

NOTICE OF HEARING ON CONFIRMATION

NOTICE IS HEREBY GIVEN to all persons interested, that the President and Village Board of the village of Deerfield having ordered the improvement to be made to consist of: a system of sewers in Deerfield avenue and other streets in the village of Deerfield, Lake County, Illinois, together with manholes, catch-basins, catch-basin connections, house and catch-basin slants and Y branches and a sewer disposal plant and all auxiliaries and appurtenances thereto, and outlet for same, the ordinance for same being on file in the office of the Village Clerk of said Village, and said Village having applied to the County Court of Lake County, Illinois, for the confirmation of an assessment of the cost of said improvement, according to the benefits, and an assessment therefor having been made and returned to said court, entitled "SPECIAL ASSESSMENT, No. 22, Village of Deerfield." The final hearing thereon will be held on the 18th day of October, 1924, at ten o'clock A. M., or as soon thereafter as the business of the court will permit. All persons desiring may file objections in said court before said date and may appear on the hearing and make their defense.

IT IS FURTHER PROVIDED by the ordinance that said assessment shall be collected in ten annual installments, with interest at the rate of five per cent, per annum, as provided by law.

Dated at Deerfield, Illinois, September 30th, 1924.

RAY HUMMEL

Person appointed by the President of the Board of Local Improvements of said Village of Deerfield, to make said assessment.

**ALL SCHOOL PUPILS
MAY ENTER CONTEST
FOR ELECTRICAL HOME**

Other Prizes Also to Be Given
For Winning Essays on The
Subject of Better
Home Lighting

Every school boy and school girl ten years of age and over, residing in this community is eligible to participate in the Better Home Lighting Contest, a national competition for general, district and local prizes, sponsored by the Lighting Educational Committee, which is representative of the electrical interests of the country.

The principal national award is a \$15,000 model electrical home which will be won by the boy or girl who submits the best essay, not to exceed 600 words, on good home lighting, telling how the contestant would re-light his or her own home. Other national awards include college scholarships. Contestants for the national honors must be winners of district prizes and those competing for district prizes must win local awards.

Organizing Schools
The North Shore Electrical League, of which the utility company serving this territory and other representatives of the electrical industry are members, is managing the movement locally, organizing schools for the contest and selecting local judges for the local competition.

To aid the contestant in the study of proper lighting and preparation of the essay every child who registers is to be given a Home Lighting Primer, which will be supplied by the North Shore Electrical League through the school. It contains rules, a series of brief, simple lessons on home lighting and all material necessary.

Eleven Leagues
The Suburban Electrical League, comprising the local electrical leagues in the territory surrounding Chicago has been divided into eleven leagues for the contest. First and second grand prizes of radio sets, are being offered as territory awards. In each of the eleven local league territories there will be two first prizes of a watch, one for a boy and a wrist-watch for the girl. There will be two second prizes also of a kodak for both a boy and girl. In each school within the territory of the Suburban Electrical League, from which at least five pupils participate in the competition a fountain pen will go to both a boy and girl. In the fifty larger schools of the territory there will be additional local second prizes of gold pencils.

Educators Aiding
Educational authorities, locally and nationally are supporting the Better Home Lighting Movement and will be on the judges' committee to judge the essays submitted.

The North Shore Electrical League reports that considerable progress is being made with the organization of schools in this section. The offering of local prizes is intriguing the interest of many pupils and a number have expressed confidence in their ability to make a good showing in the competition for the larger awards.

**THOMPSON TO HAVE
BIG RADIO STATION**

Report That Former Mayor Of
Chicago May Erect One;
Others Planned

William Hale Thompson, former mayor of Chicago, will own and operate the new radio station on the tower of the Wrigley building. This information was given out this week. Just when construction on the station will be started and what its power will be has not been decided as yet.

Another added starter in the contest for hours and wavelengths going on constantly in Chicago was announced during the week. This is the Commonwealth Edison company, which will place its own station on its own building, according to the word which leaked out. This station it is believed, will be one of the new "super" power units greatly desired by the concerns making stations all of which are linked up under the direction of the American Telephone and Telegraph company. It is not expected definite word regarding this station will be officially announced until after the radio conference in Washington Oct. 6, at which time the matter of permitting stations to use more than 1,000 watts power will be discussed.

