

NOTICE OF LETTING CONTRACT Assessment No. 283 BOARD OF LOCAL IMPROVEMENTS OF THE CITY OF HIGHLAND PARK.

NOTICE IS HEREBY GIVEN that bids will be received for the construction of a connected system of sanitary sewers to be laid in, along and under County Line Road, Green Bay Road, Ridgewood Drive, Braeside Road, Marion Avenue, Oak Grove Avenue and Burton Avenue, all in the City of Highland Park, County of Lake and State of Illinois, as a whole in accordance with the ordinance therefor.

Said bids will be received by the Board of Local Improvements at its office in the City Hall, Highland Park, Illinois, until 5 o'clock P. M. on the 5th day of September, 1924, at which time and place they will be publicly opened and read.

The specifications and blank proposals will be furnished at the office of the Board of Local Improvements in the City Hall of said City. The contractor will be paid in bonds, which bonds will draw interest at the rate of six (6) per cent per annum.

The successful bidder for the construction of said improvement will be required to enter into bond in a sum equal to one-third of the amount of his or their bid with sureties to be approved by the President of the Board of Local Improvements when entering into the contract for the construction of said improvement.

All proposals or bids must be accompanied by a certified check payable to the President of the Board of Local Improvements of the City of Highland Park for the sum of not less than ten (10) per cent of the aggregate of the proposal.

Said proposal must be delivered to the President of the Board of Local Improvements in open session of said Board at the time and place fixed herein for the opening of the same.

No proposal or bid will be considered unless accompanied by check herein for the opening of the same.

The Board of Local Improvements reserves the right to reject any or all bids if they deem it best for the public good.

F. A. PRESTON, JOSEPH B. CARD, LYLE GOURLEY, Board of Local Improvements of the City of Highland Park.

NOTICE OF LETTING CONTRACT Assessment No. 281 BOARD OF LOCAL IMPROVEMENTS OF THE CITY OF HIGHLAND PARK.

NOTICE IS HEREBY GIVEN that bids will be received for the construction of a connected system of cast iron water pipe with hydrants, valves, water vaults, connections, and fittings, including sand for backfill, to be laid in County Line Road, Green Bay Road, Burton Avenue, Braeside Road, Ridgewood Drive, Oak Grove Avenue, Marion Avenue, Northmoor Road, Flora Place, Blackstone Avenue, Broadview Avenue, Pleasant Avenue, Washington Place, Roger Williams Avenue and Hillside Drive, all in the City of Highland Park, County of Lake and State of Illinois, as a whole in accordance with the ordinance therefor.

Said bids will be received by the Board of Local Improvements at its office in the City Hall, Highland Park, Illinois, until 5 o'clock P. M. on the 5th day of September, 1924, at which time and place they will be publicly opened and read.

The specifications and blank proposals will be furnished at the office of the Board of Local Improvements in the City Hall of said City. The contractor will be paid in bonds, which bonds will draw interest at the rate of six (6) per cent per annum.

The Board of Local Improvements reserves the right to reject any or all bids if they deem it best for the public good.

F. A. PRESTON, JOSEPH B. CARD, LYLE GOURLEY, Board of Local Improvements of the City of Highland Park.

NOTICE OF AWARDING CONTRACT

Notice is hereby given to all persons interested that bids for the furnishing of all labor, tools and materials necessary for the construction of a connected system of sanitary sewers for a portion of Southeast Highland Park were opened on the 1st day of August, A. D. 1924, and Chas. M. Porter Co. being the lowest responsible bidder, the contract was awarded to said Chas. M. Porter Company on the 15th day of August, A. D. 1924.

Said bid for the work is as follows: The following tile pipe sewer shall be constructed of vitrified salt-glazed, hub and spigot tile pipe with Portland cement mortar and oakum joints, mortar composed by volume of one (1) part Portland cement and two (2) parts sand mixed with sufficient water, and includes all trenching, sheeting, pipe, pipe laying, backfilling, and removal of all surplus excavated materials.

2086 lineal feet of fifteen (15) inch inside diameter double strength tile pipe sewer in tunnel, at an average depth of thirty-five (35) feet, at Fifteen Dollars fifty cents (\$15.50) per lineal foot \$32,333.00

92 lineal feet of fifteen (15) inch inside diameter double strength tile pipe sewer, laid in an average depth of nine (9) feet, at Three Dollars no Cents (\$3.00) per lineal foot \$276.00

898 lineal feet of twelve (12) inch inside diameter tile pipe sewer, laid at an average depth of eight (8) feet, at Two Dollars fifty cents (\$2.50) per lineal foot \$2,245.00

700 lineal feet of ten (10) inch inside diameter tile pipe sewer, laid in tunnel, at an average depth of thirty (30) feet, at Nine Dollars fifty cents (\$9.50) per lineal foot \$6,650.00

