THE CAFETERIA
Don't fuss with dinner these bright sunny Sundays. Bring the family to The Cafeteria. The hundreds that eat there say our food is "the best they have ever tasted." Then go out for a walk or drive instead of spending the rest of the day doing dishes and cleaning up the house.

INVESTMENT BIGGER IN UTILITY LINES

Relation of Gross Income and Amount Invested Varies in this Business

A few automobile investigators, working under the direction of Secretary of State Louis L. Emmerson, force the collection of at least a quarter of a million dollars a year in automobile fees which otherwise would escape.

Although each investigator must cover several counties, as a rule, by co-operating with local authorities and happening in at unexpected times they succeed in keeping the state pretty well clear of last year's license plates.

In addition to rounding up delinquent owners, they also co-operate in the enforcement of automobile laws and, because their authority is not limited by county or city boundaries, they do very effective work.

Over 2,000 arrests were made personally by these investigators last year, and 30,000 drivers who were ignoring traffic laws were warned.

Fine thing for the kids to practise on the piano, but it does not help much for them to pound the keys as if they were driving in a tent pi.

THE HIGHLAND PARK HOSPITAL

HIGHLAND PARK, ILLINOIS

ORGANIZED AND OPERATED NOT FOR PROFIT BUT FOR THE BENEFIT OF THE COMMUNITY

EX-WO EXPANDED WOOD LATH CORPORATION

Tuscaloosa, Alabama

Expanded Wood Lath PROVED STIFFER THAN STANDARD CONSTRUCTION

Comparative tests made by Robert W. Hunt & Co., Engineers

Results of Test

Load Applied in Pounds	A—Lath and Sheathing Inches	B—Expanded Wood Lath Inches
200	0.05	0.08
400	0.15	0.15
600	0.30	0.30
800	0.50	0.50
1000	1.07	0.57
1200	1.93	0.81
1400	3.45	0.87
1500	5.13	0.92

IDENTICAL panels with frames four feet high and eight feet long, constructed with sills and studs 7 1/2 x 3 1/2 in. and studs placed 16 in. on centers, were prepared.

FRAME A had one side covered with 3/4 x 6 in. dressed sheathing nailed at each stud with 8D nails, and the other side covered with common lath spaced 2 in. on centers and staggered in the usual way.

FRAME B was covered on both sides with Expanded Wood Lath sheets 8 ft. long and 16 in. wide, fastened at the juncture of each rib and stud with 5D nails.

In testing these panels the bottom sill was clamped to the base of testing machine and the pull applied to the top sill in the direction of its length.

Expanded Wood Lath, by this test, has been proven much stiffer than the old standard construction. But added to this advantage are its high insulating qualities and the much lower construction cost when used for either exterior stucco or interior plaster.

Automatically Backplasters between the lath and asphalt felt. Not an ounce of material wasted. You get the intrinsic value and strength of every ounce used.

Complete Report of This Test and Descriptive Literature Will Be Sent on Request