**RED FOX CAPTURED
INSIDE CITY LIMITS**

Evanston Has Old-Time Hunt
When Reynard Discovered
Wandering

What is believed to have been the first fox hunt within the limits of an Illinois city since pioneer days resulted in the capture of a red fox in the Evanston residence district. A mongrel dog led the hunt and proved himself to be a real foxhound. He chased the fox into nets held by Martin Casper, a city fireman; and Walter G. Casler, a locksmith, and the animal was taken alive.

Choice fowls fattening in Evanston hen coops are believed to have lured the fox into the city.

**FIRE PREVENTION
WEEK PROCLAIMED**

Thursday, the Ninth, Special
Day For Observance; Citizens
Urged to Clean Up
All Rubbish

The following proclamation regarding fire prevention week has been issued by Governor Len Small:

To the People of Illinois, Greeting:
Illinois has increased its material resources at a wonderful rate. We are a progressive state. Our road building program, which is giving us the finest system of paved highways in the country, is a tribute to our initiative. Our progress in other lines has been apace.

It is fully as important to conserve resources at it is to create them. Yet we permit more than \$20,000,000 of property to be destroyed by fire each year in this state. I say we permit it, because fully three-fourths of all fires are caused by acts of negligence or carelessness, and are strictly preventable.

If unabated, our fire losses will cost us \$100,000,000 in the next five years, enough to pay for the proposed new bond issue roads.

Fire leaves a trail of ruin and desolation in home, factory, store and every other kind of property. It kills and maims hundreds.

Now, therefore, I, Len Small, Governor of Illinois, do hereby appoint and proclaim the week from October 5 to October 11, 1924, to be observed in the State of Illinois as Fire Prevention Week.

Let us not have merely a perfunctory observance of Fire Prevention Week. Let each citizen rid his premises of fire hazards and keep them free from such hazards thenceforth.

Heating equipment including chimneys should be made safe. Electrical wiring should be examined and defects corrected. Rubbish should be thoroughly cleaned up and safely disposed of. Carefulness should be exercised with all things which may cause fire.

Especially should schools, churches, theatres, public halls, hospitals, hotels and the like be made as safe as possible, with adequate exit facilities. Fire drills should be practiced in all schools.

Thursday, October 9, is designated as Fire Prevention Day because it is the anniversary of the Chicago fire. It would be appropriate, where possible, to have practical, instructive talks and programs on that day in the public schools and before chambers of commerce and civic organizations.

Local officials should do all possible to reduce fire losses in their communities. Cooperation of press and pulpit is earnestly invited to the same end.

In witness whereof, I have hereunto set my hand and caused the Great Seal of the State of Illinois to be affixed.

Done at the capitol in the city of Springfield this 15th day of August in the year of our Lord, one thousand Nine Hundred and Twenty-Four and of the State of Illinois the One Hundred and Sixth.

LEN SMALL

**PART OF RONDOUT
LOOT ROUND, REPORT**

Currency Totalling \$7,000 Is
Found in Kansas City,
It Is Said

Currency totaling \$7,000 believed to be part of the loot in the \$2,000,000 mail robbery at Rondout, several months ago, was found recently in a safety deposit box in Kansas City and seized by United States authorities, according to John Elliot Byrne, assistant United States attorney.

The money, taken by order of C. C. Madison, assistant United States attorney at Kansas City, is to be brought here. The deposit box had been rented, officials say, to Miss Helen McNeil, a niece of Herbert Holliday, who was arrested in Little Rock, Ark., in connection with the robbery.

Holliday, arraigned before Commissioner Beidler in Chicago was held in default of \$100,000 bail.

It is reported from Kansas City that Miss McNeil with her attorney will go before the federal court there Monday and demand that the money seized be returned to her.

The only part of the Rondout loot recovered was several thousand dollars found in the possession of the five Newton brothers who are awaiting trial in Chicago.

The boys who were very stoical about those low marks on their school reports, may be quite depressed over their low percentage in the base hit column.

Now if those splendid athletes who throw the hammer so wonderfully, will show equal power in throwing forksful of hay up to the barn lofts, all will be well.
