WOMEN'S VOTE MAY DECIDE ELECTION

Committee Believes Work en's Vote Important In Election

cide this election, according to Mrs. Alvin T. Hart, vice chairman of the republican national committee, in a statement issued yesterday. There are 217,682 women in the state of Illinois who, as new voters, will this year cast ballots in their first presidential election. There are 210,458 young men who will also cast their first presidential ballots this year.

Tremendous Responsibility "Women have a tremendous responsibility in the present campaign, Mrs. Hert said. "In 1920 the stay at home vote of 25,705,063 was a distressing evidence of the lack of in terest in governmental affairs on the part of about fifty per cent of the people of this nation.

"There will be a total of over 7,-000,000 eligible to vote who will assume the duties of citizenship for the first time this year and women should see that these young men and women

"Women believe that the standard bearers of the republican party are first of all typical Americans. They have spiritual qualities which fit them for leadership. Courage has marked every step in the lives of Coolidge and Dawes. They are men of de-

Measure up to Test "From reports received from republican women in various sections. of the country it is evident that women citizens are measuring up to their responsibilities. By means of speeches, literature and personal appeal women are reminding the citizens of this country that before they can vote they must register. A special 130 drive to bring out a big registration is now under way.

"Republican women speakers will stump the country for Coolidge and Dawes. They represent women from farms, industries, homes and clubs, in fact all walks of life. Mrs. Florence Riddick Boys is director of women at national headquarters in Chicago, and Miss Helen Varick Boswell is in charge of the routing of speakers in the eastern division headquarters, New York city."

There are 8,500,000 electric flat irons in the United States. Police incourage better lighting of

streets and alleys to decrease crime. The electric bell was invented in 1831 by Joseph Henry, a school teacher.

SPECIAL ASSESSMENT NOTICE Number 84

NOTICE is hereby given to all persons interested that the City Council of the City of Highwood, Lake County, Illinois, have ordered the grading, draining, paving with Portland ce- 47ment concrete and otherwise improving Walker Avenue from the easterly line of Waukegan Avenue east to the east City limits of Highwood, in the City of Highwood, County of Lake, and State of Illinois. The ordinance for the same being on file in the office of the City Clerk of said City, and having applied to the County Court of Lake County for an assessment for the cost of said improvement according to benefits, the final hearing thereon will be had on the third day of October, A. D., 1924, at 10 o'clock A. M., or as soon thereafter as the business of the Court will permit.

Said assessment is payable in ten (10) installments, with interest at the rate of six per centum (6%), pursuant to law, from and after the date of issue of first voucher. All persons desiring may file objections in said Court before said day and may appear on the hearing and make

HARRY OLANDER. Officer appointed to make said assessment. Dated at Highwood, Illinois, September 18th, A. D., 1924.

35 lineal feet of six (6) inch internal diameter vitrified, salt-glazed, hub and spigot

SKELETON FOUND NEAR INGLESIDE

May Be That of An Indian but Investigation Indicates A Later Burl

the 12th day of September, A. D. & Stowell, who conduct a grocery known as Indian Channel, one-fourth

of a mile east of Inglesi Kaskai discovered the skull and some teeth, about three feet under the surface. Further kamination proved that the body was buried without having been placed in a coffin

of the firm, notified the heriff's of fice. Sheriff Ed Ahlstrom, Chief Deputy Lester Tiffany, and Deputy Coroner Ed Conrad went to the scene they found that all the lones of the skeleton were till lying in their original position and were well preserved

Deputy Coroner Conrad is of the opinion that the skeleton is that of an elderly man, and has been bura number of Indian burial grounds in the Fox Lake district, but the manner in which this skeleton was buried indicates that it is not that of an Indian. It is too recent, and the bones are in too good a state of preservation, according to Deputy Coroner

The Quicker, Easier Way

SAVE the time and trouble of dictating a letter-avoid waiting three or four days for a reply to come through the mails.

THE problem of the Illinois Bell. Telephone Company to-day is the one of growth. To take care of demands for new service we must build new plant constantly and this requires new capital in large amounts. To obtain such capital requires assurance of satisfactory return.

Turn to your telephone and settle the matter quickly and satisfactorily by direct conversation over the Bell long distance lines.

Whenever possible use the station-to-station service and take advantage of the lower rates.

BALLOON GUM-DIPPED CORDS

Read What a Few & of Them Say-

"They ride beautifully over any kind of going." J. F. Bicknell, Wor-"Skidding is done away with on wet streets at high speed." Geo. P. Bell, Fairfield, Ala. "None of that terrible jarring and joiting to the car or to occupants."—
H. V. Nalley, Rockford, Ill. "Feel sure depreciation will be cut 25% to 50%."—A. N. & J. A. Williams, Nashville, Tenn. "Absence of skid or slip even on snow and ice is really wonderful."— Alvan T. Simonds, Fitchburg, Mass. "Have used less gas for same mile-age with more power,"-F. Davison, Greeley, Colo. "I have more power, the car steers easier and rides easier."—J. L. Johnson, Northfield, Minn. "The gas mileage is holding up to 20 miles per gallon as before."—B. H. Avery, Bowling Green, Ohio, "291 miles through snow, mud, bumps and water without chains in 13 hours."—Sam Thompson, Hett-inger, North Dakgta.

"Saving in wear and tear on car a big factor in putting on Firestone Bal-loons."—C. A. Allen, Jr., Chicago, Ill. "40 miles an hour over rough road without feeling any shock whatever."

— Harry A. Dorman, Secramento, Cal. "Good for an average of ten miles more per hour over had roads."— Kirk Brown, Montclair, N. J. "12,362 miles on demonstrator car with as much milesgadeft to run."— Conrad A. Smith, Boston, Mass.

ASK any owner of full-size Balloon Gum-Dipped Cords about the comfort, safety and operating economy they are giving him. Let his experiences give you the facts about these wonderful tires. His comments will match these almost word for word.

There are hundreds of thousands of Firestone Gum-Dipped Balloons on the road today. Wherever you drive you see them-and you cannot help but notice the new enjoyment these owners are getting from their cars.

This immensely increased production has brought about many manufacturing economies, which you can take advantage of today by equipping your car with Balloon Gum-Dipped Cords.

Firestone Dealers are quoting special net prices on the complete job. Trade in your old wheels on a new set built for full-size Balloons. In addition get our liberal rebate on your old tires.

Equip now for comfort and economy-as well as for the safety and better car control you will need this fall and winter.

Call on the nearest Firestone Dealer-for information-for your price-and for a quick, carefully-engineered changeover to real Gum-Dipped Balloons.