1206 lineal feet of ten (10) inch inside diameter tile pipe sewer laid at an average depth of twenty-two and five-tenths (22.5) feet at Seven Dollars no Cents (\$7.00) per lineal foot \$8,442.00

10652 lineal feet of eight (8) inch inside diameter tile pipe sewer, laid at an average depth of twelve (12) feet, at Three Dollars fifteen Cents (\$3.15) per lineal foot \$33,553.80

140 lineal feet of ten (10) inch internal diameter, asphaltic coated, cast iron pipe sewer, weighing fifty seven and one-tenth (57.1) pounds per lineal foot, with lead and oakum joints laid in tunnel at an average depth of twenty-five (25) feet, including all tunneling, sheeting, backfilling, and removal of all surplus excavated materials, laid complete at Four Dollars twenty-five Cents (\$4.25) per lineal foot \$588.75

1619 lineal feet of ten (10) inch internal diameter, asphaltic coated, cast iron pipe sewer, weighing fifty seven and one-tenth (57.1) pounds per lineal foot, with lead and oakum joints, laid in open trench at an average depth of seven and five-tenths (7.5) feet, including all trenching, backfilling and removal of all surplus excavated materials, laid complete at Three Dollars seventy-five Cents (\$3.75) per lineal foot \$6,118.75

The following ninety-seven (97) manholes shall be constructed of Portland cement, composed by volume of one (1) part cement, two (2) parts sand, and four (4) parts gravel or crushed stone, mixed with sufficient water, walls and bottom nine (9) inches thick, inside diameter three (3) feet, six (6) inch, with three-quarter (¾) inch round wrought iron ladder rungs spaced sixteen (16) inches apart from top to

bottom, with four hundred eighty (480) pound cast iron manhole covers, average thickness of metal one and one-quarter (1 ¼) inches, diameter of lid two (2) feet, including all excavation, backfilling and removal of surplus excavated materials:

11 manholes, from twenty-eight (28) feet to forty-one (41) feet in depth, average depth thirty-five (35) feet, constructed complete at Four hundred seventy Dollars no Cents (\$470.00) each \$5,170.00

15 manholes from sixteen (16) feet to twenty-six (26) feet in depth, average depth twenty (20) feet, constructed complete at Two hundred eighty five Dollars no Cents (\$285.00) each \$4,275.00

46 manholes, from seven (7) feet to sixteen (16) feet in depth, average depth twelve (12) feet, constructed complete at One hundred forty four Dollars no Cents (\$144.00) each \$6,624.00

25 manholes, from three (3) feet to seven (7) feet in depth, average depth five (5) feet, constructed complete at Fifty eight Dollars fifty Cents (\$58.50) each \$1,462.50

384 lineal feet of six (6) inch inside diameter vitrified salt-glazed, hub and spigot tile pipe drop connections (not including fittings), in-cased in Portland cement concrete six (6) inches thick, composed by volume of one (1) part Portland cement, two (2) parts sand, and four (4) parts gravel or crushed stone, mixed with sufficient water from six (6) inches below bottom of main sewer to top of each said drop connections, made integral with the wall of manholes, including excavation, backfilling and removal of all surplus excavated materials, at One Dollar no Cents (\$1.00) per lineal foot \$384.00

The following fittings shall be vitrified, salt-glazed, hub and spigot tile pipe fittings and shall be used in connection with the installation of the above three hundred and eighty four (384) lineal feet of six (6) inch drop connections. All free ends of said fittings shall be closed with tile discs cemented in place:

4 fifteen (15) inch by six (6) inch tees, in place at Two Dollars fifty cents (\$2.50) each \$10.00

1 eight (8) by six (6) inch double tee, in place at Three Dollars no Cents (\$3.00) each \$3.00

3 ten (10) by six (6) inch tees, in place at Two Dollars no Cents (\$2.00) each \$6.00

each \$6.00 17 eight (8) by six (6) inch tees, in place at Two Dollars no Cents (\$2.00) each \$34.00

7 eight (8) inch by eight (8) inch by eight (8) inch double tees, in place at Two Dollars no Cents (\$2.00) each \$14.00

6 eight (8) inch by six (6) inch reducers, in place at One Dollar fifty Cents (\$1.50) each \$9.00

8 eight (8) inch by six (6) inch by six (6) inch double Y's, in place at Two Dollars no Cents (\$2.00) each \$16.00

3 twelve (12) inch by six (6) inch tees, in place at Two Dollars no Cents (\$2.00) each \$6.00

25 six (6) inch ninety (90) degree bends, in place at fifty Cents (\$.50) each \$12.50

1 ten (10) inch by eight (8) inch tee, in place at Two Dollars no Cents (\$2.00) each \$2.00

