### When All Others Have Failed COME TO US

When a property owner wishes to sell his real estate, he wants quick action as a rule. The best way to get results is for him to list his property with a reputable and energetic realtor with an exclusive contract.

We, knowing that we are protected in our efforts to sell property, will devote every possible energy for making a sale. We will spend money advertising the property which we would not do if other brokers had the property for sale. The chances for a satisfactory and prompt sale are obviously much greater under an exclusive contract.

This system gives quick results without costing the property owner one cent more than the regular sales commission.
