motor trucks except those operated by the police and fire departments must be equipped with a device so as to prevent the motor truck from obtaining a speed greater than that permitted by the motor vehicle act if the truck is geared to run at a greater speed than that permitted such a truck. It is provided in the act that it is the duty of the State Attorney to prosecute for any violation of this section and the Secretary of state may cause the inspection of motor trucks to be made as he may deem necessary.
