When All Others Have Failed COME TO US

When a property owner wishes to sell his real estate, he wants quick action as a rule. The best way to get results is for him to list his property with a reputable and energetic realtor with an exclusive contract.

We, knowing that we are protected in our efforts to sell property, will devote every possible energy for making a sale. We will spend money advertising the property which we would not do if other brokers had the property for sale. The chances for a satisfactory and prompt sale are obviously much greater under an exclusive contract.

This system gives quick results without costing the property owner one cent more than the regular sales commission.

Why Not Try It?

NEW SUB-STATION AT GLENCOE OPEN

Structure Is Of Outdoor Automatic Type Used By Public Service Co.

The Public Service Company's new sub-station at Glencoe is in operation. It is a structure of the outdoor automatic type, on the plan of others built by the company at various points. Energy transmitted from the new Waukegan generating station reaches an Evanston sub-station, where its transformation to lower voltages is effected. It is sent back to the Glencoe plant mentioned at 33,000 volts over an existing line and from that plant is distributed for use. The cutting in of the Glencoe sub-station eases up the operating problem in the territory dependent on it—a section of rapidly growing demand, and obviously so since the section is part of the North Shore country.

CHILD WIT SAVES LIVES OF FAMILY

Fire Awakens Wauconda Girl; She Warns Parents; All Flee to Safety

The alertness of Doris Whitman, six years old, saved the members of her family from being burned to death in a midnight fire which destroyed the home of Clarence Whitman, one and a half miles west of Wauconda last week.

The child was awakened about 11 o'clock by the crackling of flames licking their way into the bedroom. She aroused her parents and the members of the family barely escaped with their lives before the house became a fiery furnace.

They were unable to save any of the household goods, all being destroyed before neighbors arrived.

The farm is owned by Mr. Whitman's father, William Whitman. The residence was partly insured.

AUSTIN IS TO HAVE NEW Y. M. C. A. HOME

Plans for the Austin Y.M.C.A. building in Chicago were adopted this week, according to announcement of A. H. Clement, chairman.

The building will be four stories and ground floor, cost \$600,000, and occupy the lot 166x201 feet in area at the northeast corner of Central avenue and Race street, across from Holden Park. It is planned to have the roof on the building by the end of the year.

While appearing from the outside as a single structure, the building will really consist of two main divisions one for men and the other for boys. While not the largest, it will be the finest Y.M.C.A. building so far erected in Chicago.

In the boys' section of the building will contain a large lobby with fireplace, reading room, billiard room, offices, club and committee rooms, class rooms, check room, shower baths, locker rooms, handball courts, cafeteria with private dining room, and 175 dormitory rooms.

In the boys' portion of the building will be lobby with fireplace, check, reading, game work, and locker rooms, and shower baths. Common to both men and boys will be two gymnasiums, swimming pool, storage rooms and tailor shop, and a playground.

It ought not to take any great amount of ink to sign all the bills that this congress has passed.