420 lineal feet of eight (8) inch vitrified salt-glazed, hub and spigot tile pipe upper level sanitary sewer connections with Portland cement mortar and oakum joints, mortar composed by volume of one (1) part Portland cement and two (2) parts sand, mixed with sufficient water, at average depth of eight and five-tenths (8.5) feet, including all trenching, pipe laying, backfilling and removal of all surplus excavated materials, laid complete at Two Dollars no Cents (\$2.00) per lineal foot \$840.00

1 four (4) inch cast iron body, bronze mounted, gate valve for blow-off, set complete in place, including eight (8) feet of four (4) inch internal diameter, asphaltic coated cast iron pipe weighing twenty (20) pounds per lineal foot, one (1) four (4) inch cast iron cap, one (1) eight (8) inch by four (4) inch cast iron tee, all excavation, backfilling, removal of all surplus excavated materials, complete in place at Forty Dollars no Cents (\$40.00) each \$40.00

1 valve vault of Portland cement concrete, composed by volume of one (1) part Portland cement, two (2) parts torpedo sand and four (4) parts gravel or crushed stone mixed with sufficient water, walls and bottom six (6) inches thick, inside diameter four (4) feet, with asphaltic coated cast iron manhole cover, weighing four hundred eighty (480) pounds, including all excavated materials, constructed complete at Forty Dollars no Cents (\$40.00) each \$40.00

1 connection to present ten (10) inch cast iron sanitary sewer, including necessary excavation, cutting of ten (10) inch cast iron sewer and the setting of one (1) ten (10) inch by ten (10) inch by ten (10) inch cast iron slant or "Y", and one (1) ten (10) inch forty-five (45) degree cast iron pipe bend, and backfilling, at Fifty Dollars no Cents (\$50.00) each \$50.00

2 eight (8) inch internal diameter, asphaltic coated cast iron one-sixteenth (1-16) bends, in place with lead and oakum joints, at Twelve Dollars no Cents (\$12.00) each \$24.00

1 eight (8) inch internal diameter, asphaltic coated cast iron one thirty second (1-32) bend, in place with lead and oakum joints, at Twelve Dollars no Cents (\$12.00) each \$12.00

The following house connections are to be vitrified, salt-glazed, hub and spigot tile pipe slants or Y's, all free ends to be closed with vitrified tile discs cemented in place with Portland cement mortar composed of one (1) part cement and two (2) parts sand, mixed with sufficient water:

20 twelve (12) inch by six (6) inch Y's, in place at Two Dollars fifty Cents (\$2.50) each \$50.00

15 fifteen (15) inch by six (6) inch Y's in place at Three Dollars no Cents (\$3.00) each \$45.00

8 ten (10) inch by six (6) inch Y's, in place at One Dollar fifty Cents (\$1.50) each \$12.00

350 eight (8) inch by six (6) inch Y's in place at One Dollar no Cents (\$1.00) each \$350.00

13 ten (10) inch by six (6) inch internal diameter asphaltic coated cast iron Y's, the six (6) inch hubs closed with six (6) inch plugs, in place with lead and oakum joints, complete in place at Twenty-five Dollars no Cents (\$25.00) each \$325.00

2 eight (8) inch by six (6) inch internal diameter asphaltic coated cast iron Y's, the six (6) inch hubs closed with six (6) inch plugs, in place with lead and oakum joints, complete in place at Twenty Dollars no Cents (\$20.00) each \$40.00

300 lineal feet of temporary walk as located on plates 1 and 3, consisting of two (2) inch by eight (8) inch plank twelve (12) feet long, laid walk three (3) planks wide, nailed to two (2) inch by six (6) inch joist spaced six (6) feet apart, center to center, throughout the length of the walk, including all

materials and necessary labor to construct and remove said walk. Materials to be the property of the contractor after completion of the work, at One Dollar no Cents (\$1.00) per lineal foot \$300.00

300 lineal feet of temporary fence as located on Plate 1, consisting of four (4) inch cedar posts spaced ten (10) feet apart center to center. Said posts shall extend at least thirty (30) inches in the ground, and said fence shall be at least four (4) feet in height. Three (3) one (1) inch by four (4) inch boards shall extend the full length of said fence, and shall be nailed to said posts. Said boards shall be spaced as designated by the Engineer; the price bid shall include excavation, all material and all labor for constructing and removing said fence. The material shall become the property of the contractor after completion of the work. At One Dollar no Cents (\$1.00) per lineal foot \$300.00

Total amount of bid \$114,342.00

The owners of a majority of the frontage of the lots and land upon said streets, wherein said work is to be done, may, within ten days of the date hereof, elect to take said work and enter into a written contract to do said work at ten per centum less than the price at which the same has been awarded.
