WOMAN'S CLUB DANCE AS USUAL TO-NIGHT

The following article is submitted by the Women's club: We owe an apology to the people of our community who came to the Woman's club, Sheridan road and Elm place, last Thursday evening, expecting to dance.

The extreme dampness had done some damage to the piano and made it impossible to use it, however, that has been righted and all is in readiness for the dance tonight. Patrons and patronesses for the evening are Mr. and Mrs. Lloyd Sheahan, Mr. and Mrs. J. T. Payne, Mrs. Harry Mills and Mrs. John Croke.

WEST SIDE SPORTS SHUT OUT LOCALS

DEFEAT ELKS; SCORE, 6-0

Visitors Make Ten Hits to Elks Six; Latter Have Chance In Third But Strike Out; Coming Games

For the first time in two years the Elks suffered a shut-out defeat. The West Side Sportsmen did the trick, 6 to 0. They found Hessler's offerings to their liking and made 10 hits.

Blackborn, their pitcher, was stingy with hits, only six being made. In the third inning the Elks had the best chance to score, when G. Glader and Little hit singles. But Werner and Stallman struck out. Other times the Elks got men on bases but could not hit. Little made half of the hits with three neat singles.

The West Siders scored three runs in the second after two were down. A few hits, a bonehead throw, plus a walk accounted for the runs. In the seventh they made two runs on three hits and a walk.

The Elks played a listless game and will have to do better next Sunday, when they play Morton Grove. In an earlier game the Elks won by a close score of 8 to 6 in a batfest. Morton Grove is bringing over a good team and a large crowd and all Highland Park fans should plan to be on hand and see a good game.

Labor Day, Glenview To help the Moose celebrate Labor day, the Elks will meet Glenview at 3 o'clock in a good ball game. Everybody knows of the keen rivalry between these two teams.

NATION-WIDE ESSAY CONTEST ON LIGHTS

BETTER HOME - LIGHTING

School Pupils to Participate In Competition for Fine Prizes Offered by Committee

Illinois public schools and electric companies are going to participate in the nation-wide educational undertaking having as its purpose better home lighting.

Statistics show that 25 per cent of the school children of the United States suffer from defective vision which is due partially, at least, to improper lighting in the home. War records show that 10 per cent of the men drafted for service of the country were unfit on account of defective vision.

Committee Appointed

To alleviate this trouble, a National Lighting Educational committee, composed of educators, electric utility men and others having affiliation with manufacturing companies, has been created which will conduct a study course for school children. A contest will be conducted, both nationally and in each locality, each contestant writing an essay on how to light their own homes and also making a study of neighbors' homes.

The first national prize will be a \$15,000 model electric home which will be constructed anywhere in the United States, as specified by the winner. Other national prizes include scholarships to universities and colleges. In addition the various communities holding home lighting contests will give prizes and each local prize winning contestant will be entered for the national prizes.

Gilchrist Quoted

John P. Gilchrist, Vice-President of the Commonwealth Edison company of Chicago and Chairman of the Regional committee of the Educational committee, which includes the states of Illinois, Indiana, Michigan and Wisconsin, said:

"Of course, naturally, we are extremely anxious that some school pupil in this section shall win the national prize. It is an extremely interesting subject and one, which because of its bearing upon the health and well-being of everyone, is attracting the widest attention. The contest will close Oct. 31. It is expected that the children will produce some real contributions to the subject of lighting in their essays."

WAUKEGAN MEN ARE ROBBED NEAR HERE

Louis Hadelman and Harry Greenwald, two Waukegan young men were chased on Telegraph road last Friday night by auto bandits and robbed on the outskirts of Deerfield. They young men were returning from Chicago and a big gray car pursued them to Deerfield, where the bandits started to shoot. The Waukegan men stopped their car, and the robbers took about \$145 from them, according to their report to the sheriff's office.

The Waukegan men drove all the way to the Waukegan police station before reporting the robbery. Three county motorcycle policemen, Ambrose Beaudin, Frank Valenta and Henry Wallenstein, dashed to the scene. They combed the roads and road houses but were unable to find a trace of the bandits, who had an hour's start, the robbery not being reported until nearly 6 a. m.

DRIVE ON BARBERRY PLANNED IN COUNTY

Federal Agents Expected Here Later to Conduct War On This Shrub

Within the near future Lake County is to be made the scene of a determined drive to wipe out the barberry bushes that spread black stem rust upon wheat. At the present time E. P. Little and J. A. Twardock, field men of the federal department of agriculture, are scouring Knox county in quest of the dangerous barberry bushes. So far, 1,500 of these bushes have been located there and destroyed. It is said that Lake County will be one of the counties to be visited in the near future.

During the recent war there was a determined drive on this type of barberry and hundreds of bushes in this county were destroyed. Throughout the county the bushes shared the same fate. Since that time however, it is said that many of this type of bushes have sprung up and it is to eradicate them that the federal officers are to carry their fight over the entire state.

Salt is used in killing the plants, ten pounds being used for each bush. Thirty tons were shipped to Knox county for the purpose and a large part of it already has been used by field men in that and adjacent counties. Many of the bushes were found in groves near wheat fields from where the disease, which develops on the plant, could spread readily to the wheat. The barberry is prolific and grows rapidly. Only by a determined effort can it be eradicated.
