Food For Thought

It requires 1900 cubic feet of air to burn one gallon of oil. The Kleen-Heet motor and blower unit measures out and delivers that amount of air. The result is perfect combustion.

Don't be lead to believe that you can burn oil relying on flue draft alone; if you do, you are going to have a costly and sad experience. Invest in a Scientific and Reliable Automatic Oil Burner, the

Represented in Lake County by Heating Engineers which assures owners of correct installations and prompt attention. Send for names of KLEEN-HEET owners in your own neighborhood.

If we could have a few less clean sweeps at elections, and a few more clean sweeps in the political offices it would be for the public benefit.

GOVERNMENT OWNED UTILITIES DREAM

Explains Why Theory Can Not Work Out; Cause Group Rule

Railroad and other utility propering state hospital last December were liege of paying taxes, President Cool-

employe's personal property. The state cent in many agricultural counties accompanied it with the statement that in industrial areas government ties might not run that high.

"When we recall the appalling loss public utilities," he said.

"If the people lose control of the It is estimated that the people of arteries of trade and the natural rethe United States have given more sources of the mechanical power, the than two billion dollars for European nationalization of all industry could

> Domination by Factions "With railways and electrical utilities under political control, the domly entrenched in the whole direction of our government that the privilege of citizenship for the rest of the people would consist largely in the payment of taxes."

The President pointed out the fact that government commissions have set the value of the railroads and certain other public utilities at \$35,000,000,-000 and they have about 2,750,000 employees. The strain on our economic system which would be imposed said, obvious, and he added:

Owned by Millions "These utilities are no longer in the hands of a few, directly or indirectly. They are owned by many millions of our inhabitants. It would mean a loss in public revenue estimated at \$600,000,000 a year."

The whole undertaking, he estimated, would mean about \$1,750,000,-000 annually in bond interest, and an operating budget estimated at about \$9,000,000,000.

URGE UNIFORM FOR ALL LAW OFFICERS

MOTOR CLUBS TELL WHY

Drivers When Halted by Men in Plain Clothes Often Fear Holdup; Recent Fatality Example

Announcement was made today that the Chicago Motor club has endorsed the policy adopted by the American Automobile association, calling attention to the necessity for having all police officers and sheriffs designated by uniform or badge and of warning motorists of the hazards involved in tolerating the placing of firearms in the hands of irresponsible men with authority to detain drivers for inconsequential infractions of the motor vehicle laws.

This action is said to be the result of a recent Illinois fatality which resulted from the shooting of an automobile driver who failed to stop when held up by the assistant superintendent of mails at Peoria who wore no official uniform or badge visible to the motorist.

The matter has attracted the attention of motorists throughout the country and it is believed that organized car owners will welcome the action taken by the legislative board of the A. A. A. in seeking the cooperation of motor vehicle departments in forestalling similar fatali-

The motorist in the case referred to gave every evidence of having presumed that he was being held up by a highwayman when the postal official overstepped his authority by shooting at the tires when the driver failed to stop. "Every sane motorist wants law enforcement" declares Charles M. Hayes, president of the club, "but such enforcement must be above board to be effective-and safe. We cannot afford to tolerate unsafe law enforcement at this stage of mctoring, and the 'special' officer # must be shown that he cannot get # away with manslaughter under guise of the law."

Illinois Voters

ODD CITIZENS VOTE. Those who neglect to vote are not so good; they shirk their responsibility. As an obligation of citizenship, every man and woman of lawful age should cast a ballot Tuesday, November 4.

Men and women who know American institutions vote for a party, and not for individuals. In America the party governs. For sixty-eight years either the Republican party or the Democratic party has been in power at Washington and at Springfield. Either the Republican party of the Democratic party will be in authority at Washington and at Springfield for the coming four years. Upon the party records, as written into the history of America, the Republican party organization believes voters of Illinois should

Mark a Cross in the Republican Circle (X)

Republican party candidates were chosen by the voters of their party; the party is responsible for their selection; they are responsible to the party as well as to the public.

Calvin Coolidge for President, was the overwhelming choice of the Republican National Convention at Cleveland. For his steadfast adherence to national traditions, his sturdy honesty and executive genius, he has the confidence of the American people.

Charles S. Deneen for United States Senator, was nominated in a direct primary by the Republican voters of Illinois. His record as Governor for eight years and as States Attorney of Cook County for eight years is a part of the history of the state's progress to greatness; his accomplishments in office are the boasts of Illinoisans as citizens.

Len Small for Governor, was renominated by a majority vote of the Republican men and women of Illinois. The building of 4,600 miles of paved road in four years without cost in direct taxes; the reduction of rates to utility parrons of \$25,000,000 per year, with improved service; the reduction of the death rate in Illinois from 13.6 to 11.4 per thousand; the reduction of the tax rate from 47.5 cents to 43.3 cents in the \$100 are historical accomplishments of his administration.

Taxes will be of utmost importance for the next four years. At Washington, following a Democratic administration, a Republican administration has cut the income-tax \$1,380,000,000 per year. At Springfield a-

Demogratic administration after four years of an averleft a balance in the general fund of \$528.82

Republican administrations in seven years (including the war period), have had an average tax rate of 53 38 cents in the \$100, and on October 1, 1924, there was in the general \$11,557,729.54

To back Coolidge with Deneen in the Senate and a Republican majority in the House; to back Small with administration officials committed to Republican policies and a Republican Legislature; for lower taxes, more good roads, better and cheaper utility service and efficient administration: Vote. And because the straight ballot is the easy ballot and is always counted,

For President of the United States: ☐ CALVIN COOLIDGE
