 at the parsonage.
 On Sunday morning after service
 the regular meeting of the congrega-
 tion will take place.

LIBERTYVILLE MAN EXPLAINS POSITION

ON POOR FARM MATTER

Member of Citizens Committee
 Gives View of Community
 As He Understands
 Them To Be

The following letter has been re-
 ceived from G. Carroll Gridley of
 Libertyville, a member of the citizens
 committee on the poor farm site mat-
 ter, in which he explains what he un-
 derstands as the position of the Lib-
 ertyville citizens interested as regards
 the county farm situations. The let-
 ter follows:
 Mr. Gridley's Letter
 October 6th, 1924.

To the Editor,
 Highland Park Press,
 Highland Park, Illinois.
 Dear Sir:

Please permit me to correct the
 thought expressed in the editorial col-
 umn of your issue of Oct. 2nd, to the
 effect that it was the plan of Liberty-
 ville citizens to secure the Lake Coun-
 ty Poor Farm for profit.
 The offer of Libertyville citizens
 was prompted by no such thought or
 desire, but was made as a result of
 the demand from the Poor Committee
 of the Lake County Board of Super-
 visors, that if the citizens of Liberty-
 ville wished the County Farm re-
 moved they should make an offer for
 the present site. The spokesman for
 the Libertyville committee stated
 these facts to the Board of Supervisors
 and further stated that his com-
 mittee was aware that the Board
 of Supervisors could not accept any
 offer for the property, of whatever
 amount it might be, without first giv-
 ing due notice and public opportu-
 nity at which anyone might raise the
 bid to protect the county in securing
 the best obtainable price that the
 property would bring.

On behalf of the Libertyville Ki-
 wanis Club and the citizens of Lib-
 ertyville, whom the committee repre-
 sented, it was further stated and
 included in the committee's written
 proposal, that should the Board of
 Supervisors decide to sell the County
 Farm that this organization and the
 citizens of Libertyville would co-op-
 erate with the Lake County Board of
 Supervisors in securing the best ob-
 tainable price for the property.
 The offer of \$800.00 per acre made
 by a group of more than sixty resi-
 dents of Libertyville and surrounding
 community, exceeded by thirty-three
 and one-third percent (33 1/3%) the

highest price bid for farm property
 by leading subdividers in Lake County
 and Chicago from whom bids had
 been solicited by the Libertyville com-
 mittee. Because the private bids
 seemed too low to be worthy of con-
 sideration, the higher bid by the citi-
 zens of Libertyville was made as an
 assurance of the sincerity of these
 citizens in their wish to co-operate
 with the Lake County Board to bring
 about the removal of the County
 Farm from its present site.

Libertyville's business district is
 pocketed on three sides by a lake, a
 cemetery, a railroad right-of-way and
 a gravel pit. It is seeking relief from
 this throttle hold on its natural
 growth and from conditions which are
 depreciating its property values.

Citizens of Libertyville believe that
 this may be brought about with full
 regard for the safety and happiness
 of the inmates of the County farm
 and not only with entire fairness but
 with a substantial profit to the tax-
 payers of Lake county. This is the
 basis of their request and this is the
 situation that was made known to
 the supervisors prior to their casting
 their final votes.

In asking for the removal of the
 County Poor farm the citizens of
 Libertyville have asked only such
 courtesy and consideration as they
 would gladly give another community
 with a similar problem, and it is their
 sincere hope that the board of super-
 visors may see fit to give them this
 consideration in their future delibera-
 tions.

In all kindness, I beg to remain,
 Sincerely your friend and neighbor,
 G. Carroll Gridley,
 Member of citizens committee of
 Libertyville regarding County Farm
 site matter.

IMPROVED ROADS SAVING TO STATE

The value of hard roads in dollars
 and cents has been figured out by
 Frank T. Sheets, chief state highway
 engineer. The saving in one year
 from the 1200 miles of pavement be-
 ing built in the state this year will be
 between \$5,000,000 and \$15,000,000 to
 operators of motor vehicles, he esti-
 mates.

Research work has established that
 a paved road carrying 500 vehicles per
 day saves \$6,575 per mile each year
 over the cost of operating these vehi-
 cles on an unpaved road, Sheets ex-
 plained. As all Illinois trunk line
 highways carry an average of at least
 500 vehicles a day, it is only necessary
 to multiply the mileage by \$6,575 to
 find the annual saving.
